SATURDAY MORNING, MARCH 23.

RELIGIOUS INTELLIGENCE.

The tour of Episcopal visitation for the year 1861, of the Conferences of the Methodist Episcopal Church, commenced last week with the border Conferences. The East Baltimore Conference met at Chambersburg, Pa., Wednesday 13th inst., Bishop Simpson presiding. It was feared that the slavery question would excite considerable discussion, but, while the Conference took decided ground, very little debate ensued, when the Report of the Committee on the State of the Church was presented. The Committee refer to the previous action of the body in 1846—"not to hold connection with any ecclesiastical body that shall make non-slaveholding a condition of membership in the Church," and therefore submitted resolutions repudiating the new chapter on Slavery in the Discipline, and a request for the next General Conference to repeal the chapter on Slavery, and empower each Annual Conference within whose bounds Slavery exists, to make such regulations as in their judgment may best subserve the interests of the Redeemer's Kingdom among them. The report was adopted—yeas, 159; nays, 10. The Conference adjourned on Thursday morning last.

The Western Virgina Conference convened at Wheeling, Va., on the same day, and adjourned on Tuesday last. The Committee on the State of the Church in their report expressed regret that the General Conference had changed the chapter on Slavery, and that no administration or judicial action can be had under it against any member or minister according to their judgment. The following resolution was adopted:

Resolved, That we utterly condemn any attempt in any way whatever, to interfere with the legal relations of master and servant, and that we will seek to promote, as did our fathers, their best interests, by preaching the unsearchable riches of Christ, and by teaching them their reciprocal duties as taught in the Holy Scriptures.

The report, after considerable discussion, was adopted.

The Baltimore Conference assembled at Staunton, Va., on Wednesday of last week, Bishop Scott presiding. The Layman's Convention, composed of delegates from the circuits and stations in the bounds of the Baltimore Conference convened at the same place and day. After a session of four days, adjourned, declaring the Baltimore Conference seperated from the jurisdiction of the General Conference, and suggests terms of reunion, and then leaves the responsibility of a permanent separation with the General Conference. A memorial setting forth these facts was adopted, 91 voting for 32 against the measure. The memorial was received by the Conference and made the order of the day on Monday, the fifth day of its session. Our latest advices report the subject was under discussion. Much depends upon the action of this body in regard to the quiet of the Church on the border.

——In consequence of the stringent laws of Sweden against the public exercise of Roman Catholic ceremonies, the funeral of Queen Maria Desirée, the King's grandmother, (who was a Roman Catholic) was celebrated in strict privacy.

——The donations received for the American Board of Missions for five months ending January 1, 1861, was $98,552 09, which is much below the sum needed to carry on the operations of the society.

——A correspondent writes that with all the strenuous efforts put forth to advance the interests of Unitarianism, there is only one flourishing Unitarian Church in Philadelphia—a city of 600,000 inhabitants.

——Quite an interesting farewell meeting was held recently in Rev. Dr. Parker's Church, New York, on the occasion of the departure of the Rev. Monsalvatje, a Spanish missionary going to Panama, South America.

The Rev. C. H. E. Bulkley, of Patterson, N. J., preached a sermon on the Inaugural. His text was the fourth verse of the seventy-fourth Psalm: "A man was famous according as he had lifted up axes upon the thick trees."

The Rev. Dr. Watson, of Natchez, Miss., thus concludes his fast-day sermon:

I have now done. I approached this subject with no personal apprehensions. I have said what I believed to be true; I have done what I felt to be the prompting of duty, and I stand ready to abide the issues with this motto inscribed upon my banner: The Union, our fathers prized it as the gift of God; her form cemented, her glory untarnished, her stars unquenched; hope and inspiration may see this history blend with the coming grandeur of the Son of God.

——Quite an interesting revival of religion has taken place in the Steubenville Female Seminary. From a private letter we learn that about thirty are inquirers, perhaps half of them indulging a hope in Christ.

——The inauguration of Rev. W. M. Paxton, D. D., as Professor in the Western Theological Seminary, will take place in the First Presbyterian Church, Tuesday evening the 16th of April. A sermon will be delivered by Rev. Dr. Howard. The address before the Society of Inquiry will be delivered on Monday evening the 15th, by the Rev. Charles Wadsworth, D. D., of Philadelphia.

