#### From the Brocklyn Union Peace, when there is no Peace.

Ye noble soldiers in the field, Who shed your blood, but will not yield ; Who leave behind all that is bright That ye may battle for the right ! Oh, say, what think ye of the men Who, hatching treason in their den, With Copperheads, envenomed sting Your victories to naught would bring ?

They see you meet your stubborn foe, They see you thunder blow on blow, They see the traitor reeling stand, They see his fate is in your hand ; Then spring they forth their friends to aid, Throwing disguises in the shade-This shocking war, they ery, must cease, For naught can save our land but peace !

Can "save" our land, ah ! what is "save ?" Is it to crush out all that's brave? Is it to cease what we've begun Just when the victory is won ? Is it to let loose passions wild, Wage war on woman and on child : To burn the homes of orphans young, And let foul murder go unhung?

Is it to bow our glorious flag Submissive to the Robel rag ? Is it to rob from sacred dead The halo that their deeds have shed ? Is it to cause the sick and maimed Of every sear to be ashamed ? Is it to let all tyrants sneer, And stamp their feet on Freedom's bier ?

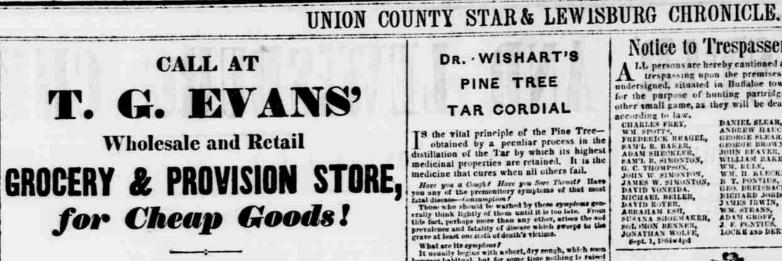

'Twas not for this you nobly fought, And by your blood each vict ry bought. You fought that all men might be free-For Union, and for Liberty ! You want no peace but such as gives Assurance that our country lives ; And that this struggle fierce shall send The traitor to a traitor's end.

Our storm-rent flag again shall wave, But nevermore oppress the slave ; Beneath its folds, from every land, Shall flock a free, uniting band, Who, joining hands in Freedom's cause, Firm for the Union and the Laws, Shall see, rejoicing in their might, When Peace was wrong that War was right.

IT IS & NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U.S. Notes, considers that it is paying in the best circultaiing medium of the country, and it can not pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best serurity with banks and as collaterals for discounts.

Convertable into Six per cent, 5-20 Gold Bonds In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nian per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It For Rats, Mice, Roaches, Ants, will be seen that the actual profit on this loan at the present market rate, is not less than ens,&c., fusects on Plants, Fowls,

ten per ceut, per annum. Its Exemption from State or Municipal Taxation, But aside from all the advantages we have enumerated, a [special Act of Congress exempts all bonds and Treasury notes from locat taxation. On the average, this exemption is worth about two per cent. per ynnum, according to the rate of faxation in various parts of the country.

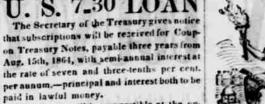

It is believed that no scentities offer a great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or seperate commanifies, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all obligations of the United States.

While the government offers the most lib-eral terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination have been entirely unable to supply the of notes required, and whether they are to be emand. That it is far supe-rior to any other remedy yet devised, is known by all who have given it atrue. That it does combine virtues truly extraordinary in their effect upon this class of complaints, in their effect upon the case great multitude is indisputably proven by the great multitude of publicly known and remarkable curve it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Erysipenas, Rose or St. Anthony's Fife, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses and indext the read Female Weaknesses, and, indeed, the violater ferrase of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYAR'S ANFAUCAS ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be erned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief.
