WEDNESDAY MORNING, MARCH 4.

LOCAL INTELLIGENCE.

From Yesterday's Evening Gazette.

Burglary on Wood Street.

On Monday night the boot and shoe store of Messrs. George Aldree, Son & Co., corner of Wood and Fourth streets, was burglariously entered and robbed of $26 in money, and two or three pairs of boots. Between two and three o'clock in the morning, the watchman discovered the Fourth street door standing partly open, when he entered and lit the gas. Mr. Aldree was soon after discovered that the store had been entered from the roof through a trap door. All the drawers had been thoroughly ransacked for money, and the key of the safe was broken in trying to open it. The thieves were evidently boys, as an old pair of boy's shoes were left behind, the owner having supplied himself with new boots. It is supposed that two other pairs of boots were taken, but the scamps were evidently not prepared to carry away any amount of plunder, and perhaps did nothing more than supply themselves with what they needed. One pair of boots was cut across the instep, and indicated from the number of boxes overhauled, it is evident they had considerable difficulty in getting what suited them. The money which they secured, was taken from a drawer in the desk. It is supposed that they must have spent an hour and a half or two hours, in the store. They evidently gained access to the roof by ascending through a vacant house on Fourth street, and passing along from roof to roof, until they reached the corner. The police have been notified of the robbery, and are on the look out.

More Cures by Dr. Jones.

Success still continues to crown the efforts of Dr. J. A. Jones, of New York, who can be consulted, for some time yet, at the Monongahela House. The following are recent cures effected by him:

William Price, of Washington, Pa., who had been deaf for twelve years, caused by exposure, placed himself under treatment four weeks ago, and now reports himself perfectly cured. This was a purely medical case, requiring no operation.

Capt. Wm. Evans, Gibson street, Eighth ward, had been hard of hearing for many years—with noise and confusion in the head. He is now entirely cured.

James Heifer, of Kittanning, Armstrong county, afflicted with ozena (fetid ulcer of the nostril) for twenty years, was perfectly cured in five weeks. This patient had lost the sense of smell, and the nasal bone had been partially eaten away. The disease was also of a most offensive character.

Since Dr. Jones visited this city, he has cured thirty cases of cross-eye, and performed many successful operations upon the eye and the ear. He attends to all kinds of surgical and medical cases, and charges nothing for consultation. Office hours from 9 a. m. till 9 p. m.

Death from Apoplexy.

A distressing case of death from apoplexy occurred in Mifflin township, on Saturday last. A soldier named Frank Shoff, who had been in the service nearly two years, but who had lately been discharged on account of his being afflicted with apoplectic fits, started out with his brother-in-law, on Saturday, to cut timber for an ox which had strayed away. On the way, he complained of feeling unwell, and his brother-in-law advised him to return to the house. He started back, but was not again seen until Sunday, when he was found lying on his face dead. He had fallen a short distance on the way, and his face being buried in the mud, he had evidently suffocated. The deceased was about forty years of age, and leaves two children. His wife died some time after he entered the army. Coroner M'Cleary held an inquest on Monday, and the jury found a verdict in accordance with the facts.

Killed in a Coal Pit.

On Monday morning, a young man named John J. Stewart, residing with his parents in Scott township, went to work in the pit of Robert Lee, for the purpose of digging coal for Lee's fire. Not coming out for dinner, a messenger was sent for him, and on entering the pit the young man was found dead, with a mass of slate, weighing perhaps a ton, lying partly across his breast. The chest was terribly crushed, and death must have ensued very speedily. The deceased was only nineteen years of age, and had just commenced to work for himself. Coroner M'Clung held an inquest, and the jury found a verdict of accidental death.

House Burned.—Children Injured.

On the 18th ult., a serious accident occurred in Perry township, Clarion county. The dwelling house of Mr. Ira Scott, with all its contents, was burned to the ground, the inmates barely escaped with their lives. Mr. John Smith, step-son of Mr. Scott, occupied a part of the house in which the fire originated. The accident was caused by filling a lamp with crude oil, which, coming in contact with the flame of the lamp, exploded the can, scattering the burning fluid in every direction, setting fire to the house and severely burning Mr. Smith's oldest boy, aged five years, and slightly burning his little daughter.

PROMOTION—PRESENTATION.—The friends of Co. K, 78th Pennsylvania Regiment, will be pleased to learn that the vacancy caused by the death of Lieut. M. J. Halstead, from wounds received in the battle of Murfreesboro, has been filled by the promotion of the Second Sergeant, E. M. Smith. The members of the company, to show their kind regard and esteem, presented him with a fine sword, sash, etc. Dr. W. P. England made the presentation speech, which was happily responded to by Lieut. Smith.