——It is stated there are now about two millions of Protestants in France, and one thousand clergymen. Many of the latter, however, have embraced Rationalistic sentiments.

——A clergyman in the West sued an Insurance Company for the loss of manuscript sermons, insured, and received a verdict of $2,000.

——A large meeting of the Germans of New York was held on the 10th instant, for the purpose of adopting means to have a better observance of the Sabbath by the German population.

——Bishop Wood, of Philadelphia, administered the rite of confirmation in St. Augustine's Church, (Catholic,) on the 10th instant, to three hundred and forty persons.

——The United Societies of the Wesleyans in England are making a noble effort to purchase "the City Road chapel," London, in the grounds of which lie the graves of Wesley, Clarke, Benson, Bradburn, Moore, Griffith, Watson, Bunting and many other eminent Wesleyan ministers. The sum of £18,000 will be required for the purchase, £5,000 of which has already been subscribed. The London *Watchman* well says:

"The Methodist people will deem it something more than an 'idea' to enfranchise and secure to this sole, laborious spot as sacred and dear to all lovers of Wesley's memory. This venerable sanctuary is connectional alike in its origin, history and associations. Hence the interest shown in it by Methodist visitors to the metropolis from all parts of the world. Uniting in simple worship may be seen from time to time strangers from the Tyne and the Tamar, the Humber and the Mersey, from great St. Lawrence and the majestic Mississippi. This City Road chapel is still regarded as the centre of a system the influence of which are felt to the ends of the earth."

——The *Examiner* says of the 216 students of Madison University, 176 are professors of religion, 105 are studying for the ministry, and 10 are meditating a foreign mission.

——The Rev. W. A. Smith, D. D., in an address made at Randolph Macon College on the late national fast day, makes the following point as a fundamental position for the South to take:

"*The Southern States of this Union stand committed, to the Providence of God, to maintain the institution of domestic slavery.*"

——The Rt. Rev. Bishop Domiaze of the Catholic Diocese of Pittsburgh, delivered a lecture in the Cathedral on last Sunday evening. Subject: The Spanish Inquisition.

——The Pittsburgh Annual M. E. Conference is now in session at M'Connellsville, Ohio, Bishop Ames presiding.

——The *Independent* says:

"The London Missionary Society last year had an income of $469,000. It has in its employ 119 missionaries. Its meeting in May last was the sixty-sixth general meeting. Its operations are in the South Sea Islands, China, India, Madagascar, Africa and the West Indies; and it is supported mainly by Congregationalists. The Church Missionary Society of England is now in its sixty-first year. Its income last year was about $800,000. It operates mainly in Africa, Turkey, India, Ceylon, China, and New Zealand, and has about 185 ordained missionaries. The funds of the American Board are now not quite $105,000, while those of the London Society are $515,000, and the Church Missionary Society $769,000."

——The Emperor of Austria has given orders that the "Schwarz-Spanier" Church, which for many years has been used as a magazine, shall be given to the Vienna Protestants as a place of worship.

——It is reported that the permanent Committee on Education of the Presbyteris (N. S.,) Church, have under their care over fifty young men preparing for the ministry.

——An exchange says:

"When Miss Fisk of the Persian mission went to Oroomiah, in the service of the American Board, seventeen years ago, to labor as a teacher among the Nestorian women, there was scarcely one who had any just conception of the truths of the Gospel; but when she left last year, to revisit her native land, she had the great pleasure of partaking of the Lord's Supper with *ninety-eight* women, mostly such as had once been her pupils, many of whom are now teachers in various parts of that country."

——Five new churches have been formed recently in the Vally of Codavey, India, by the Mahratta missionaries of the American Board.

——Cheering accounts have been received from Jamaica of the religious awakening in that Island.

Miscellaneous.

A Card to the Public.

THE amount of bodily and mental misery arising from a neglect of small complaints is incalculable, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailments should be had; for diseases of the body invariably affect the mind. DR. MOFFAT'S VEGETABLE LIFE MEDICINES, in every instance where they have been thoroughly used, have TRIUMPHED OVER DISEASE in almost all its diversified forms. The salutary effects of the Life Medicines have, in fact, been so universally experienced, that they have become fully established as the most easy, safe and perfect mode of treatment ever offered to the public.

THESE MEDICINES

Have now been before the public for a period of 30 YEARS, and during that time have maintained a HIGH CHARACTER in almost EVERY PART OF THE GLOBE for the extraordinary curative properties which they possess.

