Important from Washington.

Washington, Sept. 16.—A student order has been issued, enforcing, as an absolute necessity, the removal of the baggage trains of the troops in the field. Officers will have to be allowed to carry only their ordinary most chest and valises or carpet-bags. No trunks or boxes will be permitted in baggage trains. Private baggage is to be carried in carriages, and boxes in their regular wagons. These things heretofore will be rejected from the wagon and cars, wherever found. A stop also is to be put to the carrying of rations in wagons and quartermaster's wagons, under the guise of quartermaster and commissary stores. This, it is supposed, will reduce the train to a minimum.

Washington, Sept. 16.—Orders for the return of stamps may be sent to the Commissioner of Internal Revenue, or to any other person. It is believed that every stamp now in circulation is to be used only for the purpose for which it was designed. An example is a contract stamp, which may be used for contracts, checks, stock certificates, and other documents.