MONONGAHELA BRIDGE.—An election for Managers and Officers of the Company for erecting a bridge over the Monongahela opposite to the bridge over the Allegheny river, was held at the toll house, on Monday, at two o'clock, p. m. The following Monday at two o'clock, p. m. The following are the newly elected Managers, viz: Messrs. Wm. Wilkins, Robt. Bell, Thos. Bakewell, Wm. Whitley, Robt. Bell, Thos. Bakewell, Wm. Whitley, James W. Baxter, Samuel W. Clark, Daniel Davis, Wm. Holmes, G. Hufnagle, Jas. P. Hanna, R. Miller, Jr., James M'Ajoy, Wm. Morrison.

BIRMINGHAM AND ELIZABETH TURNPIKE ROAD.—An election took place at Brawdy's Hotel, Birmingham, on Monday afternoon, for Managers and officers for the ensuing year for the Birmingham and Elizabeth Turnpike Road, the result of which was the following: First President—Robert Wilcox; Secretary—Peter Patterson; Treasurer—John S. Wilcox; Managers—David Calhoun, Wm. Allen, Benj. W. Jones and James H. Hayes.

A CANDIDATE FOR RE-NOMINATION.—We see announced that Wm. A. Herron, Esq., the efficient Clerk of the Courts, will be a candidate for re-nomination before the Republican Convention to assemble next summer. Mr. Herron now fills the office with great acceptance, and he has hosts of friends who would be pleased to see him retained.

ARRESTED.—Thomas Risley, of Franklin township, was this morning arrested by officer Wills, of Allegheny, charged on oath of Mary Ford with assault and battery. The warrant for his arrest was issued by Justice Scully, of Franklin township, before whom he will be taken for a hearing. He was "making off" when arrested.

MONONGAHELA BRIDGE.—An election for President, Managers and Officers of the Company for erecting a bridge over the Monongahela river, opposite Pittsburgh, was held at the toll house, on Monday, at two o'clock, p. m. The same officers and managers who have served during the past year were re-elected.

STOLEN! STOLEN! STOLEN!—The horse stolen from Mr. Arnold, of Clarion, was sold to a man in Crawford county, for $60. After, which the thief escaped. Richard Evans, who had found the horse, is entitled to a reward of $25, while the purchaser loses his $60, unless he can overhaul the thief.

MARY WILEY, of Madison township, Clarion county, was committed to jail, on Monday last, on the charge of stealing the sum of $100 in gold and bank notes from Mrs. Elizabeth Smith, hotel keeper, in Lawrenceville. The evidence of her guilt is said to be complete.

NEW COUNTERFEIT.—A counterfeit ten dollar bill on the Farmer's Bank of Reading, has made its appearance. The plate is evidently an altered one, and the vignette has been so badly done, that it will scarcely pass. It cannot fail to detect its character.

ON FURLOUGH.—Lieut. James Dunlavy, of Keap's Battery, has arrived at home on a brief leave of absence—being his first visit since he entered the service. Sergt. Wm. H. Riddle, of Co. H, 133d Regiment, is also at home on a short furlough.

TAX LAW DECISIONS.—The Decisions of the Commissioner of Inland Revenue on questions arising under the Tax Law have been collected and published in a convenient and cheap form in Beadle's Dime Series. For sale by Henry Miner, Fifth street.

JOHN FEENEY, the drafted man who shot Lieut. Ford, when the latter was attempting to arrest him, has been released from the Old Capital Prison, at Washington, and is now awaiting his trial before the Fulton county Court.

The Senate joint resolution, tendering the thanks of Congress to Gen. Rosecrans, and the officers and men of his command, for gallantry and good conduct at Murfreesboro, was passed.

Mr. Sheffield reported a bill from the Committee on Commerce in relation to revenue and to punish frauds, which was passed.

Mr. Sedgwick reported from the Naval Committee, the Senate bill, authorising the President to issue Letters of Marque and Reprisal, which was passed.

At a quarter of twelve o'clock the House adjourned.

SENATE.

Mr. Anthony offered an amendment, that on raw or manufactured cotton, the growth or produce of countries beyond the Cape of Good Hope, when imported from this side of the Cape, shall pay no greater duty than is imposed on the same article when imported direct from places beyond the Cape. Adopted.

When the bill was presented to the Senate, Mr. Powell insisted on a separate vote on each amendment. The amendment increasing the tax on custom tailor, miner and shoemakers' work to three per cent. was not concurred in, so the tax remains at one per cent. The bill passed.

Mr. Trumbull called up the report of the Committee of Conference on the Indemnification bill.

