One is the foot that slowly treads Where darkling mists enshroud, The other is the wing that cleaves Each heaven-obscuring cloud; Reason, the eye which sees but that On which its glance is east; Faith is the thought that blends in one The future and the past.

In hours of darkness, Reason waits, Like those in days of yore Who rose not from their night-bound place On Egypt's veiled shore; But Faith more firmly clasps the hand Which led her all the day, And when the wished for morning dawns Is farther on her way.

By Reason's alchymy in vain Is golden pleasure planned; Faith mockly takes a priceless crown, Won by no mortal hand. While Reason is the laboring oar That smites the wrathful seas, Faith is the snowy sail spread out

To catch the fresh ning breeze. Reason, the telescope that scans A universe of light: But Faith, the angel who may dwell Among those regions bright. Reason, a lordly, towering clin, May fall before the blast; Faith, like the ivy on the rock,

Is safe in clinging fiet. While Reason, like a Levite, waits Where priest and people meet, Faith, by a "new and living way," Hath gained the mercy-seat. While Reason but returns to tell That this is not one rest, Faith, like a weary dove, hath sought

A gracious Savior's breast. Yet both are surely precious gifts From Him who leads us home, Though in the wilds Himself hath trod

A little while we roam. And linked within the soul that knows A living, loving Lord. Faith strikes the key-note, Reason then Fills up the full-tened chord.

Faith is the upward-pointing spire O'er life's great temple springing, From which the chimes of love float forth Celestially ringing; While Reason stands below, upon

The consecrated ground, And, like a mighty buttress, clasps The wide foundation 'round. Faith is the bride that stands enrobed

In white and pure array; Reason the handmaid, who may share The gladness of the day. Faith leads the way, and Reason learns To follow in her train,

Till step by step the goal is reached, And death is glorious gain.

Lewisburg Central Foundry. and in the Philadelphia Inquirer's Easton, we find the following :

"The Buckeye Reaper & Mower, exhibited by Slifer, Walls, Shriner, & Co., of Lewisburg, Pa., has claimed a large share of attention, not merely because of the excellence of its fluish, but from the simplicity of its construction, its durability and efficiency. As an evidence of its merits it was awarded the first premium as a combined reaper and mower, a well-deserved tribute. It received the same award at the last State Fair at Norristown, as well as at almost every months of such clerkion shall be eligible to be then as well-deserved as at almost every other Fair. bited by Slifer, Walls, Shriner, & Co., of award at the last State Fair at Norristown, or any off where it has been exhibited. It has two driving wheels, is without cog-gearing in the driving wheels, and by the use of pawls and ratchets the machine can be moved backward and forward without operating the gearing. It is supplied with a double-hinged cutter-bar, and is in all respects a most valuable machine. The same firm were awarded the first premium for their Keystone Clover Huller, a similar bonor having been obtained for it also at the State Fair last year.

TAR CORDIAL

Have you a Cought Have you fore Throat! Have you any of the premonitory symptoms of that most fatal disease—tenumption? Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the and prevalence and fatality of disease which sweeps to the grave at least one such of death's victims.

grave at least one airth of death's victims.

What are its symptoms?

It usually begins with a short, dry cough, which seem becomes habitual, but for some time nothing is raised axcept a froidy succus. The breathing is somewhat dry foods, and upon stight exercise much harried. A sense of tightness and appearation at the chest is often felt. As the disease advances, the patient becomes thin in flesh, is afflicted with loss of appetite, great langer, indebture, and dejection of spirits; may continue in this state for a considerable length of time; and is very readily aftered by slight exposure or fatigue. If these occur, the cough becomes more troublesome, and is attended with expecturation, which is most copious and free early in the merning. It is sometimes streaked with blood. At this stage, night-awards usually set in and in some cases a profuse bleeding of the louge may also occur. Pain in some part of the cless it felt, and often a difficulty of lying upon one or the other side without severe fits of coughing or a sense of foliness or sufficient flush tinges the checks, and the dire malady is fast hastening to its cheec.

You now ask, It there a cure?

Contamption has been and can be cured by the one of my TAR CORDIAL, even in apparently hopeless cases. This assection I make with the ability to present the most complete eridence of the truth. Space will not admit of my giving the contents of the usury thousands of testimonials to its value, which I have been and am receiving from meanand women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and experiment, I offer this medicine, believing it to be the best remedy for all pulsonsary and bromchait disease. If you can not be benefited by the use of the TAR CORDIAL, I believe you are beyond all earthly additionable. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, What is the principle or cause of your success in the treatment of Indianary Contamption? My answer is this:

The integration of the digestive organs—the greength energy of the debilitated system—the purplication and practice, are daily asking mis should be corruption which scrotlab streads. U. S. 7.30 LOAN
The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,-principal and interest both to be

paid in lawful money. These notes will be convertible at the option of the holder at maturity, into aix per cent gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect-They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fitty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time, will be allowed a commission of one-quarter of one per cent., which will be puid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made No deduction for commissions must be made from the deposits.

SPECIAL ADVANTAGES OF THIS

LOAN. Ir is a NATIONAL SAVISOS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U S. Notes, considers that it is paying in the best circultaing medium of the country, and it can not pay in anything better, for its own assets are either in Government securities or in notes or bonds pay-

able in Government paper. It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks and as collaterals for dis-

U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan at the present market rate, is not less than ten per ceut. per annum. Its Exemption from State or Municipal Taxation,

But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent, per ynnum, according to the rate of taxation in various parts of the country.
