WEDNESDAY MORNING, JULY 17. Washington Inving. if the New York correspondent of The London Telegraph may be believed, did not refuse himself the tender pastion. He says : When young, he became intimately account "When yourg, he became inlimately accquainted with a daughter of one of the Knickerbockers of the time, sturdy in family and in wealth. With the young lady he pressed his suit successfully; and in time the father might have succumbed, despite the fact that he regarded the resources with which Irving proposed to fapports will too sender to maintain the style of laxary to which his daughter had been accustomed. In an evil hour, as it seemed a Dr. Creighton, a minister of the Extshished Dr. Creighton, a minister of the Establi One of the Established Church despite his Scottish parentage, fell in with the gentleman whom irving was so desirous of making his father-ir-law. The clergymhr's eyes were dazzled by the beauty of the same young lady who had won the heart of the septing author, and the eyes of the father were blinded to all other considerations by the wealth which Dr. Creighton offered together with his heart. Time and persistency nester weath which Dr. Creignen unreal organic with his heart. Time and persistency pashed Irving from the seene; and the girl obedient to her father's urgent entrealies gave his preference the precedence of her own. But the saddest part of the story remains to be told. When part of the story remains to be told. When the question of the marriage portion was under consideration, the father stated that the family had been tainted with insanity, and to guard against ithe evils of harsh treatment should his daughter be afflicted with the same maledy, which in the event of such a calamity she devoted to her maintenance on her estate on the binks of the Hudson, and that in no event should she be removed from the mansion there. Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC. FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleaner, and invigorate every portion of the human organism, correcting its diseased action, and testoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below kindled to furnish graits my American Mandale containing certificates of their cures and disordered Stomach, Nauco, Indignation, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appeties, Jausaidice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. Cherry far exceeds mything a mayever range. After the most approved varieties, wrought by pertons having a full knowledge of the hundress, and every care taken to have serry kind time to name.

disease.

So wide it the field of its usefulness and so numerous are, the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hexistee what antidot to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our elimate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget; and produced cures too numerous and too remarkable to be forgotten.

Scrofula, or King's Evil. is a constitutional disease, a corruption of the blood, by which this fluid becomes vittated, weak, and poor. Being in the circulation it blood, by which this fluid becomes vittated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and filthy habits, the depressing views, and, above all, by the venercal infection: Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation:" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is terimed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other disease; cousequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which descimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arises from or are aggravated by the same cause.

One quarter of all our people are sepofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine; and invigorate it by healthy food and exercise.

Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everyskill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have
been discovered for the expurgation of this foul
disorder from the blood, and the resche of the
system from its destructive consequences.
Hence it should be employed for the cure of
not only Scrofula, but also those other affections which arise from it, such as Emprires
and Self Diseases, St. Anthony's Fire,
Rose, or Emyspecias, Phytics, Postules,
BLAINS and Boils, Tunions, Trites
and Salt Rheeve, Scald Head, Rhogwork. and SALT RHEUM, SCALD HEAD, RINGWOOD

and SALT RHEUK, SCALD HEAD, RINGWORK, RINGUMATINS, SYPHILITIC and MERCURIAL DISEASE, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED On BUTUER BLOOD. The popular belief in "impurity of the blood." is founded in truth, for scrotical is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contemporate section.
