TUESDAY MORNING, MARCH 12.

Military Posts in Texas.

The New-York Tribune gives the following list of the Government military posts in Texas, paying a deserved compliment to the bravery and patriotism of Capt. Hill the officer in command of Fort Brown:

There were on the first of January, as we learn from the Army Register, twenty-one posts or garrisons in the Department of Texas. Forts Bliss, Quitman, Davis, Stockton, Clarke, Inge, Duncan McIntosh and Brown, Ringold Barracks and Camp Polo Alto, are on and in the vicinity of the Rio Grande. Fort Merril is on the Nueces, and other stations, including Camp Colorado, Fort Chadbourne, Camp Cooper, Forts Mason and Lancaster, and Camps Hudson, Verde, Ives and Wood, and San Antonio Barracks, are distributed along the North western border of the settlements, stretching from the Rio Grande to the Arkansas River. These are garrisoned by detachments of the Second Cavalry, First and Second Artillery, and First, Third and Eight Infantry. Many of the officers acquired great distinction in Mexico; among them we can only refer to Cols. Waite, Lee, Backus and Majors Heintzelman and French. The gallant Capt. Hill, who is in command of Fort Brown, the papers inform us, has refused to recognize the treasonable and cowardly order of Twiggs, and is determined to try conclusions with the piratical party under McCullough. Captain Hill is a native of the District of Columbia, and h s friends have no reason to fear that he will bring reproach upon the spot of his nativity.

A MAN UP EMPEROR.—The Mambo, or Muata-Bazembe, was sitting on the left hand side of the eastern gate of the Mossumba, having, as a substitute for a carpet, a number of tiger skins, so arranged that all the tails radiated, thus forming the figure of a large star, and in the centre was spread an enormous lion's skin, which covered a portion of all the others. A stool, covered with green cloth, and plated on the lion's skin, formed the throne of the Mambo. This dignity was dressed in a most magnificent style, for surpassing in grandeur of display all the other potentates of the interior of Africa. His head was adorned with a mitre, about two spans high, in shape resembling a pyramid and formed of feathers of bright scarlet color. His forehead was encircled by a diadem, ornamented with a great variety of valuable jewels of great brilliancy a sort of frill or fan of green cloth, supported by two small ivory arrows, was standing up from the back of his head, the neck and shoulders being covered with a kind of spencer of capuchin, without sleeves. The upper part of the cape was ornamented with the bottom of cowrie shells, under which was a row of imitation jewels. The lower part had a most brilliant and dazzling effect, in consequence of a great number of small mirrors, or square and round pieces of looking glass, being tastefully arranged, alternately with the precious stones, all around it. His shoulders, breast and back were thus covered with a garment at which no one in that resplendent sunshine could for one moment look fixedly.—*Valdez: Western Africa.*

OCEAN SPLENDORS.—When the sea is perfectly clear and transparent it allows the eye to distinguish objects at a very great depth. Near Mindoro, in the Indian Ocean, the spotted corals are plainly visible under twenty-five fathoms of water. The crystalline clearness of the Caribbean Sea excited the admiration of Columbus, who, in the pursuit of his great discoveries, ever retained an open eye for the beauties of nature. "In passing over these splendidly adorned grounds," says Schopf, "where marine life shows itself in an endless variety of forms, the boat, suspended over the purest crystal, seems to float in the air, so that a person unaccustomed to the scene easily becomes giddy. On the clear sandy bottom appear thousands of sea stars, sea urchins, molluscs, and fishes of a brilliancy of color unknown in our temperate years. Burning red, intense blue, livery green and golden yellow perpetually vary. The spectator floats over groves of sea plants, gorgonias, corals, aleyoniums fabellums and sponges, that afford less delight to the eye, and are no less gently agitated by the heaving waters than the most beautiful garden in earth when a gentle breeze passes through the waving boughs."

ATTACKED BY BUFFALOES.—Attracted by his red wagon, a herd of buffaloes attacked Col. Claiborne and family in the wilds of Arkansas lately. The phalanx blocked his road, and, as he turned to flee, they rushed wildly on after him as he urged onward the terror-stricken horses. The Col. threw out successively his overcoat and cushion, which the animals paused to trample upon. They soon gained upon him and their horns were already clashing against the back of the buggy, when he plunged his horses breast-deep into the hollow of a large oak, and there he was *safe*, the back of the buggy being the only point of attack. Discharges from a rifle, shooting, two bottles of brandy, a bottle of Scotch snuff, at last sent them off sneering and bellowing as loud as they could.

ANOTHER CURE BY Dr. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was consulting patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Oftentimes when I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck prescribed for me his "Pulmonic Syrup," "Sea Weed Tonic" and "Mandrake Pills," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Deerfield township, Unity township, Ohio, where I am well known. You may publish this if you wish.

Pittsburgh, August 27, 1860. MARTIN KNOX.

N. B. Since the above was written, Mr. Horh has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease, I heard of Doctor Schenck's "Pulmonic Syrup," but knowing no one personally that it had cured, I had no confidence in it. In April, 1859, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me, spoke in very high praise, as they knew what it had done. My prostrated condition discouraged me considerably, and I made up my mind as I could make no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the "Pittsburgh Dispatch" I felt induced to give Dr. Schenck's medicine a fair trial, and now, nearly two years afterwards, I can in good health, by taking less than ten dollars' worth of Dr. Schenck's medicines, say unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I enjoy better health to day, Feb. 6th, 1861, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable remedies, they would not hesitate to call on him in his visits to this place. I feel like stirring every person to call on him, as I have the utmost confidence in his medicines. Any person wishing to know the facts as here stated can call on me at my place of residence, Ann street, Allegheny city.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the "consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from the destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OR ERYSIPELAS, PIMPLES, PUSTULES, BOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and powerful.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis our American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and when its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and chalked by Combustion in Hydrogen. Fashioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and others are safe complaints in which it is necessarily in almost every conceivable case. Innocuous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheums, Stomach-ulceration, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative will be proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic atonism to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, Innumerable as are its causes, a single box of these Chalybeate Pills has often suffered for the most inveterate of the kind, as well as the most agonizing.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the chief Consumption, this remedy has always the shortest and most effectual cure.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has always the shortest and most effectual cure. Many of the most eminent physicians and surgeons in several very gratifying and interesting instances.

In Scrofulous Tuberculous, this medicated iron has had far more than the good effect of the most cautiously tabulated Chalybeate Observations, and in cases of ulcers, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the general inflammation of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appe ite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 60 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

THE

ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR

RESTORING

The Bald and Gray.

Many, since the Great Discovery of Prof. WOOD, have attempted not only to imitate his Restorative, but profane to have discovered something that would produce results likewise; but they have all come and gone, being carried away by the wonderful results of Prof Wood's preparation, and have been forced to leave the field to its restless sway. Read the following:

BATH, Maine, April 18th, 1859.

PROF. O. J. WOOD & CO.: Gents—The letter I wrote you in 1856, concerning your valuable Hair Restorative, and which you have published in the vicinity and elsewhere, has given rise to numerous inquiries into the facts in the case. The inquiries are: first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer tovtarishly, yes. My hair is even better than in any stage of my life for forty years past, soft, healthy and beter colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the article is washed off by frequent ablution of the face, when if care were used by wiping the face in close combe the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of vari-us compounds as well as this, it has no doubt, been bonely imitated and been used not only without any good effect, but to absolute injury. I have not used any of your Restorative of any account for seven months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and even dispense the locks of my head or on my face, and to prove this fact, I send you a lock of my hair taken off the past week. I resented your favor of two quart bottles last summer, for which I am very grateful; I gave it to my friends
