we are entering upon the great struggle which no people have ever avoided—a struggle between the few and the many—a struggle between aristocracy and democstruggle between the few and the many—a struggle between aristocracy and democracy. The North represents a democracy, founded on industry, brains and money; the South an aristocracy, founded on slave labor—an aristocracy whose right hand is negro slavery, and whose left is the ignorant white man.

BEGINEING OF THE DISTURBANCE.
At this point a heavy boulder was thrown rom the third tier of boxes. It struck a from the third tier of boxes. It struck a few feet from the speaker. It came crash-ing among the foot-lights like a cannon shot. Simultaneously with the boulder came a couple of eggs, that burst like bombs, dispensing a perfume more potent than fragrant. One of these oderous misbombs, dispensing a perfume more potent than fragrant. One of these oderous missiles struck the speaker. The eggs were thrown from the left of the second tier, and were accompanied by a series of yells, like nothing unless it be the war whoop of a score of infuriated Indians: "Down with the traitor," "Egg the nigger Philips," and a dozen other opprobrious epithels. "Allow me one word more. I do not know what that fellow-man meant who sent that stone, but I meant no insult to the non-slaveholding white man of the South. I sympathise with them, for they suffer from a despotism whose right hand is jower, and whose left, hand is jower, and whose left, hand is jower, and whose left, hand is ignorance. If South Carolina ever sees the utmost exaltation of her masses, it will be when the Stars and Stripes guaranty freedom to every member of the thirty-four States. There are many things which American citizens cannot do, and one thing which I know they cannot do; and that is to prevent this belt of the American continent fram being, in sevently years or less time, one country, governed by one exceptre, indissoluble as granite.

It is presumed by the officers on board the Constitution that the work of reflucing Forts Jackson and Phillip was commenced some days since. It was supposed that some of the mortarboats would take position in an inlet in the rear of Fort Jackson, ere it is forever too late.

> The Release of Rebel Prisoners. The country will rejoice to hear that the President has determined that no more rebel prisoners shall be released until the rebels fulfill their promise to discharge the prisoners in their hands in exchange for those set free by Gen. Burnside, and send home Col. Corcor and his brave fellow-sufferers. Gen. Halleck's Commissioners, appointed to visit the Fort Donelson prisoners at Chicago, had reported the names of 1.000 robels as desirous to take the cath of allegiance, but Schuyler Colfax rotested against their release on these or any ther terms, and the President revoked the ommission and prohibited the discharge of nore rebels.

CASE OF DANIEL A. BOYD. DR. G. H. KETERE:—I take pleasure in making this voluntary statement in favor of a modicine pre-pared by you called "Lindan's Bloom Szammen." I had suffered for five years with Borofula, which broke out on my head and forehead so as to disfigure me very much, and took off the hair when the dis-ease made its appearance; it also broke out on my arm above and below the elbow, and eat into the skia and ficah so as to expose a fearful sore. The discan on my head went so far that several small pieces of bone came out. I was very weak and low spirited, and had given up all hope of ever getting well, as I had tried several skilling physicians and they did me no good. In September last, 1803, I was induced to try "Lumbert's Invaceme Blood Seaschen:" I nust confess I had no faith in patent medicines, but after I had used three bottles of Blood Searcher, the ers on my head and arm began to heal. I have there on my need and arm began to heal. I have now taken eighter ten bottles and my head and arm are entirely well except the scars remaining from the scree.
