WEDNESDAY MORNING, FEB. 20.

THE CRISIS.

[illegible] speaking to the Rest of Mind, the prophets [illegible] on the day of time, the Christian Age [illegible] Now [illegible] the night of dark[illegible] Saints abide to clearly see, [illegible] Watchman tells us Night is near, and they forth stand up as [illegible]

The blessed [illegible] he is God as Nations born. And [illegible] Wonderful One in Truth and by Standeth Salvation [illegible]

In this day [illegible] of mine! a day for us to know, [illegible] of mighty [illegible] with Slavery's mark of woe? [illegible] God with our [illegible] heaped the World's cup full [illegible] Dropped. The [illegible] solemn early birth, from the tired [illegible] of time?

Did you cause [illegible] rest the old Pot soldiers rule: And [illegible] Mind [illegible] in Truth and by Stanbope's [illegible] Seal [illegible]!

Could Earnest! is this our mission? Rats in this the pray- ers and cares, The [illegible] the sentinels of our younger, better [illegible] Still, the Old World sets in light, shall sun in shadow [illegible] A beacon [illegible] of God, through outer darkness [illegible] Where the far nations looked for light, a blackness is [illegible] When for the words of hope they listened, the long wail [illegible] of despair!

The Christ pauses on us; face to face with us it stands, With solemn [illegible] of question, like the shining in Revel- ation; This day for all hereafter chosen we [illegible] or sin; This day for all hereafter chosen we [illegible] or [illegible] We call the curse of [illegible] or the hot air of coming down!

By all for which the Martyrs have their agony and shame; By all the seeming words of truth with which the prophets [illegible] sung; By all the [illegible] which, sweet as, by all the hopes which cast Their faith and [illegible] poems across the blackness of the [illegible] Past!

And in the [illegible] name of Him who for Earth's freedom [illegible] Oh, ye people! oh, my Brothers! let us choose the righteous [illegible]

So that the Northern pioneer go joyful on his way, To [illegible] Freedom's [illegible] as Sea frame's bay To [illegible] the rugged pines [illegible] smooth, and sow the vales [illegible] And hear, with Liberty and Law, the Bible in his trails: The [illegible] West and [illegible] the East, and see shall answer And [illegible] unto mountain call; PRAISE GOD FOR WE [illegible] AND FREE!

MEAT PRESERVED IN MOLASSES.—"Sugar cured hams" have long been in fashion in this country. They are moderately salted, and sugar or molasses added to assist in their preservation. In France, all sorts of fresh meats have been preserved by molasses alone. An article in *L'Invention* asserts that meat may be preserved by molasses alone in the most perfect manner, and with the following important advantages: it has an agreeable flavor, it produces no scurvy or other disorders which result from the use of salt food, and it may be prepared at a moderate price. The process consists simply in cutting the meat into pieces of moderate size and dropping them into molasses, such as is to be obtained from the sugar manufactories and refineries. By a natural process of osmose the lighter juices of the meat pass out, and the heavier molasses penetrates inward to every part of the meat. When the external molasses has acquired a certain degree of liquidity, from the mixture of the juices of the meat, it is a sure sign that the meat is thoroughly impregnated. It is now taken out of the molasses, thoroughly washed, and hung in a current of air to dry. After it is complete- ly dry it may be packed in boxes and sent all over the world without experiencing any change whatever.

The American Samson.

"Acorn," the Boston correspondent of the New York Spirit of the Times, writes:

Doctor George B. Winship returned from his Western lecturing campaign a few days since. He is in excellent health, but looks a little worn. All the leisure time he can snatch from the multiplicity of applications to deliver his lectures before different associations, is devoted to the completion of his forthcoming work on Physical Culture. Dr. Winship is having a "harness" made and fitted to his shoul- ders and hips, similar to the one used by the proprietor of a gymnasium in Chicago at the late tournament, by which means he thinks he can lift three thousand pounds! But even this he does not consider will be so extraordinary a feat of strength as raising with his hands, unaid- ed by straps, eleven hundred pounds! The Doctor has had liberal offers to visit England, which he has been compelled to decline in con- sequence of engagements in his own country. He hopes, however, some day, not far distant, to be able to make the tour of Europe. When at home his residence is fairly besieged by per- sons suffering from physical debility.

WOMAN'S EYE.—A good old Methodist preacher—long since removed from the scene of temptation—in relating his "experience," said, woman's eye was once so powerful as to draw him thirteen miles over a rough country road in winter, simply for her to tell him that she wouldn't marry him.

WHY is a clergyman near the end of his ser- mon like a boy who has rent his integuments? Because he's *torn his clothes*.

BELTING & PACKING.

