Pittsburgh Gazette.

WEDNESDAY MORNING, NOV. 19.

has been made through these columns, as being sadly in need of supplies, now contains about five hundred patients, two hundred and one of whom are Pennsylvanians. Smoketown is a hamlet of six or soven small log houses in Washington county, Md., about ten miles south of Hagerstown and three miles north of Sharpsburg. It is one mile east of the turnpike road leading from Hagerstown to Sharpsburg. It is easiest reached from Pennsylvania via Hagerstown, whence hacks run daily to Sharpsburg. Smoketown and the battle-field.

The majority of the patients bero have been wounded, but many of them are sick. Up to the 6th inst., there had been about one hundred and sixty amputations, and one hundred and twenty-five deaths. Of those who died, the following were Pennsylvanianu: Wm. H. Freadshutg, Illth; Mores Sherman, 28th; — McCallom, 24 j. D. B. McCormiok, 19th; Jasob Rice, 106th; Geo. Hopkins, 1322; Bowen, 126th; Wm. Rhodes, 233; O. Sherwood, 1324; P. Rothermeel, 1324; G. G. erauld, 1324; F. Rothermeel, 1324; Wm. Martin, 136th.

A correspondent writes as follows:

"There are some noble mer-and women here who are doing all they can for them with their limited means; but there is much suffering for want want of even the necessaries of life. Many of them are very destitute of clothing—there is perhaps no great lack of blankers; but few of the tents are supplied with bedsteads or cots. The most of them are lying in tents, on mattresses placed upon the large and the vidence, are a sum enble mer-and women here who have no upper garments, or only summer clothing. Some, when convalenced, have been unable to go oul on this account; others' the controller had the part of the barries and the vidence before the jury and the vidence before the jury and the vidence before the law and found that both barrels were loaded.

slightly elevated on boards. Some of the men have no upper garmonts, or only summer clothing. Some, when convalescent, have been unable to go out on this account; others may be seen going about in their drawers, having no pantaloons. It is to be hoped, however, that the government will soon be able to supply this lack. But many of them are without suitable undercothing, or without however, that the government will soon be able to supply this lack. But many of them are without suitable underelothing, or without a change of them. And those who have suitable shirts and drawers are afraid to put them off and let them go to wash for fear they will never see them again. A man who has worn a woolen shirt for some time may be compelled to put up with a musiin one the next. Lot me appeal to the wives, mothers, sisters and neighbors of these men throughout the State to send on to them, immediately, or a evon as possible, the needed supplies. The most of these men have been shedding their blood for their country. Let them not feel that they are forgotton or neglected when suffering from wounds and sickness.

"I received from an excellent lady, Mrs. Husbands, of Philadelphia, who is laboring day and night in the fever ward of the hospitally and the fever ward of the hospitally and the company. They have also declared a cash dividend of forty per cent. on the carned premiums. They have also declared a scrip dividend of forty per cent. on the serie of the company.

This was made necessary by stood by the fence till every thing was burn off, and herself literally baked to a cinder. the fact that certain directors have been extriot Institutes. Some of the directors, it is also alleged, go so far as to insist oh opening the schools on Saturday, which is a practical ignoring of the law in regard to District Institutes. Secretary Burrowes requests all County Superintendents to notify his depattment where the school time is thus insisted upon, and where also the District Institutes ment where the school time is thus insisted upon, and where also the District Institutes are thereby neglected. If the teacher is not afforded time to improve his own mind, he cannot be expected to improve the minds of those placed in his charge. To use a homely comparison, the journeyman who works with edged tools might as well be debarred of the time to keep those tools in order, and then time to keep the tools tools in Green, as, and then

teacher could be expected to be successful,
without the aid and improvement derived
from his District Institute.

The Saits Against the County. In the United States Court, on Tuesday, G Hamilton, Eeq., on behalt of the bondholders, andeavored to procure an order from Court to restrain the County Commissioners from issuing warrants, penuing a decision on from issuing warrants, penning a decision on the rule to show cause why attachments should not issue against them for contempt, which was argued before Judge Grier on Saturday. An informat discussion followed Mr. H.'s application, during which Judge Grier intimated that no decision would be rendered in the matter before the next term, and, in the meantime, the Court would have an opportunity of observing how far the Commissioners were sincere in their efforts to meet the claims pending against the county. Mr. Hamilton's application was refused.

