An Iron-Ciad Navy. Our Navy Department is quietly, though rapidly at work, increasing the efficiency of our Navy, by building vessels and bat teries adapted to the new discoveries and who would have scorned the idea two years principles which have destroyed the utility Three more new iron-clad batteries sim

ilar to the Monitor, are ordered to be built at the Continental Iron Works, Greenpoint, for the United States government. They are to be much larger than the Monitor and to carry a more formidable armament. each boat to have two turrets. The work while those north of the river were found

The Atlantic Works and Harrison Loring.

exchange paper :

"A contract has been made by government with certain parties in Boston to build an iron gunboat of between 600 and 700 ons, to be furnished with Woodbury's sub-

this vessel would put her in commission in it in Boston harbor on Thursday week:

"The idea of the inventor is to build an tonnage to carry a gun at the bow, one at the stern, and as many as desirable amid-ships. The vessel in action will lie along-side of her adversary, and discharge her but longer than common, and can be cast to dissharge any projectile now in use. The gun, when ready for action has a tin cylindrical case fitted closely at the murile, rendering the chamber air-tight, and the piece is fired, the charge attains its full velocity before reaching the tin canister nav be made at a distance of two or three

and shuis as the piece is run out or with-drawn. The recoil on the gun is so strong, and the action of the port so sudden, that it is expected very-little water will be ship-ped as the cannon is drawn in.

ter at a target made of spruce plank, crossed at right angles, and heavily bolted and braced, and placed at a distance of ten or twelve feet. The target was penetrated in such a manner as to show that the invention is one of the most important which has been made in naval warfare?

The inventor is Mr. Jos. P. Woodbury. It is poculiarly adapted to fighting against armor-clad vessels, which, while they are amazingly strong above the water, have ment at the discretion of the Court. no armor below, and are there perfectly vulnerable. Hollins' submerged ram was legal processes in such cases, but this is the designed to combat such vessel, as well as gist of it. the ordinary war vessels, and it appears from the partial description of the Merrimac which has just been published by the following items: rebel authorities at Richmond, that she too has both ends submerged, though we had not ascertained the fact. Besides the visible ram, therefore; she must have formida-

ble battering power under water. sels as he chooses on Erricsson's plans; and their being sunk to the water level, while it would protect them against any other affords an aperture into which the enemy

The Rebel Steamer Nashville. From Nassau we learn that the last attempt of the Nashville to run into Charleston was unsuccessful. She took on board a cargo of contraband goods from the Britcargo on board. . The report was that she a new name, but it was perfectly well understood at Nassau that the sale was a bogus one, as are all similar ones at Nassau

and Havana. A private dispatch, from a high official at Washington, has been received in this city, confirming the report that New Orleans is in possession of the Federal forces. There can be no doubt that New Orleans has fallen. Washington, that New Orleans has been

THE Chicago Tribume says: More than two-thirds of the soldiers from this State are Republicans, and taking the West together, fully three-quarters of the volunteers are Republicans. This accounts

Emancipation in Missouri. dissourt for the election next August, when idlers, reluctant to go into the service, are Governor, State Legislature and Members constrained to go. The soldiers who have f Congress are to be chosen. And it is not served out their periods of enlistment are ONE OF THE PATENT WRITING CASES. trange that, under all the circumstances of forced to continue in the field. The Memhe war, the issue upon which this election | phis Avalanche, of the 17th, says: binges is emancipation! Candidates are There will be many, very many, doubteverywhere discussing it, the people are less, who will shrick in violent trepidation everywhere discussing it, the people are talking about it, and the friends of the measure are not only the growing party but they seem to be even now the dominant one. Emancipation may only be accomplished by an amendment of the Constitution, and for an amendment of the Constitution, and for an amendment of the Constitution, and for this the action of two consecutive Legisla-forced down the throats of a people claim-forced down the throats of a people claim-forced down the throats of a people claim-forced down the throat force do tures will be required. The awakening in ing to be free, and now battling for their favor of emancipation seems to be general. It embraces Democrats and anti- $\overline{\mathrm{D}}\mathrm{emocrats};$ slaveholders and non-slaveholders; and some of its principal advocates are men

the St. Joseph district, said to the people of Andrew county at a recent meeting, as reported in the St. Joseph Herald: He believed the damnable course of the secessionists had killed the institution dead in Missouri. [Cheers.] Slaves south of the Missouri river were very scarce to find on them has already been commenced. The common Council of New York, on Monday night last, gave the contractors privilege to enclose the lower end of Colyer street, in order to facilitate the construction of these batteries.

The Atlantic Works and Harrison Loring, idst—which dilemma effectually cuts us off

ago. Here is what ex-Governor Robert M.

tewart, who is a candidate for Congress in

of Boston, have been awarded contracts for building iron-clad vessels under the recent law.

We find the following paragraph in an We find the following paragraph in an slaves than with them. He believed they had become to be a very unsafe, as well as almost worthless species of property. He thought this was a question to be settled by the people themselves, and that before any action could be taken thereon, two consecutives of the people was a set of the people themselves and that before any action could be taken thereon, two consecutives of the people was a set of the people when the people was a set of the people tons, to be furnished with Woodbury's submarine battery. The vessel will be 185 feet long and 30 feet beam, and will be built throughout of iron in the most substantial manner. She will carry one gun on deck and a large gun for submarine firing at the bow. She is to be built at the Atlantic Works, east Boston, and is to be ready for service in Irom four to five months.

