WEDNESDAY MORNING, FEB. 5, 1862.

Main Features of a Plan for Completing the Chartiers Valley Railroad.

1. The bonds of the city of Pittsburgh and county of Allegheny, given in payment of their subscriptions to the stock of the company, to be exchanged for the first mortgage bonds of the company, to the amount received for the bonds, and the unpaid interest on that amount.

2. The city of Pittsburgh and county of Allegheny to be relieved of the payment of both principal and interest of their bonds issued to the Chartiers Valley Railroad company, on condition of paying $200,000 cash, in ten additual installments of $20,000 each.

3. Separate receipts to be given to the tax-payers for the portion of their tax that goes towards the payment of the subscription to the stock of the C. V. R. R.; these receipts to be exchanged for certificates of shares in the company's stock, a certificate of a share being issued for $50, in railway tax receipts, presented to the secretary of the company, and the receipts to be transferrable at the pleasure of the holder.

4. The preceding arrangements to be binding on the holders of the bonds, the city of Pittsburgh, the county of Allegheny, and the Railroad company, when assented to by all, and not before.

5. The bonds of the city and county to be surrendered, and their certificates of stock cancelled as fast as the bonds are exchanged for the company's bonds.

6. A new subscription of stock by individuals, payable on the completion of the road.

7. Income bonds to be given at par, to secure the payment of the floating debt, and the amount to be raised at once for the completion of the road.

8. The new stock, both private and corporate, to be pledged for the payment of interest first, and the remainder for the extinction of the income bonds.

9. At least half of the surplus of the net income from the operations of the road, remaining after the payment of interest, to be devoted to the reduction of the debt.

CONDITION OF THE COMPANY, IF THE PROPOSED ARRANGEMENT BE EFFECTED.

Pittsburgh and Allegheny county bonds at 50 per cent	$150,000 00
Back interest on dit. (supposed for 6 yrs.)	54,000 00
Company's bonds at 60 per cent	79,800 00
Back interest on do. (supposed for 6 yrs.)	28,620 00
Penn. R. R. Co.'s loan	100,000 00
Total funded debt	$412,420 00
Floating debt (present) at par	188,700 37
Additional to complete road (supposed)	200,000 00
Total debt	$800,620 37
Less $300,000 00	

Annual charge for interest $48,000 00.

To meet the first enstallment of interest, which will be about $42,000 00, there will be the installment of the city and county subscription, amounting to $40,000 00, less the cost of collecting, netting, say $35,000 00, leaving $5,000 00 to be paid from the old stock yet unpaid, or otherwise provided for until the new stock is paid.

Supposing the deficiency in interest to be made up out of the old stock yet unpaid, the subscription of new stock to amount to $100,000 00, and the road to be put in operation in one year after the completion of the arrangements, (which is practicable) the new stock being applied at once to the reduction of the income bonds, the road would start with a debt of $700,800 00, an annual charge of $42,000 00 for interest, and an annual income from capital stock of $36,800 00.

The gross earnings of the road may be safely estimated at $5,000 per mile, per annum, and the net earnings half as much, or $2500 and upwards, 22½ miles of road.

To redeem the remaining $285,000 of income bonds, in ten annual installments, each including interest on the amount unpaid previously, would require $39,169 75 for each installment, or $3,170 more than the annual installment at city and county stock. Subtracting this amount and the interest on the funded debt from the net earnings, and $23,413 will remain, half of which being applied to the redemption of the mortgage bonds, will leave $14,000 for dividends on stock.

At the end of ten years the stock would amount to $320,000, if all the tax receipts were consolidated into stock, on which $14,000 would be 4⅜ per cent.

ADVANTAGE TO CITY AND COUNTY.

If the interest unpaid has been correctly estimated, and the bonds have eleven years to run, the city and county, together, will have to pay,

Of back interest	$108,000
Of future "	198,000
Of principal	300,000
Total	$606,000

For this nothing will be received, as the road, if not placed on a cash basis and completed, must unavoidably be sold, but if the proposal here made is accepted, only two-thirds as much will have to be paid, and the city and county will lose nothing, and be entirely freed from trouble and loss, as soon as the subscription shall have been paid.

ADVANTAGE TO BONDHOLDERS.

The present value of the Company's mortgage bonds is merely nominal, while those of the city and county are unproductive, and the interest can only be obtained by tedious and expensive litigation; but by accepting the Railroad Company's first mortgage bonds, on the condition and pledges here proposed, the road can be completed, and, without doubt, made profitable, and the bonds will be safe and productive.

PRACTICABILITY OF THIS SCHEME.

That depends chiefly on the willingness of the directors of the company to adopt it, for when it is distinctly understood by the tax-payers of the city and county, that it is not an additional burden, but a lighter one, that they are asked to assume, and that the alternative is not, a tax or no tax, but between two methods and amounts of taxation, they will, in all probability, accept the plan offered here. The farmers and others on the line of the road will, for the sake of getting the road, make new subscriptions, payable on the completion of the road, and it is thought that $100,000 can be obtained on this condition, but very little of either preferred or common stock can be disposed of on terms that leave any doubt as to the result. As the road is now worth but little to the bondholders, their consent can easily be obtained to any arrangement that will make their bonds worth something.

