James Hamill won the three mile mace, beat-ing Ward, the "champion of Amorica," easily. Time-twenty-two minutes and twenty-two sec-onds. There is great excitement here in con-sequence of this result. BERNARD KENNEDY.

BERNARD KENNEDT. Great as the excitement must have been in Philadelphia, it was scarcely less here among our boating men, andiadeed among all classes of citizons, as the desire was everywhere ex-pressed that victory should crown our young though modest and unassuming champion. At first it was scarcely believed possible that, a western carsman, whose exploits had been confined almost solely to the observe water onfined almost sololy to the obscure waters of the Ohio, should be able to cope auccessful-ly with the long vanted champion of the great metropolis; but "muscle will tell," and great metropolis; but "muscle will tell," and Ward finds in Hamill an opponent worthy b his mettle. The incree mile race has been decided in fa-vor of the "western champion," and if Ward wishes to retain his laurels as "champion of America," he will have to pull to day is he has never pulled before. We believe that Hamilt will "stay with him " in the five mile" race, if he does not actually "leave him in his wake." His endurance is equal, if not superior to Ward"s, and now, alcoe he has led him handsomely in the short pull, his friends confidently expect that he will have a côm-plete and easy viotory to day. We learn that a large sum of money willy change hands here on the result. Hamilt's friends were confident's and their officer where very freely accepted by the "charpe," who expected to make a handsome thing of it. Botting to day will of course change in favor of Hamilh, but the "sharps," under the im-pression that Ward is only playing for a "blgger thing," will doubliess take most of the bate offered. Of course, we advise no one to risk a dollar on the issue. [Second Dispatch.] is mettle. The three mile race has been decided in fa-