The period stated for the completion of the state that the this vessel would put her in commission in the comme a law. He did not consider it his duffy to advocate emancipation then, but, to

this resset would put her in commission in September next. The term submarine battery conveys no adequate idea of this extraordinary invention, and hence we are tempted to copy from the Boston Transcript the subjoined account of the design, and of a successful experiment made with —on the question of pecuniary weal or wo of the citizens of Missouri.

The disenthralment of Missouri has be gun. Policy and patriotism will make her yet the great Free State which her central position in the West and her rich resources have designed her to be. Out of the fiery guns at an near range as possible to obtain.

1 "The cannon are to be of the usual shape, trial of 1861-2 our sister State will come purified, to enter upon a new era of growth and prosperity.

Important Bill Relating to Arrests Mr. WADE, of Ohio, on Friday last introduced's bill into the Senate, relating to arrests like that of ex-Secretary Cameron usly mentioned, and an effective shot by preventing them in future. The bill provides in the first place that all suits unured feet.

"The cannon is fitted into a stuffing box, or servants of the government because of possibility of a radical curs. No case of the kind engine, and an automatic porthole opens | illegal arrests made for disloyalty, and im prisonment in forts, or of seizures of prop erty under suspicion that it was intended for the rebels, shall be transferred to the Circuit Courts of the United States, the A twelve-pounder was fired under wa- Government there to have the privilege of continuing the said cases from term to term until the present rebellion shall have ended-It further provides that any person who government officer on charge that the plaintiff was arrested and imprisoned by him is a fort, shall be deemed guilty of misde-

meanor and subject to fine and imprison-The bill is quite lengthy in providing for

Maryland. A letter from Baltimore gives us the

DR. SLICER AND THE SECESSIONISTS. Since Dr. Slicer, the war-horse of pro-slavery in the Methodist Episcopal Church, has been put in Coventry by an assign-ment to a Bethel in our harbor, he has had crowded audiences of secessionists to hes If this new battery of Mr. Woodbury can fire a twenty-inch gun under water, a single shot from it at point blank range would sink any vessel in existence. Nay, a fif-igneminious exile; but he would be revengteen-inch gun, or even an eleven-inch, would dosuch awful damage to an antagonist as can only be conceived by referring to the slaughter on the Cumberland and Congress.

Captain Coles may build as many of his ves—with the rebellion and slavery as far as with the rebellion and slavery as far as a slavery as far as with the rebellion and slavery his position will let him, though he does it constitutionally!

BISHOP POLK. it would protect them against any other antagonist, would be of no avail against this Woodbury battery. Above the surface every shot fired is seen, and the open port the surface of this woodbury in the open port the battle of Pittshurgh Landing, with dire to the battle of Pittshurgh Landing, with dire to the open port the battle of Pittshurgh Landing, with dire open onecturers and Wholesale Dealers in LAMPS. Stories an appetitus into which the enemy affords an sperture into which the enemy he, as well as the late President Polk, and pour their destructive missiles. But under all the Polks of Tennessee and North Carowater, where this new engine of death is worked, the terrible messenger wings its way unseen, the port-hole presents no mark to fire at, and the devoted vessel is powerless to resist.

The Rebel Steamer Westwille.

GOOD PRUITS OF EMANCIPATION. The abolution of Asvery in the District of Columbia is already producing good fruits in this city. The robels are fording the Unionists to take anti-slavery and a cargo of contraband goods from the Brit-ish steamer Southwick, and started for Charleston on the 5th inst, but returned again to Nassau on the 10th with the same cargo on board. The report was that she cargo on board. The report was that she had been chased by one of the National gunboats. Subsequently, as before stated, she was transferred to the British flag, with a new name, but it was perfectly well unbe for slavery and rebellion.

EFFECTS OF REBELLION. Many of our mercantile class are forced at last to admit that Baltimore has received a stab in her commercial prosperity by the Pratt street rebellion that will require years to heat. They have ascertained that the Ohio and Indiana trade has left us, and gone to New York and Philadelphia, and it was this trade that formed two-thirds of be no doubt that New Orleans has fallen.

Our transactions. The probability now is that the mass of our traders and merchants that the mass of our traders and merchants will be broken up, unless their western confinerce can be won back. Gurses, loud and deep, are daily uttered by the handful of loyal merchants against the rebel crew that sought to carry Baltimore into Jeffdom.

ndependence.

It will sweep from our street corners and other public lounging places, the meddlers and croakers, who are so offensive to our brave soldiers passing through the streets of our cities, or by railroad stations, where the quidnuncs are wont to assemble. It will hold bound to military service all alike,

between the prescribed ages. Let no obstacle be raised to impede it. It will have its course. It would be fratrioidal and suicidal to resist it. Who would desert his country's standard now? Who would stand on mere form and now? Who would stand on mere form and ceremony when from every hill and valley the country calls "to arms!" The full strength of the Confederacy has not been brought into the field. The law of confective will effect what has been striven for in vain. He is an enemy to his country—he is an aider and abettor of Linguish. Who would attenue to allegate the oln, who would attempt to alienate the fection of the soldier or awaken the ap chension of the civilian on account this law, just and equal as it unquestions bly is, at this perilous crisis.
