THURSDAY MORNING, JAN. 9, 1862. CITY AFFAFRS. METROROLOGICAL! OFRERVATIONS for the sette, by G. E. Shaw, Optician, 55 Fifth street,-corrected daily : The Second Virginia Regiment. from a private in the Second Virginia Regiof our Pennsylvania soldiers in service in Western Virginia. The writer states that almost every Pennsylvanian in the regiment has expressed dissatisfaction and regret that they ever volunteered in the capacity they they ever volunteered in the capacity they now become. The main reason urged is, that most of them are poor men, whose wives and children are not provided for as they should and would be, if the men had callisted in their own State. They also complain that they do not not the theory of the company of monarities. extended to native Virginians, and the without regard to finess—if our correspondent is able to judge correctly. The fact is boldly stated, that the men, in consequence of these disadvantages, are fast becoming demoralized, and almost rectiess in regard to moralised, and almost reckless in regard to fature events in Western Virginia. We have alluded to this subject frequently; and if possible, some efforts should be made to relieve our men from a position so unpleasant. All they ask is, that their families shall not be deprived of the relief benefits extended to others, simply because the enlistments took place in Virginia instead of Pennsylvania. They could overlook all other disadvantages, if, as our correspondent states; "the loved ones at home" were not made to suffer. There is no complaint on the score of camp accomaplaint on the score of camp accom-s, and it is freely admitted that they they desire in the way of marking modations, and it is freely admitted that they have all they desire in the way of clothing, provisions, and other necessaries. We commend the matter to the attention of those having authority to act, and if any change can be made to save the efficiency of the regiment, let it be made at once. held on the 13th inst. This is an important election, and we trust the stockholders will attend to it. It is evident, from the Report of the Auditor General, that this Board knows but little, or almost nothing about the condition of the Company or road.

The officers of the Company are good and reliable men in their place, but it is evident reliable men in their place, that they are not from the report referred to, that they are not from the report referred to, scalenlated to succeed in an enterprise of this kind. No doubt these gentlemen will cheerfully stand aside, that others may be elected D. A CORRECTION.—In reporting the result of the election in the Second Ward, in yesterday's paper, we inadvertently pisced D. O'Neill, Eq., on the "Union" ticket. He ran for Common Council as an Independent Republican, and as he does not belong to the "Union" party, has never affiliated with it or sympathized even with its movements, this correction is necessary to place him right on the record. Indeed it is batteries of a trifling character. Indeed it isvery rarely that assaults and batteries have their origin in anything more serious than a petry aquabble between neighbors, or some trifling disagreement among friends.
