Burning of Warsaw.

Tiprox Mo., Nov. 24. The burning of the principal part of the town of Warsaw is confirmed by a gentleman who arrived from that vicinity this evening. The main business portion of the town, consisting of one large block and swers! smaller ones, were in fismes when the gentleman left. The town being scattered, it is probable that nearly all the residences escaped.

The quartermaster and commissivy departments were located in the large block, but the greater portion of the Greatment stores had been removed. The fire was supposed to be the work of the Scessionists. The troops that were there at the time were on the march to Sedalia, and left the morning after the fire, which cocurred on Thursday.

Thursday. SEPARTAL NOW 24.—The form was much about six of clock p.m. on "Thousday. All the business portion of the town is in ashes. The troops which were stationed there left about 80 villock p. m. and are now here. A portion of the nonmissary stores, for which
