This battle (Antietam) has been the most sangui nary of the war, and the only one fought with visible design and upon military principles. The arrang ment of our corps—the overlooking position of the commanding General—the sending into action the right and the left divisions—the closing up of the centre, and final success—excites bewildering admiration, and carries the mind to the great fields of usterlits and Wagram, fought by Napolson. Of all his have I spoken. The heart history of such a cont, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories but it has its ten thousand demons in these human tortures, that make the eye-balls sche the heart bleed—the lips palsy, and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmness—while the dissevered limbs and maniao brain of others give rise to sounds God grant I may

Dran Siz.—In reply to your communication, offer-ing, as "Hifty thousand dollars for the recips and right to make the Plantation Bitters for your hospi-tal purposes during the way." right to make the Flantation Bitters for your hospi-tal purposes during the war," we beg to say, your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revisual from the fact that otherwise we can derive no revenue from the Southern States; but sir, our duties to our Government, and our ideas of commis-

duties to our dovernment, and our ideas of consistency, would not allow us to entertain it, although it might please us to assuage the sufferings of your misguided followers: We remain,
