

The Cost of a "Democratic" Peace.

The North to pay for Both Sides.

The project is thus broached by one of the most influential and best accredited of the "Democratic" organs:

"The subjects in respect to which the parties to this war must come to an understanding in arranging the terms of peace are mainly these:

- "1st, The right of Secession.
"2d, The protection of Slavery.
"3d, The payment of the Southern War Debt.

"The third question is one to which we have not bestowed sufficient reflection to have a very definite opinion, although it is obviously one of the things to be considered in this dissolution of the Confederacy. It is a matter which concerns the South more than it concerns us. If distributed and assumed by the several States, it will make the pressure of State taxation so heavy as to seriously impair their ability to pay their proportion of the Federal taxes. Whether the exchange of Confederate scrip at its market value for United States bonds, would not, by its tendency to produce good feeling, save an equivalent expense in maintaining troops in the South, is a question on which it is premature to hazard any opinion.—New York World, Aug. 22, 1863.

WHAT THE REBELS WILL EXPECT.

"I am opposed to peace on any terms short of the submission of the Federals to such terms as we may dictate—which, in my opinion, should be Mason and Dixon's line as boundary, the exclusive navigation of the Mississippi below Cairo, full indemnification for all negroes stolen and property destroyed, the restoration of Forts Monroe, Jefferson, Key West and all other strongholds which may have fallen into their possession during the war. If they are unwilling to accede to these terms I propose an indefinite continuance of the war, until the now existing fragments of the old Union break to pieces from mere rottenness and want of cohesion; when we will step in as the only first class power on the western hemisphere and take possession of the pieces as subjected and conquered provinces."—Richmond Sentinel, Sept., 1863.

WHAT IT WOULD AMOUNT TO.

Table with 2 columns: Item and Amount. Includes rebel debt (\$56,105,002), expenditures to July 1st (\$357,929,229), Confederate scrip value (\$500,000), property seized and confiscated (\$200,000,000), property destroyed (\$300,000,000), and damages done during the war (\$500,000,000).

THREE THOUSAND FIVE HUNDRED MILLIONS, to "produce good feeling" among those who have been madly striving to destroy the country!

HOW IT IS TO BE ACCOMPLISHED.

"Notwithstanding the cautious and indirect manner in which this scheme is advocated, it may be regarded as a settled conclusion in the minds of the Democratic leaders. It has long been under discussion by them, and the article in the World is evidently put forward as a feeler, to ascertain the public to the idea. Elevate the Democracy to power, allow them to bring back 'the Union as it was,' with 22 rebel votes in the Senate, and 61 in the House, acting in concert with their Democratic friends, the whole of this plundering arrangement may be anticipated.

WHO ARE TO BENEFIT BY IT.

"The suggestion of the World that the scrip is to be taken 'at its market value,' is the shallowest of devices to entrap the unwary. The paper so worthless now, would rapidly rise with the first prospect of such an accommodation, and by the time the affair was consummated, its 'market value' would be the same as that of United States bonds and 'green backs,' which would depreciate correspondingly. When the time of settlement came, it would no longer be found in the hands of the original holders, but mostly concentrated in the possession of those in the secret North and South, who would reap a profit such as the world has never seen from any one transaction. The financial operations of Floyd sink to absolute insignificance in comparison.

WHO ARE TO LOSE BY IT.

"Farmers who grumble at an increased tax of three per cent.; mechanics who find that even high wages are reduced practically by corresponding high prices; how will you resist a permanent addition of three thousand five hundred millions to our indebtedness, requiring to meet it a rate of taxation fully triple what you now pay, and keeping our currency permanently at a discount below gold far greater than you have yet seen? Will it be any consolation to you to reflect that this fearful pile of debt was incurred by purchasing of rebels the peace which you are so well able to conquer? And will your humiliation be soothed by thinking that you are thus building out a premium for fresh insurrections, by guaranteeing the expenses of all who may see fit to excite the flames of civil war?

Proclamation

Proclamation AFTER PROCLAMATION! BUT the latest of all is that of C. W. SCHAFFLE who, having returned from New York and Philadelphia, is prepared to sell Goods.

For Rats, Mice, Roaches, Ants, Bed Bugs, Moths in Furs, Woolens, &c., Insects on Plants, Fowls, Animals, &c.

THE unparalleled success of the Buckeye is the strongest proof of its superior merits. And its reputation is so well established that its introduction to the manufacturers have been entirely unable to supply the demand.

The Two Driving-Wheels, &c.

The TWO DRIVING WHEELS—the Fawls and Springs, by which the machine may be thrown out of gear, or backed without vibrating the knives—the Steel Cutter Bar—the Wrought Iron Guard, with Hardened Steel Face or Cutting Edge—the Double Hinged Joint, by which the Cutter Bar may be folded—the long Crank Shaft—the Steel Spring and Wheel, by which the Cutter Bar may be raised and lowered so as to cut as low to the ground as may be desired—the Steel Pitman and Brass Box—its Light Draft—(no Side Draft)—no weight on the horse's necks—backs as easily as a cart—all of which form a combination of advantages which no other machine possesses.

General Order.

THE Pennsylvania Railroad Company this day taken under the provisions of the Philadelphia & Erie Railroad, under the conditions agreed on with the Philadelphia & Erie Railroad Company, they have appointed JOSEPH D. POTTS, General Manager thereof, to whom all Officers and Employees will report for instructions.

Best Machine in the World!

During last harvest hundreds of Farmers, in consequence of our inability to supply the demand were unable to obtain the Buckeye, and were forced to purchase an inferior machine. The continued scarcity of laborers and the new calls from the government for troops, will take many more laborers from the country, and the farmer will have to rely entirely upon machinery in gathering his hay and grain crops.

Notice to Trespassers.

ALL persons are hereby cautioned against trespassing upon the premises of the undersigned, situated in Buffalo township for the purpose of hunting partridges and other small game, as they will be dealt with according to law.

U. S. 7-30 LOAN. The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000, and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

SPECIAL ADVANTAGES OF THIS LOAN.

It is a NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it can not pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

Convertible into Six per cent. 5-20 Gold Bonds.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium was six per cent. U. S. stocks was over twenty per cent. It was seen that the actual profit on this loan at the present market rate, is not less than ten per cent. per annum.