Our GUM BELTING, for strength, adapted to its purposes, and warranty, ever surpass lightening more than once; it has a perfectly smooth and even surface, and will run straight and true on the pulleys. Our PACKING is manufactured by a particular process, whereby it is made to withstand a heat of 600 degrees Fahrenheit without the least injury, and the manufacturer will guarantee its pli- ability. It is therefore not only valuable for steam-engine packing, but can confidently be recommended for the piston rods of pumps, as it will not corrode by rust or wet pieces, without injury.

Our HEATHER BELTING is extremely heavy, in fine contradistinction to the article of the kind in use, to prove which we can give any number of the best testimo- nials. Our GUM PACKING is fast taking the place of every other kind in the market, being manufactured under Goodyear's patent, and is well known to be of superior quality. It is considered by engineers and steam-boat men throughout the country, where they are in use, as the most reliable article for steam packing, elasticity, which will stand as high a degree of heat.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater, alterative power as to afford an effec- tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow- citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF- FECTIONS, MERCURIAL DISEASE, DROPSY, NEU- RALGIA OR TIC DOULOUREUX, DEBILITY, DYS- PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro- moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time- ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will endeavor to rid itself of corruptions if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob- structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deservedly much, the reputation of accomplishing those ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtues that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been mis- led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa- rilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intend- ed to cure. In order to secure their complete eradication from the system, the remedy should be taken regularly according to directions on the bottle.

DR. MOTT'S CHALYBEATE RESTORATIVE IRON PILLS.

AN APERIENT AND STOMACHIC Pre- paration of IRON purified of Oxygen and Carbon by combustion in Hydrogen, exactly as performed by the highest Med- ical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no prepar- ation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexion indicate its necessity in almost every conceiva- ble case. Innocent in all maladies in which it has been tried, it has proved absolutely curative in each of the fol- lowing complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Scalpous Consumption, Scrof- ulous Tuberculosis, Salt Rheum, Rheumatism, Whites, Chlorosis, Liver Com- plaints, Chronic Hematites, Rheuma- tism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and mus- cular energy from chronic complaints, one trial of this rem- edy will prove successful to an extent which no des- cription nor written attestation would render credible— Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are related of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air, and exercise for which the physician has no name.

In Nervous Affections of all kinds, and are reasons fami- liar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old cru- de, it is vigorously tonic, without being exciting and over- bearing; and gently, regularly and permanently in its most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

In the child later property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often suffered for the most habitual cases, including the attendant *Costiveness*.

In unchecked Diarhœa, even when attended to Dysente- ry, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate in- cipient Consumption, this remedy is always a blessing to friends and physicians, in several very gratifying and inter- esting instances.

In Scrofulous Tuberculous, this medicated iron has had far more than the good effect of the most cautiously bal- anced preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invit- ed to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Scrofula, Fever is almost necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high recommends and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully re- liable effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for ac- tive and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

Restorative Cordial

AND

BLOOD RENOVATOR

IS PRECISELY WHAT ITS NAME INDICATES —For while pleasant to the taste, it is pur- ifying, enriching and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of dis- ease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all, that is chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted to the wants of the system as to be perfect accordant with the laws of Nature, and hence combats the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritations. It is also perfectly ashtonishing in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of ve- getables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thr- roughly skilled in medical science and also by all who have suffered from debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: consumption, bronch- itis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy hypocondria, night sweats, cold feet, drowsiness, and all that class of cases so fearfully fatal if unattended to in time. Diet bowels regulated, derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to take cold, cutaneous eruptions, shaking and weakness, dizziness, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following chills and fevers, but prevent all attacks arising from it- termittent fevers, and cure the disease in case of its at- tack. And as it acts directly and permanently upon the biliary system, arousing the liver to action, pro- ducing, in fact, all the secretions and excretions of the bo- dy, it will infallibly prevent any deleterious consequences following upon change of climate and water, hence, all emi- grants should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents con- stipation, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, min- isters, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty, by beauty can- not exist without health, and health cannot exist where the above irregularities continue. Then, again, the Cordial is a perfect mother's relief. Taken a month or two before the usual time, she will pass the dreadful period with perfect ease and safety. There is no mistake about it. Each Bloom is all we claim for it. Call and get a "Cir- cular" and read it! and if you are agued to detect the illness or decline not only of your daughters soon before it is too late, but also your sons and brothers. Go for while the time is former, from false delicacy, often go down to premature graves rather than let their condition be known. In this the latter are often so mixed up with the excitement of business, that if it were not for you, they too would travel the same down ward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will instantly point you to Prof. Wood's Restora- tive Cordial and Blood Renovator as the remedy which should be at once on hand in time of need.