At a quarter to 11 o'clock, Mr. Wall addressed the Senate at length. He considered this bill as most dangerous to the liberties of the people. It, with the conscription bill, will give the President more than dictatorial powers, and will open the iron doors to the battalions of the country to immure innocent men. It was the embodiment of a pestilential heresy that the power suspending the writ of habeas corpus was invested in the executive. The last hope of liberty will be gone if this bill is passed, and all the old landmarks of the Constitution will disappear one by one. He continued at length.

Mr. Powell continued his speech, with various interruptions, until half-past 3 o'clock, when he moved to adjourn. Rejected—yeas, 4; nays, 22.

Mr. Bayard, of Del., commenced speaking against the bill, and spoke till half-past four o'clock, when he yielded the floor.

Mr. Powell moved an adjournment. Rejected—yeas, 4; nays, 33.

The question then recurred on agreeing to the report of the Conference Committee. A vote was called, and the Chair, Mr. Pomeroy, declared the report agreed to.

Mr. Trumbull moved to take up the act relating to the validity of the deeds of the public squares in the city of Washington. Agreed to.

Mr. Powell—I hope we shall proceed with the consideration of this report.

The Chair—The bill is passed.

Mr. Powell—Did I not state distinctly that the Senator from Delaware yielded the floor to me then to adjourn?

The Chair did not hear the Senator say that the Senator from Delaware yielded for any particular purpose.

Mr. Trumbull—I believe I am entitled to the floor.

The Chair—The Senator from Illinois is entitled to the floor unless he yields.

Mr. Powell—I desire to ask the Chair—

Mr. Trumbull—I do not yield to the Senator for any question.

At a quarter to 5 o'clock the Senate adjourned.

Latest from New Orleans.

NEW YORK, March 3.—The steamer Charles has arrived from New Orleans. She left there on the 23d, Ship Island on the 24th, and Pensacola on the 25th, with 200 discharged soldiers. She passed Key West on the 27th, and saw a large white steamer going in.

There is no doubt that the Harriet Lane was still shut up in Galveston. Ship had been believed to be making her an iron clad.

The gunboat Essex picked up four torpedoes near Port Hudson, each containing 200 pounds of powder.

Rebel deserters report that Sibley has sent 1500 infantry to Shreveport, and had gone with the balance of his command to Arkansas river.

The conscription of all men between sixteen and sixty is being enforced with relentless rigor.

The levees near New Orleans are believed to be safe.

An arrival from Vera Cruz reports a heavy norther on the 5th ult., in which several barks foundered. Three seamen, one cabin passenger were lost. The steamer Sherwood, Lagow, and Capt. Count, of the Sherwood, were lost. The second mate and four seamen were saved.

The planters of Louisiana held several meetings in New Orleans. Gen. Banks promised to aid them by taking the abandoned plantations on the same terms offered by the Quartermasters. Gen. Banks attended one of the meetings and gave assurances that the government has no feelings of hostility to the people here, and he wished to do all he could consistent with his duty for the peace, prosperity and happiness of the people of New Orleans.

The order Gen. Banks issued by Gen. Banks forbidding the taking of negroes from plantations by any officer or other person in the service of the United States, without authority from Washington.

The order of Banks explains the system of labor adopted for the year, and the planters assenting thereto, to be applied as far as practicable without violence in inducing the negroes to return. The negroes are to be secured sufficient and wholesome food by officers of the Government, and the share of the crop they produce. Those not thus engaged are to be employed on public works without pay except for food, clothing, and medical attendance, and such instruction as may be furnished them.

Views of Mr. Benwood, of N. Y.

WASHINGTON, March 3.—Representative Benwood, of N. Y., being unable to obtain the floor, to deliver, obtained permission to print a speech in the course of which he says, "Were he certain that in a military sense the war would prove successful, nevertheless, he would oppose it, for with the destruction of resists in a calm, dispassionate appeal to the judgment and better feelings of the contending parties. From the United States, he says, as being materially the stronger party, the proposition for an armistice can come with good grace. Let wise and just men from all the States assemble in convention. If, in the human nature will have passed away.

Remarks of the London Times.

NEW YORK, March 2.—*London, Feb.* 16.—The *Times* remarks that when the objects of the war appeared to be the restoration of the Union, the North was unanimous for it. A feeling of desperation arising from repeated defeats has since induced the Government to introduce an element which has tended to divide public opinion. President Lincoln's emancipation proclamation immediately converted the war into a party, rather than a national, struggle. It has proved a solvent which has loosened the Federal bond even in the North itself. Doubts as to the present object of the war are, among other things, causing the Army of the Potomac to melt away.

