PITTSBURGH:

MONDAY MORNING, AUG. 19, 1861.

REPUBLICAN COUNTY CONVENTIONS.

THE Republican electors of Allegheny county, and all others in favor of the perpetuity of the NATIONAL UNION, and maintaining the NATIONAL GOVERNMENT in its efforts to put down Armed Rebellion, are invited to assemble in their various Wards, Boroughs and Townships at their usual places of holding elections in each precinct, on SATURDAY, the 31st of August, to elect FOUR DELEGATES—two to each county convention—both conventions to meet on TUESDAY, September 3d, at 10 o'clock a. m., as follows: 1. The Judicial Convention to assemble at the City Hall to nominate a President Judge of Common Pleas, an Associate Law Judge of District Court, and an Associate Judge of Common Pleas, one Senator, and five members of the House of Representatives, and Director of the Poor. 2. The Political Convention to meet at the Court House, to nominate Sheriff, Coroner, Prothonotary, Treasurer and Commissioner.

The primary meetings in the townships will be held between the hours of 3 and 6 p. m., and in the cities and boroughs between 3 and 7 p. m., of said day. The appointment of the delegates in the township will be by marching, and in the cities and boroughs by ballot. The chairmen of the two conventions will jointly appoint the executive committee for the ensuing year.

THOS. M. MARSHALL, Sec'ty. Chairman.

Showing the Cloven Foot.

The Breckinridge Democrats, throughout the North, are beginning to take bold ground against the war, and in favor of the Rebels. They are one in heart and soul with the leaders of the Rebellion, and think the time has come for manifesting the unity that exists between them. They have money, received from the South, and are making extraordinary exertions to extend the circulation of such Rebel journals as the New York *Day Book* and to get up such demonstrations of an organized kind as will the most surely encourage the enemies of the Constitution and Union in maintaining their present hostile attitude. The Patterson (N. J.) *Guardian* says:

"The rebels and destroyers of the Union are at work in the Middle States. During the last fortnight agents of the Southern Confederacy have been visiting various sections of New Jersey, inaugurating movements for systematic peace meetings throughout the State. Individuals have been guaranteed against all expense, and these treason movements have been organized with diabolical shrewdness through dupes or willing tools in the late Breckinridge party, who, to gratify their hate, would help to crumble our free institutions for the sake of establishing a Southern monarchy.

The leading Breckinridge Democratic newspapers of New Jersey have commenced a systematic warfare against all the measures of the government to sustain the Union. We have been informed, on what we consider good authority, that $5,000 were received in Newark, from the Montgomery Secret Service Fund, to be applied in supporting secession papers in our State and to be expended in getting up peace meetings.

This accounts for the treasonable sentiments of these hypocritical papers which are giving aid and comfort to the enemy at the North, and by advocating peace and compromise with armed rebels, endeavoring to dishearten the people and to embarrass the government."

What is true of New Jersey is true also of Pennsylvania. Every Breckinridge paper in this State is engaged just now in finding fault with the war, advocating peace on *any* terms, and contributing all in its power to the defeat of the government under whose protection it lives.

The simultaneousness which has marked these various movements in all the States proves that there is a secret organization which is moving a hidden machinery. The rebel sympathizers in the North have been emboldened by the result of the Bull Run fight, and the Lodges of Knights of the Golden Circle are acting everywhere in concert to develope a strong "peace" party in the loyal States.

In pursuance of this policy the Breckinridge State Committee of New York met on Thursday at Albany, and unanimously declared their purpose of unsparing opposition to the government of the republic in its efforts to put down the rebellion against the constitution and the laws. They call the war an "aggression upon the rights of the Southern States;" deny that the struggle is in any sense a "war for the Union," and insist that those who are engaged in it neither care, nor expect, nor desire to restore the Union thereby.