An EDITOR RETRACTS A LIBEL.—Jos. S. M. Young, editor of the Eric Dispatch, prosecuted for libel by M. B. Lowry, has get out of the scrape by "acknowleding the corn," and paying the costs. Mr. Young, in his amende, says: "The articles in the Eric City Dispatch, upon which the Grand Jury found bills of indictiment, and all other dolamatory articles and charges made in the newspaper of defendant, against the character of the prosecutor, were unjust and improper." The prosecutor adds: "I can ask no more!"

A MONKEY SHINE .- A few evenings since, Dan Rice's big monkey escaped unseen from his confinement, at Gurard, Eric county, and started up street in quest of adventure. He stopped at Dr. Ely's residence, which he took constant of immediately, driving the family on of immediately, driving the family possession of immediately, driving the lamily out and causing considerable consternation. A babe lying in the cradio was badly bitten in the foot, and Mrs. Ely was also bitten in the band. When the dector arrived, he found

A CHARCE TO DO GOOD.—As the demand for hospital garments for the sick and wounded of our army is very great, we call the attention of our lady readers to the fact that the rooms of the Subsistence Committee, at City Hall, are open on Wednesday afternoon, from 3 to 5 o'clock, where any person willing to make such articles as are needed, can obtain material already cut out. We think a mere notice of the fact will insure a large attendance of ladies this afternoon.

Other witnesses were examined, and the prisoner proved a good character for peace, after which the testimony for the defense was closed.

C. B. M. Smith, Esq., on behalf of the prosecution, made the opening speech. He did not urge conviction of murder in the first degree, but argued that the prisoners, under the law and the evidence, was guilty of murder in the second degree, or manslaughter. It would be for the jury, under the charge of the Court, to fax the grade of the offense—but in no case could they acquit the defendant.

Mr. Bailey and Mr. Marshall will follow for the defense, alter which the District Attorney will close for the prosecution.

A verdict will probably be rendered to-day.

Your Pills have had a long trial in my practice, and I hold them in exterm as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doese for billous dynatery and diarrace. Their sugar-conting makes them very acceptable and convenient for the use of women and children. From Mrs. E. Shart, Physicias and Midwife, Boston. I nadpose or two large doese of your Pills, taken at the proper time, are excellent promotives of the satural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and ergodients of the satural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and ergodients. They are so much the best physic we have that I recommend no other to my patients.

I was very weak and low spirited and had given up all hope of ever getting well, had tried several skillful physicians and they did no good. In September lest, 1861, I was induced to try "Linuxery's larno up BLOOD SEARCHERS." nust confess I had no faire in patent medicines, but after I had used three bottles of Blood Searcher, the are entirely well except the scare remaining from the sores. I will also state that I had the rhaumation weight twenty pounds. I wend also state that the disease in my forehead was so bad that when he stooped and lifted anything heavy, the blood run ont of the sore. Dr. Keyser had a photograph taken or was before I commenced taking the medicine. Lou can see the photograph, one of which is now in tay and also at Dr. Keyser s. 140 Wood strett ing it. Although it helped me some, I did not re-cever fast until I got the kind made by Dr. Keyset himself. One bottle of his did me more good than two of the old. I believe it is a great deal stronger may publish this if you wish, and I am anxious this

He told me that i need not go to Philadelphia to get well, as he had medicine that would cure me, as he said my disc to was in the blood. I was treated for it two or tures times in the hospital in this city, and was relieved, but my disease always returned after a month or two
after I came out of the hospital. I found my disease was returning and I called, by the advice on a good friend of mine, on Dr. Keyser, who mas revised ex my sight, and my eyes are nearly as well as ever.
The Doctor gave me "Lindsey's Blood Searcher" and a wash. DAVID KINNOLLY,
