Vicksburg, July 25.—A gentleman recently from the Yazoo River country, reports that it he steamer Star of the West, captured off Galvaston by the rebels, is up that river, and armed with 22 guns. She is iron plated to a considerable extent.

The J. L. Webb, a powerful ocean towboat, is also up that river, and has been plated something in the style of the Sunter. She is constructed as a ram.

They have also the tug Mobile, mounting one gun.

The Star of the West and the Webb came up from New Orleans, when that city was captured, bringing, among other recel plunder, 108 guns.

At Liverpool, sixty-five miles up the river, the rebuls have an ingeniously contrived raft, which is a perfect look against ascending boats. They also have a battery on shore at that point.
