It is time it should be understood in this
State that the use of a railroad track, cutting,
or embankment is exclusive of the public
everywhere, except where a way crosses in
This has more than once been said, and it
must be held so, not only for the protection of
property, but, what is far more important, for
the preservation of personal ascurity, and
even of life. In some other countries it is a
penal offence to go upon a railroad. With us,
if not that, it is a civil wrong of an aggravaied nature, for it endangers not only the
trespeaser but all who are passing or transporting along the line. As long ago as 1625it was said by Judge Gibson, with the soncurrence of all the Court, "that a railray of
company is a purchaser, in consideration of
public accommodation and convenience, of the
exclusive possession of the ground paid for to
the proprietors of it, and of a license to use
the highest attainable rate of speed, with
which naither the person nor property of ansether may interfere."

Mr. Dawes understood that Mr. Van Wyck had refiscted on the course of the Committee; but he had not seen the minority report. If this was the case, he was ignorant of any reason for such censure. He yielded the floor to Mr. Van Wyck, who said that what had fallen from the lips of the gentleman who had just addressed the House should satisfy members of the propriety of printing his report. Why should the majority seek to suppress it. The House having ordered an investigation into the affairs of the New York Custom House, he undertook the task of making it.