IN MANY THOUSANDS

of certified instances, they have even RESCUED SUFFERERS from the very VERGE OF AN UNTIMELY GRAVE, after all the deceptive nostrums of the day have invariably FAILED. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles of which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and sending them with renewed tone and vigor, that they were indebted for their name.

MOFFAT'S LIFE PILLS!!!

Are composed of VEGETABLE INGREDIENTS EXCLUSIVELY, as can be ascertained by CHEMICAL TESTS. Their prominent qualities are those of an active and searching, though perfectly mild and agreeable detergent agent; of a gentle aperient, promoting the insensible perspiration; of a pleasant diuretic, invigorating the kidneys and bladder; and of a delightful tonic cordial, exciting appetite by the demands of active digestion, and cheering the mind with that grateful sense of renovated health which is one of the most infectious feelings of our nature.

THE PHŒNIX BITTERS!!!

So denominated from their astonishing power of creating new life and strength, as it were from the very ashes of the most dilapidated constitutions—are more strongly tonic and more immediately invigorating than the Pills containing the same choice vegetable extracts as the latter, in a different medication. Although really less cathartic than the LIFE PILLS, they are nevtheless begin to cleanse the alimentary canal much sooner; generally slightly operating within three or four hours, and producing a decided sense of relief to the Head and Stomach, and exhilarating the Mind, even in less time than this.

MOFFAT'S LIFE PILLS!!!

In Affections of the Head, Sick Headache or Nervous Headache, these Pills will be found to possess the most sanitary efficacy.

MOFFAT'S PHŒNIX BITTERS!!!

Have been happily used for the cure of FEVER AND AGUE, with INVARIABLE SUCCESS!

BILIOUS COMPLAINTS, AND A HOST OF OTHER ILLS!!!

Each a well-spralized and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion and keeps the bowels and other tubes free from all obstruction. When there is a deficiency of bile, the body is constantly costive. On the other hand, an overabundance of bile causes frequent nausea in the stomach, and often generates very severe attacks of disease, which sometimes end in death.

Dr. Moffat's Life Medicines!!!

Should be taken in the EARLY STAGES of Bilious complaints and if persevered in strictly according to directions, will POSITIVELY EFFECT A CURE!

PILES! PILES! PILES!

As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinguished and important consideration. It is well known to hundreds in this city that the former proprietor of these valuable Medicines was himself afflicted with this complaint in the most severe degree, and that he re-ed its cure in every way revealed prescribed within the whole compass of the *Materia Medica*. He however at length tried the Life Medicines now offered to the public, and he was cured in a very short time, after his recovery had been pronounced as totally improbable, but absolutely impossible, by many learned means.

MOFFAT'S Life Pills and Phœnix Bitters!!!

CURE DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and restoring the lost tone, healthful bile, to the liver, stale and acrid kind: FLATULENCY, Loss of APPETITE, HEARTBURN, HEADACHE, RESTLESSNESS, LIX TROUBLED, ANXIETY, LANGUOR, and HEAD-ACHE, are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

THE LIFE MEDICINES!

For BILIOUS AND LIVER COMPLAINTS, with their many wellknown symptoms, *Sick Headache, Loss of Appetite, Costiveness, Oppression after Meals, Giddiness, Dizziness, Heartburn, Loss of Appetite*, are acknowledged to be really superior to anything ever before offered to the public.

MOFFAT'S PILLS AND BITTERS!!!

But it is unnecessary to enumerate the many cases in which these purely vegetable medicines have been successful: but not to inquire, Why are they so UNIVERSAL in their happy effects?

Because they PURIFY THE BLOOD, and thus removal all cases of disease in the system.

Because they act specifically upon the secretions of the body, and remove all impurities at once.

Because they do not reduce the system, but invigorate it—hence requiring no restraint from pleasure or business during their operation.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Many of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

PROF. WOOD'S

Restorative Cordial AND BLOOD RENOVATOR

IS PRECISELY WHAT ITS NAME INDICATES—a Cordial for while pleasant to the taste, it is very lying, exhilarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all the original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act *in perfect accordance with the laws of Nature, and hence cool to the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease; and lays the suggested system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, giddiness, and all that class of cases so fearfully fatal if continended to in time, called female weaknesses or irregularities. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys,
