I suppose there is no gitt which would be more valuable or welcome in the army to day than a ship load of onions and potatoes. The Association appeals arous to the people in view of the fact that it has now, with the concurrence of the Secretary of War and the consent of the Commander in Chief, its agents in the army, continually distributing its gifts, which are sent free of expense on government vessels from this city. North shall have written her motto upon derbanner.

As to the general question of abolition, I am at rest. Whatever may be the measure adopted, the social transformation will ran its course. I have always found it impossible to feel any anxiety on the subject of slavery. Since the election of Mr. Lincoin I know that it has received its death blow, and I am not of those who believe the cause lost because man hesitate or postpone it overmuch. One thing is ovident—the word Union formerly signified falayery," it now means "liberty."