They also passed the following resolution:

Resolved, That this state committee has learned, with much satisfaction, of the refusal of the state committee of which Dean Richmond is chairman to accept the overtures of the Republicans for a coalition with them upon a single state ticket for the approaching election; that for this declared determination to continue to labor for the overthrow of the Republican party and policy, we respectfully tender to them the right hand of fellowship; that, sacrificing all minor considerations, and burying past dissensions in a desire to see a consolidated and united front opposed to the Republican party, this state committee will not call a separate state convention at this time, and that we recommend those Democrats who have recognized this organization to unite in the election of delegates to the state convention called to meet at Syracuse on the 4th day of September, believing that convention will distinctly declare itself for measures of peace and reconciliation.

Observe how naturally and how greedily these traitors strike hands with the regular Democratic Committee in refusing to coalesce with the Republicans in forming a Union State ticket. They very properly regard a refusal to co-operate with the Republicans in sustaining the National Administration as the best method of co-operating with the Rebels.

In view of the unpatriotic attitude of these Breckinridge Democrats, we wait to see how many Republicans will unite with them in this country in getting up an opposition to the broad, patriotic and loyal call issued by the Republican Committee.

THE ARMY OF GEN. LYON.—The troops under Gen. Lyon in the late battle comprised 1,300 regulars, 4,000 volunteers, and some 2,000 Home Guards—in all, 7,300 men. These 2,000 Home Guards do not seem to have participated in the fight, which leaves the force actually in the engagement 5,300.

ILLINOIS TROOPS FOR MISSOURI.—A dispatch from Chicago to the St. Louis *Democrat* says that the Secretary of War has ordered the Governor of Illinois to prepare all the men at his disposal for instant removal to St. Louis.

BROWNLOW.—The telegraph has mentioned the suppression of Parson Brownlow's *Whig*, by order of Gen. Zollicoffer, in command of the Confederate troops at Knoxville. The *Whig* of Saturday, the 10th inst., the last issued, spoke of the order as having come from Richmond. The brave editor, in that number of his paper, anticipating that it would be his last, published under his name a long article upon the deplorable condition of affairs, closing thus:

"So far as we are concerned, we can suspend our publication, in obedience to the dictates of tyranny and intolerance—we will yield to the demands of an armed mob—turn over to them our office and what little property we have—deprive ourselves and a helpless family of small children of the necessary means of support—and beg our bread from door to door among the Union men who are able to give—but we shall refuse, most obstinately refuse, to the day of our death, to think or speak favorably of such a Confederacy as this, or to agree that honor, patriotism, or love of country, has influenced the men at its head, who have plunged the country into this revolution! And whether our humble voice is hushed in death—whether our press is muzzled by the spirit of intolerance at Richmond, making this our last issue of a journal we have edited for almost a quarter of a century, we beg all who may come after us and our paper, to credit no secession falsehood that may represent us as having changed our principles from those of an exalted devotion to the old American Union, and of undying hostility to those who would perpetrate its dissolution!

W. G. BROWNLOW,
Editor of the Knoxville *Whig*."

ANOTHER OFFER REJECTED.—The Republicans of Chester county held their county meeting, last week, and passed resolutions in favor of uniting with the Democrats in bringing out a Union County ticket. The Democrats held their county meeting at the same time, and by an overwhelming vote rejected the Republican offer, preferring to make war on the Administration and so, indirectly, give aid and comfort to the enemy.

From St. Louis.

ST. LOUIS, August 16—8 P. M.

The reports brought by prisoners that Price and McCulloch were killed in the battle of Springfield, are not confirmed, and not generally credited here.

Large reinforcements have been sent to Rolla, and no fears are felt for the safety of General Sigel.

Soldiers have been busy during the day planting cannon at different points in the outskirts of the city. Two have been placed on the Gravois road, one on the Spring road, and two near the City Hospital. Three were sent on the Iron Mountain road to Sulphur Springs, about twenty miles below the Arsenal. All the cannon are large ones, generally 64-pounders. These are only precautionary measures; no fear being entertained in regard to the safety of the city.

