Cruelty to Animals, The last official act of Mayor Wilson was the infliction of a fine of five dollars upon a

teamster named Gilmore, of Birmingham, for beating a muls over the nose, with the butt of his whip, because the animal would not "back" to a certain position. The beating was so cruel and unmerciful that two of the bystanders remonstrated with the teamster, but all to no purpose. They then made complaint be-fore the Mayor, with the result stated. In the Diamond, Allegheny, we yesterday witnessed a similar case of brutality, though not so aggravated in its character. A coun-tryman, diving a team strandster bed which seed a similar case of brunnity, though not so aggravated in its character. A coun-tryman, driving a team attsched to a load of hay, "stalled" in the mud, and sooing that the off wheel borne refused to pull, plied the whip about its hind legs until the lash flew in frag-ments through the air, and the poor animal held the limb up as if endeavoring to relieve. or escape the pain. At this juncture, a gen-tleman stepped up, took the horses by the head and undertook to lead them forward. They made a start, but he immediately dis-covered that the off-horse was geared in such a manner that he could not pull, howarer wil-ling. He called the driver's attention to this, are righting the harners the load was moved off without-difficulty. Here was an instance in Which an inoffonsive bruto was as aga-sionate ignoramus. Thirty lastes on his bare back would not have been too severe as a pun-ishment for his brutality.
