RELIGIOUS INTELLIGENCE.

The Rt. Rev. William Meade, D. D., Bishop of the Episcopal Church in Virginia died last month at his residence, near Millwood, Clark county, in that State. Bishop Meade was seventy-three years of age, a man of marked character, and wielded a remarkable religious influence in every section of Virginia. He graduated at Princeton College, had been a minister in the Episcopal Church fifty years and a Bishop thirty years. He was the founder and President of the Episcopal Seminary in Alexandria. At the commencement of the national disturbance, it is said, he deprecated, situation, and made fervent appeals to avert a civil war, but when Virginia seceded he linked his interests with those of his State.

——A bill passed the Kentucky Legislature sometime since which requires ministers and priests to file in the office of the County Clerk, an affidavit that they have sworn to support the Constitution of the United States and the Constitution of the State, before they are authorized to solemnize marriage. Delinquents are subject to a heavy fine.

——The able English correspondent of the *Banner* writes the Wesleyans form a powerful body of christians in Manchester. He says the system works admirably as a whole. While not able to say that it has been kept free from schisms in its past history, yet it has on the whole kept up a Presbyterial control, with a steady and successful hand, and in contrast to pure Congregationalism, its congregations have been knit together, with rare exceptions, in bonds of mutual co-operation—"all at it and always at it"—in giving and in aggressive assaults on the world lying in wickedness. The Wesleyans have, within a few years, paid off chapel debts to the extent of nearly half a million sterling. We quote:

They are far nearer a Moderate Calvinism, I think, than their fathers. At all events, there is scarcely ever to be heard, assaults from the pulpit on Calvinism, and the Evangelical Alliance spirit largely pervading the body, the common dangers of genuine Protestanism from Popery and infidelity, the constant holding forth of justification by faith as a cardinal verity, in connexion with a real atonement, and a real Holy Ghost, make the Methodists of England mighty in word and deed, and a blessing alike to the masses and to the heathen nations.

——In a recent work published, entitled "Baptism, the Covenant, and the Family," the author, says the *Presbyterian*, makes the singular prediction that the Campbellites, or Disciples of Christ, are to be regarded as being the "Baptists of the future, threatening to swallow up all the other Baptist sects by their unparalleled success."

——In a recent number of the Lutheran *Observer* eight notices of revivals are given, several of which appear to have been powerful and extensive. About four hundred hopeful conversions are reported in the aggregate. Recent intelligence reports a gracious revival in progress in the Iowa Lutheran College at Tipton.

——A movement is on foot for a union between the English Presbyterians and United Presbyterians in England. It is expected that should this union be perfected, the Welsh Calvenistic Methodists will join the united body, and then England shall have her own General Assembly.

——It is stated that the United Presbyterians are building four new edifices in London, and are right heartily at work in many of the smaller towns.

——In 1861 the number of Reformed Church pastors in France amounted to 658, and of Lutheran, and other Protestant denominations, 405—making altogether, 1,058 Protestant pastors, against 451 in 1808.

——The January number of the British Quarterly *Review* contains an article on the Free Churches of England. This article shows that while during the last fifty years the Church of England has fallen 70 per cent. behind the growth of the population, Dissent has placed itself 303 per cent. in advance—in supply of church accommodations.

Commissioners to the Presbyterian General Assembly are requested to forward their names to Rev. J. D. Smith, Columbus, Ohio.

——The forty-eighth annual meeting of the American Baptist Missionary Union, is to be held in Providence, R. I., May 27th. From a recent appeal by the Secretary of the Society, $80,000 is needed to close the year out of debt.

——The New York Bible Society during the past year distributed among the men comprising one hundred and thirty-nine regiments, 85,668 volumes of the Scriptures.

——The First United Presbyterian Synod of the West by special call of the Moderator, Dr. Easton, will convene in the 3d U. P. Church, Allegheny city, on Wednesday the 4th day of May next.

——The regular quarterly meeting of the Sabbath School Teacher's Union of the Reformed and United Presbyterian Churches will be held in the 4th U. P. Church, Monday evening the 14th, at 7½ o'clock.

——The statistics of Unitarianism in the United States are given as follows in the official record: There are 262 societies, of which 64 have no pastors; 210 names in the list of preachers, 138 of whom are not settled, leaving 181 settled ministers. There are 15 chaplains in the army from this denomination. There are 31 candidates for settlement.

