In the cities burinely is almost stageant, while the country is farmishing at present an abundant yield for the support of mai and beast. Hence our real friends should not (and doubtless will not) object to the levy of the two mill tax: It is true, taxation is already high in Allegheny country, but having been pleased with good crops, no suffering need be apprehended during the coming winter.

In regard to this two mill tax, the case stands about thus: The Commissioners, knowing the high rates of taxation, declined making the lay unsolicited. The Relief: Committee, and others, aware of the necessities of the families of hundreds of volunteers, strongly urged the Commissioners to lary the the necessities of the families of handred of volun-teers, strongly urged the Commissioners to lary the tax, as the Reinif find would soon be exhausted, and suffering would necessarily ensue. The Commissioners, still unwilling to take so important a step, gave spanio notice through the press, that unless the peo-ple of the country would object to the lery, the tax would be assessed on Thursday, the 25th inst Since the notice, is few individuals have appeared and protested against the levy, believing that the money would not be needed; but is no instance have we heard of a public meeting being calles, or any other steps whatever taken in opposition to the measure. Then, we are pretty certain in eay-ing that the tor will be levice on Thursday sect. The disbursement of this fand will be under the court of the Courty Commissioners and the Judges of the Court of Common Pleas, so that in the event of its collication we may hope to see it fairly, honestly and jadiciously applied. creted the body to save her reputation.
