REBEL MURDERS AND CRUELTIES .-Hundreds of men have actually been hung and shot in upper East Tennessee by Longstreet's thieves and assassing. When they stormed Stony Point, the cry was "Remember Fort Griswold!" and many a British soldier died that day a vicarious sacrifice for the murderous acts of their brethren. ### DR. WISHART'S PINE TREE TAR CORDIAL

Is the vital principle of the Pine Tree-obtained by a peculiar process in the distillation of the Tar by which its highest medicinal properties are retained. It is the medicine that cures when all others fail.

Hencithe that cures when all others tail.

Here you at Cough! Have you Sore Throat! Have you any of the premonitory symptoms of that most fatal disease—tonscoption?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least one sixth of death's victims.

prevalence and ratinity of death's victims.

What are its symploms?

It usually begins with a short, dry cough, which soon becomes babitual, but for some time nothing is raised except a frieldy mercal. The breathing is some what difficult, and upon slight exercise much harried. A sense of lighteness and oppression at the chest is often felt. As the disease advances, the patient becomes thin in flesh, is ufflicted with lossed appetite, great langer, indelente, and dejection of spirits; may continue in this state for a considerable length of time: and is very roadily after the by slight exposure or fatigue. If these occur, the cough becomes more troublessme, and is attended with expectoration, which is most copious and free early in the morning. It is sometimes streaked with blood. At this stage, night-weats neadly set in and in some cases a profuse blesding of the lengs may also occur. Pain in some part of the chest is foil, and often a difficulty of lying upon one or the other side without severe fits of coughing or a sense of fallness or sufficialing. The pulse becomes full, hard, and frequent, the hectic flush times the checks, and the dire maindy is fast hastening to its close.

tuch tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask, is there a cure!

Communition has been and can be cured by the use of my TAR CORDIAL, even in apparently hopeless cases. This assertion I make with the ability to present the most complete evidence of the truth. Space will not admit of my giving the contents of the many thousands of testimonials to its value, which I have been and an receiving from men said women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form which I will send you free on application. Whether you now determine to try the medicine or not, sand for the circular. After years of study and experiment, I offer this medicine, believing it to be the best remedy for all publicancy and foraction if there are better circuits agents, I carnestly advised their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, What is the principle or cause of your success in the treatment of humaning Consumption? My answer is this:

The inergopration of the digestive organs—the intensify and correlation and envisament of the belood, must expel from the system the corruption which servolus breads. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and envisament of the lungs and throat, penetrating cach disease of the rungs and throat, penetrating cach disease of the lungs and throat, penetrating cach disease of the lungs and throat, penetrating cach disease of the lungs and throat, penetrating cach dis

health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the tritiated surfaces of the lungs and threat, penetrating each dis-cased part, reheving pain, subduing inflamation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to set in conjunction with Nature's constant recuperative ben-dency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

The PINETREE TAR CORDIAL will care Coughs.