Operations at Vicksburg.

ST. LOUIS, March 3.—The *Democrat* learns from private sources that the canal from Milliken's bend to Lake Providence is completed, and on Tuesday last the steamer Continental passed through.

Gens. Logan and McArthur's forces were ready for transportation, and are probably on the way to Red river before this, with the probable design of co-operating with Banks against Port Hudson.

The Capture of the Indianola.

NEW YORK, March 3.—A special Memphis dispatch to the *Times*, says that the Indianola was attacked by three rebel boats on Tuesday, the 24th ult. The fight was obstinate, lasting several hours, and she was only surrendered when in a sinking condition. She was run ashore, and the captured officers and crew are now in Vicksburg.

Run the Blockade.

HALIFAX, March 2.—The steamer Columbia run the blockade at Wilmington, N. C., and arrived at St. George with a cargo of cotton and tobacco. The Columbia reported the arrival at Wilmington of the steamer Giraffe.

The Oil Market.

MARCH 3.—Crude Oil was unusually firm to-day, and some holders were disposed to ask an advance. If how conceded that there will not be as much down as was generally anticipated, and to this perhaps may be attributed the unexpected firmness on the part of holders. We quote at 8@8½ in bulk and 14@14½ in bbls, though some dealers are asking 9¾ and 15 bbls, though some dealers are asking 9¾ and 15. Sale of 250 bbls in bulk at 9¾—the buyer to furnish the bbls and the seller to barrel it; and 500 bbls at 9¾—bbls to be exchanged, which is equivalent to being returned. Money, Stocks, etc., in New York.

NEW YORK, March 2.—We take the following financial items from the New York Evening Post of Monday:

The market opened firm, and governments are decidedly stronger after the temporary inactivity of Saturday.

The firmness of some of the leading stocks is, in some measure, borrowed quarters, attributed in part to the fact that a foreign demand for certain descriptions of these securities is springing up.

Registered 6s of 1881 were in demand at 99¾; Coupons at 101¾; Coupons 1874 at 97, Seven-thirties of October and April are wanted at 103¾; February and August at 104¼.

The speculative stocks were heavy. On the decline the list we place Illinois Central, Pittsburgh, Michigan Southern, Hudson River—all of which we quote, at a general 1@1¼ lower than the closing quotation of yesterday.

Erie was violently hammered by the bears, who succeeded in forcing the quotations down to 77¾@ 77¾, at which price some considerable business was done, and subsequently recovered, closing at 78¼, but receded after the Board to 77¾.

The bond list is firm.

Sales: New York Central Scrips 102, Erie Fourths 111, Harlem Third 106, Michigan southern Second 103, Lackawanna and Western First 120, Toledo and Wabash Second 91¾, Fort Wayne First 118, ditto Second 79, Pittsburgh Third 104, Chicago and Alton First 110¾.

Gold is comparatively quiescent this morning. The first sales were at 171¾, from which point there was a sluggish recession to 171, and still more slow and heating, recovering to 171¾, which is the price asked at 10 o'clock, and 171¼ being bid.

Railroad stocks last week were slightly less in request than during the week previous.

It appears that of the 189,000 shares sold at the regular board one-third were Erie or sold at the regular board one-third were Erie or Reading, and the remainder Michigan Southern, Cleveland and Pittsburgh. In Fort Wayne alone 5,000 shares were sold at a higher figure than has for some time prevailed.

Fort Wayne shares were galvanised last week into fever and sixty is being enforced with relentless rigor.

The lowest near New Orleans are believed to be safe.

An arrival from Vera Cruz reports a heavy norther on the 5th ult., in which several barks foundered. Three seamen, one cabin passenger were lost. The steamer Sherwood, Lagow, and Capt. Count, of the Sherwood, were lost. The second mate and four seamen were saved.

The planters of Louisiana held several meetings in New Orleans. Gen. Banks promised to aid them by taking the abandoned plantations on the same terms offered by the Quartermasters. Gen. Banks attended one of the meetings and gave assurances that the government has no feelings of hostility to the people here, and he wished to do all he could consistent with his duty for the peace, prosperity and happiness of the people of New Orleans.

The order of Banks explains the system of labor adopted for the year, and the planters assenting thereto, to be applied as far as practicable without violence in inducing the negroes to return. The negroes are to be secured sufficient and wholesome food by officers of the Government, and the share of the crop they produce. Those not thus engaged are to be employed on public works without pay except for food, clothing, and medical attendance, and such instruction as may be furnished them.

Views of Mr. Benwood, of N. Y.

