BY OLD NAPOLETE, LTORS. IOWA, MARCE, 1862. Heard ye how the bold M'Clellan, He, the wether with the bell on-He, the head of all the asses-Heard ye how he took Manasses?

When the Anaconda plucky Flopped its tail in old Kentucky; When up stream the gunboats paddled, And the thieving Floyd skeladdled, Then, the chief who all surpasses Hears the word-"Go, take Manasses."

Forty brigades wait around him, Forty blatant trumpets sound him As the pink of all the heroes Since the time of fiddling Neros: "Now's the time," cry out the masses, "Show your pluck, and take Manassas !"

Contrabands came flocking to him: "Lo, flies the enemy-pursue him!"
"No," says George, "don't start a trigger On the word of any nigger; Let no more such rascals pass us, "I know all about Manassas."

When at last a prowling Yankee-No doubt long, and lean, and lanky-Looking out for new devices, Spied the wooden guns as prizes, Bays he, "I sweow, ere daylight passes I'll take a peep at famed Manassas."

Then up to the trenches boldly Marchod ho-they received him coldly; Nary Reb was there to stop him, Mary Minnie ball to drop him, Gathering courage, in he passes: "Jorusalem! I've got Manassas."

Bold M'Clellan hears the story : Osward ! mon, to fields of glory; Let us show the Rebel formen, When we're READY, we're not slow men Wait no more for springing grasses— Onward! onward! to Manassas!"

Baggage trains were left behind him In his cagerness to find them; Upwards the balloons ascended To see which way the Rebels tended; Thirty miles away his glasses Swept th' horizon 'round Manassas.

Out of sight, the foe, retreating, Answered back no hostile greeting; None could tell, as off he paddled, Witherward he had skedaddled. -Then the chief of all the asses Cried, "Hurrah! I've got Manassas."

Future days will tell with wonder How the mighty Anaconda Lay supine along the border, With the mighty Mae to lord her-Tell, on shaft and storied brasses, How HE "took" the famed Manassas

the vital forces in their
vigorous action, and
leaves the system to
fall into disorder and
decay. The scrofulous contamination is variously caused by mercurial disease, low
living, disordered digestion from unhealthy
food, impure air, filth and filthy habits,
the depressing vices, and, above all, by
the venereal infection. Whatever be lift
origin, it is hereditary in the constitution,
descending "from parents to children unto
the third and fourth generation;" indeed, it
seems to be the rod of Him who says, "I will
visit the iniquities of the fathers upon their
children." The diseases it originates take
various names, according to the organs it
attacks. In the lungs, Scrofula produces
tubercles, and finally Consumption; in the
glands, swellings which suppurate and become ulcerous sores; in the stomach and
bowels, derangements which produce indicome ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on gestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrothlous disease.

Ayer's Sarsaparilla is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the care of the disorders it entails. That it is far supethe disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indispatably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Franctions, Pimples, Blotches and Sorse Eruptions, Pimples, Blotches and Sores, Erysipelas, Bose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from Salt Rhenm, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesser, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Avinca Avinca

cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggiets for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had falled to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results tion are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of luman life. The year importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of ATEM SARSHAMILLA, although it is composed of SARSATARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparille in alterative power. By its aid you may protect yearself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the viral functions, and thus expels the distempers which lark within the system or burst out

on any part of it.

We know the public have been descrived. by many compounts of So apperion, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been available to them.