The steamers Graham and Empress are expected to arrive this evening from Bird's Point, with troops, who will be immediately placed at Sulphur Springs, as it is considered a very important point and commands one of the chiefest approaches to the city.

Martial law is working with the happiest effects. Two gamblers drew revolvers to-day in the street and fired five shots at each other. They were immediately arrested and delivered to the Provost Marshal, and will to-morrow morning be sent down to Cairo to work on entrenchments there. All the gentry of this cloth that can be found will be served in a similar manner, and no mercy be shown to any person found carrying concealed weapons.

A train is expected to-night with later advices from Sigel. No alarm is felt, however, in regard to him, as latest accounts say he is close to Rolla, and advices from Springfield report the enemy there and too crippled to think of making any advance.

SOMETHING TO BE LOOKED AFTER.—We have reason to believe that there is a good deal more than meets the eye in the proceedings now going on in Brooklyn, having for their object the release of the Baltimore Police Commissioners now confined in Fort Lafayette. Justice Garrison, it will be remembered, has issued the writ and made some significant suggestions about forcing it by aid of the military power. His antecedents are not such as to encourage the hope of any very high toned devotion to the interests of the country in the management of the affair. And we have important information from a source entitled to credit, that a Southern gentleman is now in the city for the express purpose of pushing the matter forward, with a view to bring about a collision between the civil and military authorities of Brooklyn. He is said to be well supplied with money, and to be acting with great zeal and caution in the steps he is taking. The Secessionists would be very glad to create some disturbance of this kind in this vicinity, and can afford to devote a good deal of labor and of money to its accomplishment.—[N. Y. Times.

THE GREAT LOAN.—Our financial column this morning records the final and complete success of the Government for securing means to carry on the war. The banks of Boston, New York and Philadelphia have agreed to loan the Government ONE HUNDRED AND FIFTY MILLIONS OF DOLLARS. This we believe to be the largest loan ever negotiated in any country at any time; and the promptness with which it has been taken speaks louder than cannon could possibly do in demonstration of the loyal courage and determination of our people. Half a dozen such defeats as that at Bull Run would be more than offset by this single act. It will breathe confidence and courage into the hearts of the people, and will satisfy foreign nations that we are not yet ready to surrender the Government into the hands of traitors. The London Times can now suspend for a season its solemn warnings to English capitalists against taking the American loan. They haven't been asked to do so yet.—[N. Y. Times.

WHAT CONSTITUTES AN UNMARRIED MAN.—A case was recently tried before the English House of Lords, in which the question in dispute was the signification to be given to the word "unmarried," the appellants contending that it meant "without having been married at all," and the respondents that it signified "without having a husband or wife living at the time of death." The court below decided in favor of the respondents, when the present appeal was brought. Their lordships being equally divided, the decision of the court below was affirmed, and the appeal dismissed with costs.

A JOHN BROWN MAN.—We received a call from Lieut. Copple yesterday. He is now an officer in Capt. Allen's company, in the Third Regiment. The Lieutenant was one of the twenty-two men who invaded the sacred soil of Virginia some two years ago.—[Leavenworth (Kansas) Conservative.

THE Editor of the Courier has no doubt that the masses of the North will within six months compel the United States Government to make peace upon such terms as it can get. These secession organs never have the least doubt of anything that's utterly absurd.—[Louisville Journal.

WE LEARN that Lieut. W. P. Mangum, son of the Hon. W. P. Mangum, whose life was supposed to have been saved in the great battle by a bible in his vest, from which the ball glanced, has since died of his injury.—[Louisville Journal.

JOHN C. BRECKINRIDGE went to Baltimore to get up a riot against the United States Government and got up a sort of one against himself.—[Louisville Journal.

MISSOURI.—The alacrity with which Indiana is now responding to the call of Gen. Fremont will doubtless remove all apprehensions of danger to St. Louis, and, with the Illinois, Iowa and Kansas reinforcements now pouring in, enable us soon to resume the offensive.

