WEDNESDAY MORNING, AUG. 13. provisions, we publish to-day, in full, on other day:

A call for a meeting of this important Convention appears in our columns to-day. It is later in assembling than usual this year, but will lose nothing of its interest on that account. Very important offices are to be filled, and we trust the whole mass of Republican voters will attend the primary meetings, and express their wishes

ratism would be a mere proconsulate of Napoleon; Bourbonism, prison, persecution, death! The Pope King or the King Pope is the negation of Italy. The government is not strong enough to throw off the yoke of France. The people must urge it with their masses and their energy. Let us place sharp weapons in the scale against diplomacy, and diplomacy will respect our rights, and we shall have Romeand Venice. The people must urge it with their masses and their energy. Let us place sharp weapons in the scale against diplomacy, and diplomacy will respect our rights, and we shall have Romeand Venice. We shall go to Rome, but with arms in our hands, as we crossed the Tioino, beat the Austrians, as we landed Marsala, as we have the matter in this county, provided that volunteers will be accepted for the quota of solteers will be accepted for the quota of soldiers required.

There seems to be a hitch in the matter, and no assurance can be obtained from the Governor that we will be exempt from drafting, after we have exhausted all our surplus population by promoting volunteering by offering liberal bounties.

It is the duty of both State and National Governments to see that no injustice is done to any portion of our citizens, in this important question of serving the country by enlisting to put down the rebellion. All the citizens of the State should equally bear the burdens in preportion to their wealth and numbers.

While the country depended upon volunspirited citizens would bear under that systam the burdens of those who shirked responsibility, but under the system of drafting this can be equalized, and Gov. CURTIN, as a just Chief Magistrate, should see to i

some equitable way. There is another matter which concerns us in this county. There are a numder of companies enlisting here, for Gen. Signi's corps, under the permission of the War Department, and we understand that these those men had not been recruited here. If we go on in this way, we shall furnish far more than our share of men for the war and shall so greatly diminish our ablobodied population, as to embarrass every sermon :

INEASCEMENTS FOR DRAFFING IN INDIANA.

The Enrollment Commissioners of the various counties of the State are required, and provided with the proper papers, to make two lists for every township of the occurry. Ist, of all the able bodied men hisble to do military duty; and 2d; of all the volunteers furnished by the township, who are either in serviceon have been duly discharged. These lists are made out and anthenticated by oath, and filed with the County Auditor, who furnishes a copy to the Adjutant General. When the enrollment is completed, the Adjutant assigns the States quota of 300,000 drafted men among the counties, with orders to the Commissioners to apportion to the failure to furnish tolunteers—that is, the township which, by the list of volunteers returned has furnished the fewest volunteers; will have to furnish the most drafted men.

This eminently equitable arrangement is, so far as we know, confined to this State. Governor Morton is the only Governor who has adopted it. Its operation in forcing out reductant or unpatriotic townships, instead of burdening those already liberal in volunteering with the load of a heavy draft besides, can be seen at a glance. If Marion county, for instance, should be required to raise 800 men by draft, and the

The important question of the day is not this or that form of government. When in 1848 I, and my comrades quitted t America, we had no other desire than to serve our country. We were resolved not to care about the form of government. We were readyed to have a country. That was By the system of drafting, as laid down by the Orders from the, War Department, officers will have to be appointed in every ward and township, to enroll men who are liable to military duty.
