You can imagine the load. The strongest man could not bear up against it many system of instruction for the negroes, free, slave or contraband. When Governor Stanley reached Newbern he was waited upon by the military and civil officials. Mr. Colyer told him what he had done, and mentioned the schools among the blacks, of whom about seven hundred were under instruction. The Governor said that as man he would probably have done as Mr. Colyer had done, but as Governor he was instructed from Washington to see that the laws of North Carolina were administered precisely as they were before the rebellion: that the laws of North Carolina made it a criminal offense to instruct the negroes, and that consequently the schools must be closed. Mr. Colyer yielded at once, and this new light was incontinently snuffed out, and the dark ages instantly resumed their away in North Carolina.

With such loads to carry, his men will never be in fighting condition. An hour's march of double quick, under a Virgin's summer's sun, would only nake them ripe food for the enemy. I can now see why McDowell moves so slowly. He is not troubled with a long train, but a short troubled with a long train train train the

BIGHE MAN IN THE BIGHT PLACE.—The ab-olition papers are opening their batteries on Gov. Stanley, of North Carolina, because he has very properly shut up a nigger school opened by some Northern fanatics, and advised the directors to set the contrabands to work, instead of training them to be philosophers, poets, orators, logicians and metaphysicians. It seems plain that which tells a sad story:

Gov. Stanley is carrying out the views and ideas of the administration, much to the sorrow and disgust of the abolition school, but to the full satisfaction of all loyal and conservative citizens. He is just such another "right man in the right place" as Gov. Johnson, of Tennessee, and his acts offer a strong content to the South Carolina by Secretary Chase to look after the niggers. We wish all our Governors and other officers to be of the Johnson and Stanley stamp, for they are the right kind of men to aid in preserving the Union. Mr. Secretary Chase, who has made such a great reputation by his dester-ous management of the almighty dollar, seems to have forgotten all his former pro-ficiency in this line, and has instead be-

snubbed by his superiors. Mr. Secretary STANTON gave him no orders to restore the intestible local laws of North Carolina; and after consultation with the President he has revoked the revoker, and the schools are to go on. family and all. The front of one of his stores was glass when the rebels entered the town, and their first act was to break in the entire front. Then came the demolition of his goods, which was a complete end. His loss is very heavy. Next in turn came Mr. Carpenter. He kept the large National Hotel at the railroad, the largest hotel in the place. He had just laid in a large amount of greenies, &c., which were all taken. His furniseems to have forgotten all his former proficiency in this line, and has instead become absorbed with the almighty nigger.

The details of the outrage we are about to narrate, come to us from a source which is a guaranty for their accuracy, and if the character of our informant was not unimpeache ble, we should find it difficult to believe that even the hellish spirit of secession could have stimulated such a fiendish act. Is it not a singular fact, that almost the first exercise of Mr. Syanger's authority, as Millitary Governor, should be to stop the schools for the poor and the slaves! If such is the breadth of feelings of a Union man, what must be the condition of the disloyal?

All this only proves what we have said heard of the cruci and shamoless outrage, and had ascertained the perpertator, he called a meeting of the citizens at the Court House, which was largely attended, and stated to them that he had convened them, not to discuss political or other differences, but to state distinctly, that if any further outrages should be committed, he would hold the prominent citizens of the town responsible.

CASE OF DANIEL A. BOYD. PITTERURGH, Documber SI, 1861.
Dz. G. H. EFFREN:—I take pleasure in making
this voluntary statement: in favor of a medicine prepared by you called "LINDSET'S BLOOD SEARCHER." roke out on my head and forehead so as to disfigure stroke out on my mean and took off the hair when the dis-case made its appearance; it also broke out on my arm above and below the elbow, and ent into the skin on my head went so far that several small pieces o cone came out. I was very weak and low spirite and had given up all hope of ever getting well, as I had tried several skillful physicians and they did me no good. In September last, 1861, I was induced to "LIBDERY'S IMPROVED BLOOD STARCHER!" must confess I had no faith in patent medicines, but after I had used three bottles of Blood Scarcher, the ulcors on my head and arm began to heal. I have now taken eight or ten bottles, and my head and arm are entirely well except the scars remaining from the sores. I will also state that I had the theumatism very bad in my arms and legs. The Blood Searches also cured the rheumatism. I am now a well man, over forty years of age, and I feel as suple and young as I did when I was twenty, and have increased is weight twenty pounds. I would also state that the disease in my forehead was so bad that when stooped and lifted anything heavy, the blood run on of the sore. Dr. Keyser had a photograph taken of me by Mr. Carge, the artist, after I began to get well. It does not show my appearance as had as it was before I commenced taking the medicina. You an see the photograph, one of which is now in my sion, and also at Dr. Keyser,s, 140 Wood stree would also state that I took the Blood Search ing it. Although it helped me some, I did not re-cover fast until I got the kind made by Dr. Reyser bimself. One bottle of his did ms more good than two of the old. I believe it is a great deal stronger and better. I have recommended the Blood Scarcher to a great many of my friends for va-100DS, of the latest style, just opened.
