87. Louis, April 22.—Quite a number of editor risis from prominent papers in the interior of the State express much indignation at the action of the state express much indignation at the action of the federal Government in calling so large a military force into the field, and especially for calling for volunteers from Border Slave States, but there is not much till temper manifested, and there is less disposition to run the State toto rash and indefensible measures than was evinaced by some other States. There is a good deal of Secassion feeling in some sections, but the prevailing sentiments are unquestionably for conciliation and peace. Many runmors prevail here, but the city is quiet and orderily. No public demonstrations of any character have yet been made.
