SCHOYER, COMMISSION MERCHANT, We hope our authorities, in negatiating for an exchange of prisoners, will make the invaders account for at least a portion of the "contrabands" they have stolen, though in making up their relative value it should appear that one nigger was equal to two Yankees.

[From the Bichmond Whig]
The dogs ought to be exterminated. They consume twice as much as would support all the Yankee prisoners we have confined here. It is true that many of our learned friends who desight in descanting upon the characteristics of races supict prove that our doys are superior to Yankees. But if this be established, and their theory practically carried outcess to the saterifice of prisoners, there would still be good reason for destroying the dogs. It would leave more for our people.