It is calculated that there are 1,500,000 Catholics in England and Wales.

——From a letter in the *Telescope*, we learn that Bishop Glossbrenner, who is a resident of that part of Virginia which is under the control of the rebels, the United Brethren ministers are holding on in their work as best the circumstances will admit. The United Brethren body is quite large in Virginia, and nearly all their members are for the Union and strong anti-slavery men.

——Mr. Radcliff, the English revivalist, has been again holding revival meetings in Paris and other parts of France, with great success.

——It is believed the civil tribunals of France will soon have to decide the question whether Roman Catholic priests can contract civil marriage in France.

——The Rev. Mr. Squire, who left the Unitarians, and went over to the Episcopal Church, having been formally received into its communion by Bishop Eastburn, has renounced his allegiance to it, and joined the Trinitarian Congregationalists.

——Lord Palmerston is encouraging his Irish tenantry to emigrate to Canada.

A SECRET chamber, a relic of the Inquisition, has been accidentally discovered in Seville. The room contained four mummified bodies attached by a chain. One was a barefooted monk; the others were dressed in clothes of the style of the last century. It is supposed that the prisoners met their deaths by starvation.

IT has been computed that the number of human beings on the earth is about one thousand millions. They speak 3,064 known tongues, in which there are more than 1,100 religious or creeds preached. The average duration of life is 33⅓ years. One-fourth of the born die before they reach the age of seven years, and half before they reach the seventeenth year. Deaths average one every second.

THE universal Yankee is always up to time. Five applications have been made to Government for licenses to open hotels at Richmond, when taken.

A MONUMENT is to be erected at Paisley to Alexander Wilson.

A SMALL picture by Meissonier was lately sold in Paris for $8,000.

IN the Prussian army, coffee rations are to be substituted for brandy.

Nos. 9, 11, 13, 15, 17 Cortlandt St.,
NEAR BROADWAY, NEW YORK CITY.

This old established and favorite resort of the Business Community, has been recently refitted, and is complete in every thing that can minister to the comforts of its patrons. Ladies and families are specially and carefully provided for.

It is centrally located in the business part of the city, and is contiguous to the principal lines of steamboats, cars, omnibuses, ferries, &c.

In consequence of the pressure caused by the rebellion, prices have been reduced to ONE DOLLAR AND FIFTY CENTS PER DAY.

The table is amply supplied with all the luxuries of the season, and is equal, to that of any other hotel in the country. Ample accommodations are offered for upward of 400 guests.

☞Do not believe runners, hackmen, and others, who say "the Western Hotel is full."

DITHRIDGE'S XX FLINT GLASS
OVAL CARBON OIL
LAMP CHIMNEYS.
Patented October 8th, 1861.

The best that have ever yet been offered to the public. They are the best for the following reasons:

1. Because, being of an oval shape, the glass is everywhere equally distant from the flame, so that the draft is stronger and more regular.

2. The oval shape is better adapted to resist the effect of sudden expansion, so that it is impossible to crack them.

3. The glass is made largely of Lead and Pearlash, giving a great degree of strength and elasticity. The Chimneys which housekeepers have found to be so brittle as to crack, even when not in use, are invariably made of Lime Glass instead of Flint Glass, of which ours are manufactured.

4. But the greatest advantage of these Chimneys is that when you have one it will last forever, and if any housekeeper breaks one by the heat of the lamp, let her call at the manufactory and we will replace her cracked chimney by a dozen whole ones. This proffer does not include accidents, or those cases of breakage where the chimney has through inexperience, been screwed so closely to the lamp as to prevent its expansion when heated.

Manufacturers and consumers of Carbon Oil, who have felt the magnitude of the obstacle, which has existed in the great expense of chimneys, in the way of the universal use of the oil, have found a remedy in the Oval XX Flint Glass Chimneys, which has materially lessened the cost of Carbon Oil light to those who use them, and increased the consumption of oil consequent upon the lessened expense for chimneys.

For sale by J. C. Kirkpatrick, L. Thumm & Co., Rogers & Nesbit, P. Hayden, Lucodeo Oil Co., Welden & Reineke, W. Ogden & Co., W. P. Wooldridge, W. H. Murray, or at the Manufactory, Washington st., near Pennsylvania avenue.