Various canards were floating about the city yesterday—one to the effect that 6,000 rebels had thrown themselves between Ironton and St. Louis. Such a position would certainly be hazardous and uncomfortable to the 6,000. It is not likely the rebels will perpetrate any such bad Generalship as to place an inferior force between two of our armies, unless, perchance, Pillow has a hand in it. Gen. Grant must have seven or eight regiments under his command at Ironton and Pilot Knob.

Pillow, at last accounts, was still at Sikeston, 26 miles west of Bird's Point.

Gen. Sigel has undoubtedly reached Rolla ere this, or met his reinforcements. The rebels were too badly cut up to follow him beyond Springfield.

The rebel account of the battle and its consequences is interesting—Gen. Sweeney killed, Gen. Sigel taken prisoner, and the whole Federal army captured! This comes via Fayetteville, Ark., which is about two days' journey southwest of Springfield.—*Chicago Trib.*

THE gutting of the office of the *Democratic Standard*, at Concord, N. H., last Thursday week, by a mob of infuriated soldiers, has led to some important developments in the Northern conspiracy against the Government, and is likely to bring still other facts to light, besides furnishing a wholesome warning, in the case of the Palmers, for the benefit of other cheats like minded. The paper was published by the Palmers—father and three sons—and Edmund Burke, its former proprietor, had denied any responsibility for its tone. Manuscript found in the office, however, unmistakably fastens upon him the authorship of some of its worst articles. The Palmers now say that they labored under both the pay and promise of the leading secessionists in New Hampshire, and were assured the support of 1,000 men (who didn't come) in case the office should be mobbed. Besides this, correspondence in the office shows they were in communication with traitors in New York city, who were encouraging them to go on the suppression of the American Slave Trade, cannot fail of producing the happiest results. Mr. Murray, who has since his appointment been laboring zealously to this end, and at whose suggestion the Convention was called, explained to the assembled Marshals the appearance of a slave-ship, her out-fit, cargo, mode of clearance, and illustrated each point in a thoroughly practical manner, by giving them a view of the slave-vessels and their discharged cargoes now in his custody at the Atlantic docks. The visiting officials manifested a very commendable desire to obtain information, and a general determination to do all in their power to break up this most infamous of all the speculations in which civilized men can be engaged.—*N. Y. Tribune.*

DITHRIDGE'S XX FLINT GLASS

OVAL CARBON OIL

LAMP CHIMNEYS,

THE BEST THAT HAVE EVER yet been offered to the public. They are the best for the following reasons:

1. Because, being of an oval shape, the glass is everywhere equally distant from the flame, so that the draft is stronger and more regular.

2. The oval shape is better adapted to resist the effect of sudden expansion, so that it is impossible to crack them.

3. The glass is made largely of Lead and Pearlash, giving a great degree of strength and elasticity. The chimneys which housekeepers have found to be so brittle as to crack even when not in use, are invariably made of Lime Glass instead of the Flint Glass, of which ours are manufactured.

4. But the greatest advantage of these Chimneys is that when you have one it will last forever, and if any accident or breakage occurs by the heat of the lamp, let her call at the Manufactory and we will replace her cracked chimney by a dozen whole ones. This profier does not include accidents or those cases of breakage where the chimney has, through inexperience, been screwed up closely to the lamp as to prevent its expansion when heated.

Manufacturers and consumers of Carbon Oil, who have felt the magnitude of the obstacle which has existed in the use of two descriptions of chimneys, in the way of the universal use of the oil, have found a remedy in the Oval XX Flint Glass Chimneys, which has materially increased the cost of Carbon Oil light to those who use them, and increased the consumption of oil consequent upon the lessened expense for chimneys.

For sale by J. C. Kirkpatrick, C. Thomas & Co., Rogers & Nesbit, F. Hayden, Lucesco Oil Co., Weldon & Estlack, W. Ogden & Co., W. P. Wooldridge, W. M. Harvey, or at the Manufactory, Washington street near Pennsylvania avenue.
