"What the law requires in order to justify such an act is written in the Constitution, Art. 4 of the Amendment: 'The right of the peeple to be secare in their persons, houses, papers and effects against unreasonable searches and seisures, shall not be violated, and no warrant shall issue but upon probable cause, supported by eath or affirmation, and particularly describing the place to be searched, and the person or things to be saized.' A similar law is written in all our State Constitutions, and it is simply the written expression of the unwritten or caustomary law of the people, known to everybody, descended through a long line of ancestry and of popular disturbances, and recognised by everybody in times when a quies reason holds the control of the passions.

"Another law is to be connected with this one, in order that it may be seen hey such power in the courts established by law, and requires that no man shall be deprived of life, liberty or property, except by due process of law. This makes the courts the only authority whence any process can issue for the trial of rights or wrongs. Warrants properly issued by them are a shield to the officer who executes tham. Warrants issued by others have no farther authority than is contained in the emergency—untify the act, they justify

have no farther authority than is contained in the emergency on which they are founded. If the circumstances—the pressing nature of the circumstances—the pressing nature of the emergency—justify the sot, they justify the warrant, but not otherwise. It is not usual to call such orders warrants, and they are not properly so called. They are emergly orders of a superier to a subordinate officer to do a special duty which usually he ought to do without such order."

"There is nothing in the act of Congress of the 6th of August, 1881, that justifies it. It requires the President, in certain cases, to cause certain property to be seized, confiscated, and condemned; but this means by due process of law. It is not to be done by the President himself, but by due process of law by the proper functionaries, and he is to see that they do their duty. These defendants undertook te do this set without warrant and without any proper occasion shown to us, and therefore they are mere trespassers. They are trespassers from the beginning to the end; and the first step in the matter being unjustified, no subsequent and uncuccossful proceeding under the act of 1851 can shelter them from lability for compensation."

> Dispatch to the Pittsburgh Ga WASHINGTON, Feb. 6, 1863. CONGERSSIONAL.
> The Illinois, New York and Eric ship canal came up to day contrary to previous in-tentions. It was opened to debate, when Vorhees and others led off into discussion of the interests the Nerthwest has in the Union. In reply to one of the customary remarks about the trade of the Northwest following the Mississippi river, Mr. Dawes brought out the fact that forty-nine-fiftiethe of all the produce of the Northwest, even Special Dispatch to the Pittaburgh Gazette. when the Mississippi was open, came east while only one-fiftieth sought an outlet by the Mississippi. The friends of the canal hope to bring on a vote by to-morrow even-ing at the farthest. They express no doubts

of the result. John D. Defrees, Superintendent of the Government printing house, expresses the opinion that the abolition of the paper duty would save a hundred thousand dellars in his whole receipts from duties on all kinds of paper, writing as well as printing, at less than fifty thousand deliars. Thus, for the sake of securing this income of less than fifty thousand dollars, the Government is submitting to an extra expense in its own printing of one hundred thousand dollars. The Ways and Means Committee say that their principal of jection to repealing the duty is, that it is setting a bad procedent, and that a hundred other interests will be coming in at once and

claiming similar legislation. REWS ITEMS. Senator Wilson has resolved a large number of applications from officers desiring commissions in negro regiments and brigades. He thinks that a negro army, one hundred thousand strong, could easily be officered by inconsistent with this act are repealed. white men on less than a month's notice. It has just been ascertained that the first news of the New Year's Proclamation of wealth was lost. Freedom was brought to New Orleans, by colored Unionists, from Port Hudson.

Private advices from the Missouri Legislaare indicate that Grats Brown will prove successful for Senator.

The advices from Vicksburg are not encouraging. Grant's canal makes very slow progross in changing the channel of the Mississippi, and the troops are placed in swampy and unhealthy positions, with considerab ickness as the result.
