The Western Theological Seminary and Dr. Plomer. A reporter for the Gazette attended the eting of the Board of Directors of the Western Theological Seminary, yesterday afternoon, for the purpose of furnishing with any items that might be of interest to the public; but as the Board converted itself nto a curia camera stellatas, or, in plain English, a "Star Chamber," he was very pelitely, on with some half dozen of other repectable oldisons, ejected from the meeting. The closing of the doors against the publi does not prevent us, however, from giving a report of the proceedings. The following

urnished by one of the Directors: The Roard of Directors of the Western Theological Seminary met at 2 p. m. yesterday, and was called to order by appointing Dr. MoRearin, of the Presbytery of Blairs-ville, to the Chair, in the absence of Dr. Swift, who is confined by illness away from home.

The meeting was opened with prayer by Dr. Alexander, of Ohio.

The call for the meeting was read, when Dr. Plumer, who was present, rose and read his rerignation, as follows, and then retired: To the Board of Directors of the Western Theo

To the Board of Directors of the Wostern Theological Seminory:

Fathers and Brethren: I hereby resign my professorship in this institution.

Litake this step not because I do not love my work here. On the contrary, it is traly places in the mean of the seministered, and my health is suffering from cruel salumnies, which I have borne as eliently and as patiently as I could, and from the line of conduct pursued towards me by some of the Directors, and approved, as I fear, by others of your members.

I am aware that the plan of the Seminary requires that any Professor intending to resign his office shall give six months notice of such intention to the Board of Directors, but the Board can waive their right to such notice.

Very respectfully, yours,

WILLIAM S. PLUMES.

A motion was made by Dr. Marshall, soconded by Alexander Cameron, to socopt the resignation fendered. This motion was long and earnestly debated.

Dr. McAboy opened by remarking that it might be expected that some one who had signed the call for the meeting, should give some expression of the reasons for so doing. This is an extraordinary case. The times are extraordinary, beyond all former periods. The interests of our country and our religion become blended together as we are made to feel more and more the extremity of our case, and that our hope and help is in the great God of the nations and the Redeemer of his people. This institution and its interests are, in a most peculiar sense, the common property of the church. Over it we are set by the highest authority of the church to watch. tigned the call for

It is and has been a matter of deep anxiety, the public record of Dr. Plumer as souching the annual crisis.

Many persons living in this vicinity have said to me that it was due to the church and said to me that it was due to the church and the country that this meeting should be call-ed; painful as was the duy I could not shrink. The directors are here, and the mat-ter is now before them, to do as in their judg-ment shall be for God's glory and the good of

ment shall be for God's glory and the good of His church.

Mr. Gallowsy's style of elequence is of the school of Hon. Thus. Corwin, who speaks with the features of his whole countenance with the seatures of his whole countenance as well as with the tongue. Dr. Howard excelled himself, in a warm and earnest appeal for a true loyalty and an elevated patriotism.
