Hospital Supplies Wanted. We have been informed that the funds of the Subsistance Committee are very low, owing to the demands that have been made on them for hospital supplies, from both East and South. From Naskville they have recelved a request to forward anything in the way of slothing or estables they might have way or siching or estables they might have on hand, as they were in great need. Some days they had in the hospitals only bread and meat, and could not get any thing else for the sick and convalencent to est. From St. Louis they write; "Send anything that can make the men comfortable, and they will be acceptable."

Now, in view of the increased demand there will be on the Committee for supplies, we hope our citizens will at once replenish the treasury.
