They follow to prove the any and every means, including the extinction of slavery, if necessary, to kill out the rebellion. They claim to represent the views of the men of the South who have persistingly perilled life and property in the cause of the Union, and who have been entirely stripped of the latter by the rebel army. They have lost their slaves, crops and stock, and their houses and lands have been confiscated by the rebel suthorities, and they contend that the only way in which the deluded people of the South can be reclaimed to their senses is by the application of the same policy toward all those who have taken an active part in the rebellion. If they are ever again to be made to respect the Government of the United States, they must be made to feel its power, and their property must in-some measure, at least, suffer for Lho losses of the past and insure the security of the future. Washington Items.

The Washington correspondent of the N Y. Commercial Bays:

The Senate may have some prolonged discussions over the confirmation of the officials to be appointed under the new tax law, and as they have the right to with-hold their "consent" from any appointment, they will virtually control them. This is not acceptable to many Representatives, who desire to have their friends appointed in their own districts. Hon. Fitz Henry Warren, who was Assistant Postmaster General under Mr. Fillmore, will probably ir Mr. Fillmore, will probably oner of Internal Revenue. Commissioner of Internal Revenue. Hon. W. H. Polk, Parson Brownlow and other Tennesseeans are here, some of them laring that emancipation may also soon be necessary.

THE MOVEMENTS OF BURNSIDE.-The N V. Evening Post save:

A part of McClellan's success will be controlled by the movements of Burnside, who, it is now generally known, has been ordered to support him by rapid movements from the South. Where he is it would not be proper to state if we could, but we may say without imprudence that the latest intelligence received from him merely asserted that he was marching as fast as be could in the right direction. Should this prove correct, we may at any moment hear of the arrival of Burnside, with his tried and veteran forces, at a place where his aid will be very effective.

DEATH OF COL. ELLET'S WIFE .- The Philadelphia Inquirer announces the death of Col. Ellet's wife as follows:

At eight o'clock last evening Mrs. El-vina Ellet, wife of the late Col. Ellet, died vina Ellet, wife of the late Col. Ellet, died as her residence in this city, in the forty-sixthiyear of her age. She was the daughter of the late Judge Daniel, of Virginia, and brother of the present Judge Daniel, on the same bench. She has had four children, all of whom are now living. She was present at the death of her husband, in Cairo, Illinois, and came to the city with his remains. Her death has resulted from the desease hairs, mainly from now a control of the control of the

SLIGHTLY MISTAKEN .- On the strength of a statement of the National Intelligencer, the London News makes this announcement as the authenticity of Gen. It was just at this time that a terrible ru-Brownlow, and all the Southern loyalists, denounce, in the most energetic terms,
the miserable policy of our commanders, in
general, in rebel property, and of the
policy of conciliation generally. Brownlow and Rousseau are earnest Union men,
and are willing to sacrifice slavery for the
sake of Union, while the poor, miserable
contemptible, hypocritical secesh-sympathisers in the Northern States, are denouncthisers in the Northern States, are denouncing as abolitionists every true Union man who will let nothing stand in the way of the complete everthrow of the rebellion.

Such an overthrow we must have, if we would have peace hereafter, and it is our opinion, that no enduring peace can be

Towards evening the priests came out in their rich robes, flashing with gold and purple, and with banners and Greek crosses marched through the streets, the choristers chanting the magnificent chorals of the Greek church. At night the church portices and the balls of the palaces were crowded with homeless people, who would have starved but for Government sid: During the night the Emperor came down from his country palace at Tsarkoe Selo and visited the frightened, weeping crowds, personally, assuring them of his care and protection. For three days the confiagration continued, and at latest dates was not yet entirely subdued. The property destroyed in the stores and dwellings (apart from the edifices themselves) is estimated in St. Petersburg at 15,000,000 of rubles. In some quarters this fearful fire is attributed to Polish incendiarism; and there are fears that it is not the last thecity gill suffer. The Gostinned Dvor, comprising the most important stores in the city, representing the local Gostinuoi Dvor, comprising the most impor-tant stores in the city, representing the local weath of St. Petersburg, is closed day and night, and extra watchers are placed in all the public buildings. All St. Petersburg is in an excitement such as it has not known for

many, many years.

Russia.—The intelligence from distant parts of the Empire announce that fires have broken out at Odessa, Malikoff and other large towns, apparently by preconcerted action of the reyolutionists. Revolutionary proclamations are circulated in great quantities, especially in the southern "governments," as the different districts of Russia are called. One of these proclamations, diffused among the troops, urges a-rising against despotism; another demands a, constitution; a third agitates the Polish question.

The Emperor has ordered the formation of many, many years.

The Emperor has ordered the formation of The Emperor has ordered the formation of a special committee to investigate the extent of the losses caused by the fires, to take the most effective special measures to ensure the security of the capital, and to make collections for the relief of the sufferent. To this committee most of the high officers of the government are delegated. The city of St. Petersburg will, for a time, be divided into three military districts, corresponding; to the division into three police districts, in order that the measures of the committee may be more stietly superintended. All who are found in possession of inflammable materials, or who have caused themselves to be suspected of inhave caused themselves to be suspected of incendiarism, as well as all who cause disturbances, are to be brought before a court-martial, and sentenced within twenty-four hours.

What was Known, and What was The Washington correspondent of the New York Evening Post says:

The private secretary of Governor Morton, of Indiana, arrived here last hight from Fredericksburg. He says that it, was known there early in the week (last week) that Jackson was on the march for Richmond. His whole force passed through Gordonsville on Monday, or even earlier than that. Our troops remaining at Fredericksburg, or rather this side of the Rappahannock, at that point; were in splendid condition, and panting to join in the great coatest with the rebels. They have been lying idle for six weeks. It is quite probable that they will soon have an opportunity, for the War Department has already intimated that reinforcements will be sent rapidly to McClellan.

CASE OF DANIEL A. BOYD.

HAVING THEIR ORIGIN IN A DEPRAVED CONDITION OF THE BLOOD OR CIRCULA.

Dr. G. H. KETSER:—I take pleasure in making als voluntary statement in favor of a medicine prepared by you called "Lindsky's Blood Skarcher." had suffered for five years with Scrofuls, which oke out on my head and forehead so as to disfigure me very mush, and took off the hair when the dis-ease made its appearance; it also broke out on my arm above and below the elbow, and eat into the akia and ficab so as to expose a fearful sure. The disease on my head went so far that several small pieces o sone came out. I was very weak and low spirited

and had given up all hope of ever getting well, as I and tried several skillful physicians and they did me non seren several samuli physicians and they did no good. In September last, 1861, I was induce try "Lindser's Inproved Blood Seauchers." must confess I had no faith in patent medicines, but after I had used three bottles of Blood Searcher, the ulcers on my head and arm began to heal. I have now taken sighter ten bottles, and my head and arm entirely well except the scars remaining from the pres. I will also state that I had the rheumatism ery bad in my arms and legs. The Blood Searcher very had in, imy arms and legs. The Blood Searcher, also cured the rheumatism. I am now a well man, over forty years of age, and I see as suple and young as I did when I was twenty, and have increased in weight twenty pounds. I would also state that the disease in my forehead was so bad that when stooped and lifted anything heavy, the blood run out of the sorm.
