We have heard ladies say, when asked why they were so eager to purchase at this early stage of the season, that they have the money, and they prefer making their purchases now, to running the risk of having to pay an advance of 50 per cent. one month hence. And they are right, no doubt, for we are assured by first-clars and thority that the advance will be greater than the people, that is the "shoppers," suppose.

The guard should be protected in the legitimate use of their authority, and from a personal knowledge of the character of the Provot Marshal we know they will be defended in their right;, but we also know that he would be among the very first to rebute and punish any act of unpreceding violence or wanton cruelty. We give the statement as detailed to us, and leave the Provest Marshal to investigate the matter.

Howen Drills have advanced to STACE, and are existed at that price. Gotton Jeans, Finansia, Dentima, stripes and Ticks are gunerally higher. In Print Cloths a further considerable advance has taken place, and in Providence large sales have been made at an improvement of 2620 on the atternen figures of last week. Prints are tending upward from day to day, and now range full 20 higher than noticed in our test. Leading styles go off so quickly at the advance and stocks have become so light, that we look for still higher prices the coming week. Lawns, Ginghams and Delains are also quite firm and selling at improved prices. Specie Movements at New York.