The net earnings have been estimated at $2,500 per mile, but it will be seen that half this amount will be sufficient to pay the interest on the mortgage bonds, and the deficiency on the installments on the income bonds.

Are the people of Pittsburgh and Allegheny county willing any longer to be reproached with having failed in all of their railroad enterprises, and in the performances of their engagements? Are they willing that, for the next ten years, as in the last ten, Pittsburgh shall increase less than any city of its size in the Union? If not, let them think, speak, and act like men that have an individual interest in the welfare and reputation of their city and county. Let them examine the condition of the railroads they have undertaken, consider the plans for completing them, and exert their influence to make at least one of these railroads prosperous and efficient.

OFFICIAL.

LAWS OF THE UNITED STATES.

Passed at the Second Session of the Thirty-seventh Congress.

[PUBLIC—No. 14.]

AN ACT to authorize the President of the United States in certain cases to take possession of railroads and telegraph lines, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States, when in his judgment the public safety may require it, be and is hereby authorized to take possession of any or all the telegraph lines in the United States, their offices and appurtenances; to take possession of any or all the railroad lines in the United States, their rolling stock, their offices, shops, buildings, and all their appendages and appurtenances; to prescribe rules and regulations for holding, using, and maintaining of the aforesaid telegraph and railroad lines, and to extend, repair, and complete the same, in the manner most conducive to the safety and interest of the Government; to place under military control all the officers, agents, and employes belonging to the telegraph and railroad lines thus taken possession of by the President, so that they shall be considered as a post, road and a part of the military establishment of the United States, subject to all the restrictions imposed by the rules and articles of war.

Sec. 2. *And be it further enacted*, That any attempt by any party or parties whomsoever, in any State or District in which the laws of the United States are opposed, or the execution thereof obstructed by insurgents and rebels against the United States, too powerful to be suppressed by the ordinary course of judicial proceedings, to resist, or interfere with the unrestrained use by the Government of the property described in the preceding section, or any attempt to injure or destroy the property aforesaid, shall be punished as a military offence, by death, or such other penalty as a court-martial may impose.

Sec. 3. *And be it further enacted*, That three commissioners shall be appointed by the President of the United States, by and with the advice and consent of the Senate, to assess and determine the damages suffered, or the compensation to which any railroad or telegraph company may be entitled by reason of any railroad or telegraph lines being seized and used under the authority conferred by this act, and their award shall be submitted to Congress for their action.

Sec. 4. *And be it further enacted*, That the transportation of troops, munitions of war, equipments, military property and stores, throughout the United States, shall be under the immediate control and supervision of the Secretary of War and such agents as he may appoint; and all rules, regulations, articles, usages, and laws in conflict with this provision are hereby annulled.

Sec. 5. *And be it further enacted*, That the compensation of each of the commissioners aforesaid shall be eight dollars per day while in actual service; and that the provisions of this act, so far as it relates to the operating and using said railroads and telegraphs, shall not be in force longer than is necessary for the suppression of this rebellion.

Approved, January 31, 1862.

River News.

The river continues to recede slowly, with eight feet ten inches by the marks last evening. The weather continues cloudy, raw and unsettled.

Business remains very dull at the wharf, with light receipts and limited shipments. The tonnage in port is about four times too large for all the freight that is offering at present, and the consequence is that rates are down to a very low figure.....The only arrivals from below were the Minerva from Wheeling and Science from Gallipolis. The Belle and Venango arrived from Oil Creek, loaded principally with oil.

.....The J. B. Ford for Portsmouth was the only transient departure. The Moderator for Louisville it was thought would get off during the night.....The Kenton, Capt. Ebbert, is the next Cincinnati or Louisville packet.....The Citizen for Evansville, has deferred her departure until Thursday.....The Dacotah, Capt. Hendrickson, will leave for St. Louis to-day without fail. She will be followed by the Arago, Capt. Golding.

PERSONAL.—Capt. John McClure, Master of Transportation in Western Virginia, was in the city yesterday.

The Louisville Journal says the condition of the Arizonia across the canal has become even more hopeless since the rise, the first installment of which reached that place on Saturday. It is feared now that she can never be reclaimed.

RAY CITY SOUND.—Capt. Anawalt has disposed of the Bay City to Capt. Wm. Dean, who intends transferring her machinery and cabin to a new boat. Capt. Anawalt, however, will continue to run her between here and Louisville until the first of next month.

ST. NICHOLAS HOTEL, BROADWAY, NEW YORK.

BOARD REDUCED TO $2,00 PER DAY.

Since the opening of this vast and commodious Hotel, in 1854, it has been the single endeavor of the proprietors to make it the most sumptuous, convenient and comfortable home for the citizen and stranger on this side of the Atlantic.

And whatever has seemed likely to administer to the comfort of its guests they have endeavored, without regard to cost, to provide, and to combine all the elements of individual and social enjoyment which modern art has invented and modern taste approved; and the patronage which it has commanded during the past six years is a gratifying proof that their efforts have been appreciated.

To meet the exigencies of the times, when all are required to practice the most rigid economy, the undersigned have REDUCED THE PRICE OF BOARD TO TWO DOLLARS PER DAY, at the same time abating none of the luxuries with which their table has hitherto been supplied.
