The Haney Homicide. Stonewall Jackson's Whereabouts At two o'clock Monday afternoon, the trial The Wheeling Intelligencer, of yesterday, f the case of Rudolph Well, indicted for the says: "We have the best reason for believ nurder of Charles Hanoy, was resumed. The ing that the apprehension of a raid by Stone-ollowing jury was empanneled: wall Jackson on Cumberland and New Creek is without real foundation. A highly intelis without real foundation. A highly intelligent gentieman, with overy facility for obtaining correct information, and who made it a part of his business to do so, has just come through from Baltimore to Hancock. He has satisfied himself from evidences obtained along the route, that Jackson's main army is stationed at Stephenson's Depot, four miles Stationed at Stephenson's Depot, four miles of the N. E. of Winchester and Potomac Rajiroad. His men are destitute of tents, and it is believed he cannot possibly, in their present situation, even entertain such an enterprise as the movement apprehended. He certainly could not perform it unless the weather should remain remarkably mild, and would hardly risk such a contingency." Wm. Thompson, Allegh'y; F. Wilson, Penn.
Mr. Smith opened the case for the prosecution, defining the grades of homicide, and reciting the main facts in the case.
Coroner McClung testified to having held an inquest on the body of the deceased, on Sunday, Sept. 7th. His skull was fractured on the left side, near the top of the head.
Dr. W. W. Denny, of South Pittsburgh, was called to see deceased on the morning of the 7th; found him in a comatose state, caused by compression on the brain; the skull was fractured, near the top of the head; the fracture was round in shape, and an inch the fracture was round in shape, and an inch or an inch and a half in diameter; this frac-SPECIAL NOTICES. ture caused death.

Dr. McCook examined the brain, after death, and found that a very important blood vessel had been severed, the result of which would be certain death. GROVER AND BARRE'S SEWING MACHINE, fo best in use A. F. CHATONT, General Agent, No. 18, Fifth street. would be certain death.

Two pistol barrels, united, the same which were wrenched from the stock, in the struggle between Weil and the deceased, were shown. Both dectors believed that the wound could have been made by the pistol barrels—the cocks coming first in contact with the skull. George Chivers testified that the deceased was in his amplies. Passing up the street, on Saturday, o attention was attracted by the grand display of Furs at J. Finch's, corner of Grant and Fifth streets. Mr. Finch has just returned from Philadelphia and New York with one of the largest stocks of furs ever brought to this city. Sables, stone-martins, fitchs, rockmartins, and indeed every kind of furs manufactured, may be seen at his store in the greatest abundance, and what is of as much importance as the assortment to be seen in his store are the extremely low prices at which this splendid stock is being disposed of. At the prices Mr. Finch sells his goods, we do not see how be can make any profit. The secret, we suppose, lies in his purchasing altocher, and selling on the same terms: Any of our readers who wish a good set of furs, no matter of what description, should give Mr. Finch a call before purchasing. We feel confident if they once enter his store they will not leave without a bargain. attention was attracted by the grand display Court adjourned until nine o'clock Tuesday THE CONTINUNTAL MONTHLY, FOR DECEN-

Da. G. H. KETERE:—I take pleasure 12 making his voluntary statement in favor of a medicine prebroke out on my head and forelead so as to disfigur arm above and below the elbow, and cat into the ch and fineh so as to expose a fearful sore. The different bone came out. I was very weak and low spirited and had given up all hope of ever getting well, had tried several skillful physicians and they skill me no good. In September last, 1861, I was induced to try "Limbery's Impactor Bloom Seaschest" Nones,
Billous Disorders—Liver complaints.

From Dr. Theodors Bell, of New York City.
Not only are your l'ills admirably adapted to their purpose as an experience in the practice proved more effectual for the cure of the procession and practice proved more effectual for the cure of the complaints than any one remedy I can mention. It is theorety rejoice that we have at length a purpositive which is worthy the confidence of the procession and the people.

Department of the Interest, Star I have used your Pills In my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathertic everying. Their regulating action on the liver is quick and decided, consequently they are an admirable remody for detangements of that organ. Indeed, I have selden found a case of biliose shears so obtinate that it did found a case of biliose shears so obtinate that it did found a case of biliose shears so obtinate that it did with the solution of the sort of

DYSENTERY, DIABRAGA, BELAX, WOBMS, From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in estoem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small fooces for billions digensizely and diarrhaga. Their sugar-coating makes them very acceptable and corrected for the use of women and children.

From Mrs. E. Buart, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the section of two large doses of your Pills, taken at the proper time, are excellent promotives of the section and secretion when wholly or partially suppressed, and also very official to cleanes the storact and experience of the sections. They are so much the best physic we have the storact. They are so much the best physic we have the storact. A BAD SORE LEG CURED.

hat I have had a sore leg for over a year. It --covered with ulcers and sores so that I could be work for nearly a year. My log swelled so that, I was trable to do anything for, a - ng time, for at itself six months. I tried several of the best declars in the city, but without any benefit; finally I called on i'r Keyser, at No. 149 Wood street who only atlanded cine and I am now entirely well and have continued well for six months. I am employed at the Eagle Engine House, on Fourth street, where any one can see me. THOMAS FARRELL.
