Soldiers' Orphans.

The Superintending Committee for the soldiers' Orphans of Union county having been appointed, and having in their posses mon proper blanks to be filled for applieations for the benefit of the law, would request the School Directors of the differout Districts to aspertain whether there are any persons in their respective Districts entitled to the benefits of the Act, and to suffer through neglect or want of information on the subject, and therefore request all who feel an interest in the offspring of our fallen braves to give any information which will lead to the desired result.

Persons entitled to the benefit of the set are children of either sex under the age of fifteen, dependent upon either pub-lie or private charity for support, or on the exertions of a mother or other person destitute of means to afford proper edueation and maintenance, (of fathers who have died in their country's service who were actual bonsfile residents of Pennsylvania.) Speech by the President. WASHINGTON, Oct. 21.

The toreh-light procession here, to night, by the Union mon, was a great success. Nothing like it has ever been seen in Vourselves. Washington. All the Union clubs were well represented. But this was only a nucleus. Immense numbers of the citisens participated. There were men carrying torches in the parade who were not The President spoke as follows :

"FELLOW CITIZENS: I was promised not to be called upon for a speech to-night, nor do I propose to make one, but we have been baving some very good news for a day or two, so I propose that you give it, we may as well consider how fortunate it was for the Secesh that Sheridan was a little man. If he had been a large man, there is no knowing what he would have done with them. I propose three cheers for General Grant, who knew to what use to put General Sheridan; three cheers for all our noble commanders, and the soldiers and sailors; three cheers for all the people, everywhere, who cheer the soldiers and sailors of the Union. And now, good

"In the hands of a Democratic Presi dent, his head, and the heads of those around him, would come to the block."

We have here an undisguised declaration, that, in the event of M'Clellan's election, the work of butchery is to begin. The President, and his immediate advisers, are to be the first victims, but every man who has been prominent in his devotion to the Union may expect to find his block. This is the language of men who ! talk of peace, and who denounce as "ty-

more than I hate the Rebel who sent his bullet through my dead son's heart! Do you expect me to dishonor my boy's memory and vote for men who charge American soldiers, fighting for their country, with being birelings and murderers? The Union ticket was given him, and room was reverently made for the true-hearted old patriot by the hushed and admiring knot around the window."

What Salmon P. Chase Thinks of Majorities.

In the course of one of the specobes by the great American financier, he uttered words which should be kept in remembrance by every loyal man until the November election has been fought to a glorious victory. He insisted that mere majorities will not suffice. Large prajorities will hardly be enough. We want and must have majorities so everwhelming, and decisive, as will extraguish every hope, in the hearts of the chiefe of the Rebellion, and in the bearts of foreign and domestic sympathizers with Rebellion, that the American people will ever soneent to the dismemberment of the American Union, or to the re-establishment of the ascendancy of the slaveholding oligareby in the land of freedom.

GREAT CENTRAL FAIR .- The cash reecipts of this Fair for the relief of sick and wounded soldiers, beld in Philadelphia in June last, amount to \$1,071,130. Well done, Pennsylvania! That is substantial sympathy.

M'Clellau said he failed at Richmond for the want of men. He will fail at the ballot-box for the same reason.

Have you a Chugh? Here you Sore Throat? Have you any of the premonitory symptoms of that most istal disease—tonsumption?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which savespe to the grave at least one much of centle's victims.

prevalence and statisty of deaths wickins.

What are its symptons?

It usually begins with ashort, dry sough, which soon becomes habitual, but for some time nothing is raised except a frothy marsa. The breathing is somewhat difficult, and upon slight exercise much surried. A souns of topianes, and oppression at the chest is often felt. As the discase advances, the patient becomes thin in flesh, is afflicted with isseef appetite, great laugor, indolerue, and dejection of spirits; may continue in this state for a considerable length of time; and is very readily affected by slight exposure or fatigue. If these occur, the cough becomes more troublesomes, and is attended with expectoration, which is most copious and free early in the morniste. It is sometimes streaked with blood. At this stage, night-averate usually set in and in some cases a profuse bleeding of the laugs may also occur. Pain in some part of the chest is felt, and often a difficulty of lying upon one or the other side without sween fits of coughing or a sense of failness or suffocation. The pulse becomes full, hard, and frequent, the heetic lines tings the cheest, and the dire mailedy is fast has tening to its close.

Consamption has been and can be cared by the use of my TAR CORDIAL, even in apparently hopeless cases. This assertion I make with the ability to present the most complete evidence of the truth. Space will not admit of my giving the contents of the many thousands of testimonials to its value, which I have been and am receiving from men and womenof unquestionable worth and reputation. I have had a number of these certificates printed in circular form which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and experiment, I offer this medicine, believing it to be the best remedy for all pulsamoury and bronchind diseases. If you can not be benefited by the use of the TAR CORDIAL. I believe you are beyond all earthly aid. Yet if there are better curian against, I carriedly advicting their use. The best remedies, the best care, are needed by those affected with this disease. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, What is the principle or cause of your success in the treatment of Pulsaconary Communicator? My answer to this:

U. S. 7.30 LOAN
The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum .- principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fitty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit. Parties depositing twenty-five thousand

doliars and upwards for these notes at any one time, will be allowed a commission of one-quarter of one per cent.. which will be puid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made No deduction for commissions must be made from the deposits.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best occurity. Any savings bank which pays its depositors in U S. Notes, considers that it is paying in the best circultaiing medium of the country, and it can not pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks and as collaterals for discounts.

Convertable Into Six per cent, 5-20 Gold Bonds In addition to the very liperal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than ninn per cent, premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan at the present market rate, is not less than ten per ceut. per annum. its Exemption from State or Municipal Taxation,

But aside from all the advantages we have enumerated, a [special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per yanum, according to the rate of taxation in various parts of the country. It is believed that no securities offer so

great inducements to lenders as those issue by the Government. In all other forms of its. And its reputation is so well established indebtedness, the faith or ability of private that since its introduction the manufacturers parties, or stock companies, or seperate comindebtedness, the faith or ability of private munities, only, is pledged for payment, while the whole property of the country is held to seepre the discharge of all obligations of the United States.

While the government offers the most lib-eral terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrotinla depresses the vital energies, and thus leaves its victims far more subject to discuse and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of luman life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Arrab's Sausaranticia, although it is composed of offer to the public under the name of Aras's Sansaramilla, although it is composed of ingredients, some of which exceed the best of Sarsepavilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purgo out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the viral functions, and thus expels the distempere which lurk within the system or burst out which lark within the system or burst out on any part of it.

We know the public have been deceived

We know the public larve need decline, that by many compounds of Saragarilla, that promised much and did nothing; but they will neither be decrived nor disappointed in this. Its virtues have been proven by alum-dant trial, and there remains no question of its surpassing excellence for the cure of the afflicting disease; it is intended. afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which last been before the people, and is far more ef-fectual than any other which has ever been available to them.

AYER'S CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Con sumption, and for the relief of Consumptive patients in advanced stages

This has been so long used and so unfversally known, that we need do no mora than assure the public that its quality is kept up to the best it ever has been, and that nay be relied on to do all it has ever done.
