Dr. G. H. KETTER—takes pleasure in making  
the following statement in favor of a medicine  
prepared by one called "WINDSEY'S BLOOD SEARCHER."  
I had suffered for five years with Scrofula, which  
broke out on my head and forehead as so many  
very much, and took of the hair about the dis-  
ease made its appearance; it also broke out on my  
arms above and below the elbow, and on this I had  
great difficulty to suppress a hard case. The dis-  
ease on my head was so bad that several months of  
treatment. I was very weak and low spirited,  
and had given up all hope of ever getting well, as  
I had tried several different physicians and they did no  
good. In September last, 1861, I was informed by  
"WINDSEY'S BLOOD SEARCHER" that I had the disease  
of my head and arms cured, and that I was to  
use it. I had used three bottles of Blood Searcher, and  
my head and arms were cured, and my hair grew  
again, and I was well and strong, and I had no  
return of the disease. I am now well and strong,  
and I feel as if I were a new man. I am now
