James L. Scholl, a physician from Allontown, made an excursion to Rreading last spring, accompanied by a lady, and put up at a choicl with her. Nort day both parties left that hotel and stayed over night at another one, just opposite their old stopping place. But as the Dr. was a married man, and the liady was married also, (though not to the Dr.,) the injured husband of his traveling companion had him arrested for the crime, and last week he appeared before the Reading Court, was tried, found guilty and sentenced to an imprisonment of six months. The doctor paid dearly for his unisdeeds, as, by—his decise, he alleged that he was arrested for the lamms offense and bound over to appear at last August Sessions, at Allentown, where a true bill was found against him, and upon his plesding guilty to it, he was sentenced to four months' imprisonment. He might have saved that imprisonment if, instead of them pleading guilty, it, he had gone to trial and objected to the jurisdiction of the Lehigh country.

THEATRE.—The beautiful and pleasing so-tress, Miss Kate Newton, will have a benefit to-night at the theatre, and judging from the isay's popularity, there is every reason to be-lieve she will be greeted with a crowded house. Miss-Newton will personate two characters, Pauline, in the "Lady of Lyons," and Kate O'Brien, in the amuning farce of the "Maid of Erin." In the latter part Miss Kate will sing several songe. Mr. Henderson will per-sonate Clande in the former piece.

MAPLE SUGAR.—The high price at which sugar is held just now, ought to induce the extensive manufacture of the article from the maple during the coming season. The Soldiers' Religious Aid Committee will report what they have been doing in the way of supplying the spiritual wants of our brave men in the field; and interesting addresses may be expected from the Rev. The Election in the Bucktails. The election in the Bucktail Regiment for a Colonel, in place of Colonel Charles J. Biddle, resigned, took place on Wednesday. By a provision of the law creating the Reserve Corps, the election of all field officers is conducted by the privates, and this law held good in the case of the Bucktail Regiment. Among the Consular appointments confirmed by the Senate, is that of Thomas F. Wilson, Eq., of this city, as Consul to Bahia, Brazil.

Mr. Wilson is quite a young man, studied-law with Judge McCandless, and was admitted to the bar a few years since. The port of Bahia is one of considerable importance in Brazil, being second only to that of Rio Janeiro.

Mr. Wilson has thus secured a very honorable position, and his friends will be pleased to hear of his success. The salary is said to be \$1,600 per annum.

Most of us lately read, with such interest as the importance of the subject in the present orisis naturally excited, Mr. Donald McKay's letter in the Boston Bulletin, on the means of providing a Navy. Mr. May claims to have nearly thirty years' knowledge of ships, and his conclusions differing from those arrived at by Mr. McKay, we commend his "Suggestion towards a Navy," to those who have interested themselves in this important subject.

Coffee Growing in Illinois.

The resources of our State appear to be without limit. Not only are we producing our own Syrup and Sugar, and are lined to produce our own Cotton, but it has been demonstrated to a certainty, that Coffee can be grown in Illinois.

Mr. George R. Hoffman, of Effingham county, last year raised two bushels of coffee, nearly identical with the Rio coffee, the first year, bearing a little the second year, and is most productive the third season. At his estimate, thirty bushels can be grown per care. The plant has every appearance of hardiness and adaptability to Illinois soil.

Many farmers in Mr. Hoffman's vicinity, will plant it the coming season.
