Supreme Court Decision Important.

In the Supreme Court, which session in Philadelphia, Judge Strong delivered a decision in the case of Clark vs. The Birmingham and Pittsburgh Bridge Company, affirming the judgment of the Court below.

The plaintiff brought an action in the Court below to recover damages for the loss of a boat, caused by its coming in collision with the bridge, which was maintained by the defendant.

The Court below entered a non sui, and the case was removed to the Supreme Court on a writ of error.

The charter of the company prescribed no limit to the bridge spans, and it therefore possessed a discretion which could be exercised by the company.

As the Legislature had not defined the right of pier, nor their location, it followed that they were not to be interfered with in the exercise of that discretion.

The judgment of the Court below was affirmed.

The City Police Appointments.

The City Police are all going to-day in reference to the appointment of the Mayor, which is likely to make the excitement very high at the Mayor's office, and the various rival candidates.

Mr. Robert H. Hines is to be Chief of Police under the new administration, and all the present incumbents are to be removed, excepting Messrs. Richardson and Strickland.

The appointments will be made by the Mayor, and the names of those who are to be appointed will be made known in a few days.

There is no need for haste, however, and the public may rest assured that the Mayor will exercise a sound discretion in selecting his police force.