WASHINGTON, March 3.—Representative Benwood, of N. Y., being unable to obtain the floor, to deliver, obtained permission to print a speech in the course of which he says, "Were he certain that in a military sense the war would prove successful, nevertheless, he would oppose it, for with the destruction of the resisting power in the Southern States, would vanish every hope of their existence as equal and contented members of the household.

In his view this war, nominally for the Union, is actually waged against it. In his opinion, the only prospect of accommodation

Boston Cotton Goods Market.

The Boston Price Current says: The market for cotton goods has been quite active during the week, and prices have changed hands at a further consiserable advance. Holders, however, are still disposed to hold, feeling confident that the "top" has not yet been reached. Henry Brown Sheetings have advanced to 40@41c, with an active demand. Medium goods range from 42@44c; light Sheetings at 40@42c; light shirtings at 37½@39c. Bleached goods have felt a decided stiffness, and have been selling at from 37½@40c; and 3-4 Bleached and Brown Sheetings have been sold quite freely at 39@ 41c each, and are getting scarce. Ells bleached are sold ahead of production, and orders only taken at 44c, and do 8 do at 40@43c. Indian Orchard Sheetings are selling from 21@31c. York Denims and Ticks are in good demand at 55c, and extra Ticks at 60c. Pantaloon Stuffs in fair demand, with prices advancing. Corset Jeans are selling at 25@27½c. Print cloths are firm at but quotations, 19c net, for Black.

Baltimore Coffee Market.

Feb. 28.—The high price ruling for some time past have apparently checked the consumptive demand for this article, but we notice some little speculative inquiry at the close for Rio, in view of the advance in rates at the Brazils, and the rise in gold and printing, reducing the importations. Sales reported embrace 200 bags Jamaica at 32c, and 200 bags Rio at 30¾c per lb.

We now give asking prices as follows: Rio 33¾@34c, Laguyra 37@38c, and Java 40@42c per lb.

RIVER INTELLIGENCE.

The river is again receding at this point; and last evening the pier marks indicated eleven feet. The weather yesterday was raw and unsettled, with a mixture of rain, sleet and snow falling at times.

There was nothing of importance transpired about the levee yesterday. Business was less animated, and perceptible falling off in the shipments and receipts.

The tow boat Convoy, with a cargo of flour and oil from Era from Cincinnati, and Argonaut No. 2, from St. Louis, are the next coal boats due. The former boat will probably arrive to-day.

The Belle No. 4 and Leclare from Oil City, got in during Monday night with fair trips, consisting principally of crude oil. The Cottage No. 2 from the same point is due here to-night.

The Nellie Rogers, Altamont and Progress left Cincinnati for this port on Saturday last.

NASHVILLE.—The Union, of Friday, says: As the Saltie Lucas was yesterday steaming down the river, she collided with the abutment of the railroad bridge, and was seriously damaged. We learn that she was run to the bank in an almost sinking condition.

The heavy rains of night before last washed away two bridges on the Nashville and Chattanooga Railroad, between this place and Murfreesboro. The first heavy freight for the road, last named came which left here yesterday morning, but has not yet been heard from on this account.

A special Cairo dispatch to the Cincinnati Commercial, under date of Feb. 28, says:

The Silver Cloud, for Pittsburgh, passed up at dark. She was loaded to the guards, and refused freight here. She had forty-one head of cattle, for Paducah. The Courier came down early, and returned, without freight. She was full of passengers. She burned a boiler, and goes to Evansville to patch it.

The Silver Cloud has some freight for Cincinnati, of which I enclose manifest. She had between 200 and 300 tons Pittsburgh freight.

The gunboat Lexington is anchored at the grand chain, between this and Paducah, to prevent smuggling into Kentucky. We hear that the General Lyon leaves for the front to-day, with dispatches.

The gunboat Lafayette is about completed, and will start down the river in a day or two, to convoy the like Hammell, and other tow boats, with coal for the fleet.

The General Price was taking aboard her guns and stores yesterday. She is about completed.

The sun shone on us all day yesterday, and is drying up the mud slowly.

The river has not commenced to fall. Business dull.

The Cincinnati Gazette, with a large barge in tow, and full of cotton, will be up to-day. The Hole Boy, from Coal Cumbus, reports the Ohio up again, and water over the track. No through train yesterday.

Passengers and shippers should remember that the commodious Nevada, Capt. Brickell, will sail for St. Louis this evening.

The neat passenger packet Argosy, Capt. Reed, leaves this evening for Cincinnati and Louisville.

Mr. W. F. McConnell is the clerk.

The Starlight, Capt. Vanhook, is filling up rapidly for St. Louis and Keokuk.
