FRIDAY MORNING, MARCH 27.

LOCAL INTELLIGENCE.

From Yesterday's Evening Gazette.

A Young Burglar Caught in the Act.

For some two weeks past J. W. Pittock, news dealer, has missed small sums of money, and he was, until last night, at a loss to account for it. At night, before going home, he generally counted whatever change was in the money drawer, and in the morning he invariably found that from one half to three quarters of it had disappeared during the night. It was evident to Pittock that there was something wrong, and he at once determined to have the matter investigated. Accordingly on Wednesday night he engaged a special policeman, and stationed him in close proximity to the outside door, with instructions to keep himself hidden from view and at the same time to keep a sharp look out for the door opening on Fifth street.

About three o'clock this morning, a young man was observed to stop at the door, and after taking a close survey to see that none of the watchmen were about, forced the door open and went inside of the store, closing the door after him. The special policeman, with the assistance of one or two of the night watch, who were near by at the time, then arrested the young burglar, and conveyed him to the Mayor's office. His name is Patrick Maloney, and he has been for some time past in the employ of Pittock in mailing papers. A small sum of money was found on his person, which was identified by Pittock, he having put a private mark on it the evening previous before leaving the store. As the evidence against Maloney is conclusive, he will doubtless be committed for trial on a charge of burglary.

The Anderson Cavalry.

The following is a correct list of the officers of the Anderson Cavalry, as recently appointed by Gen. Rosecrans, and now commanded by Col. Palmar:

Wm. E. Colton, First Lieutenant and Adjutant.
George R. Fobes, First Lieutenant and Quartermaster.
Chas. S. Hinchman, First Lieutenant and Commissary.
Norman M. Smith, Captain Co. A, (old Troop.)

A Lieutenant Colonel and two Majors are yet to be appointed. The above appointments have met the hearty approval of the members of the Troop.

We are glad to notice the promotion of W. G. McClure to a First Lieutenancy. Lieut. McClure is a native of this city, and was among the first to enlist in the Anderson Troop. He has been in nearly all the engagements under Gens. Buell and Rosecrans, and has earned the reputation of being a brave and gallant soldier.

Washington Teachers' Institute--The County Superintendency.

At a meeting of the Teachers' Institute, of Wilkins' District, held at Wilkinsburg, March 21st, the following resolutions were unanimously adopted:

Resolved, That a man's success in business is the best evidence of his qualifications for that business.

Resolved, That Mr. A. T. Douthett has advanced the standard of our schools; that he is laboring gradually but diligently for its future advancement; that his heart is fully engaged in the work; that he will neither resign, nor shrink when called upon to execute new leaders have new plans, and much time is often lost by an exchange; that, although there may be other good men in the field for the office, yet we do not consider it safe to exchange the known for the unknown. We, therefore, earnestly, but respectfully, request our directors to give their influence, with a view to secure the re-election of Mr. A. T. Douthett as County Superintendent.

City Mortality.

The number of deaths in this city, from March 17th to March 24th, as reported by Dr. A. G. McCandless, physician to the Board of Health, is as follows:

Males,..... 8 | Adults,.....10 | Total,.....16
Females,.... 8 | Children,... 6 |

The diseases were: Consumption, 5; congestion of lungs, 1; congestion of brain, 1; burns to death, 2; thrush, 1; diptheria, 1; hæmorrhagia, 2; scarlina, 1; scrofula, 1; measles, 1.

THE SUPPLY OF ICE.—The present has been one of the most remarkably mild winters ever known in the United States. From Boston to St. Louis, everybody seems to be horror-stricken at the slim chance of procuring ice enough for their mint julips and sherry cobblers, and the result is that the price of ice runs high, and there is considerable excitement in the market. This state of affairs is likely to make ice such a luxury that few besides cotton speculators and Government contractors will be able to indulge in it. During the present season, not one cart-load of ice has been cut from the Schuylkill and ponds in the vicinity of Philadelphia. In some of the counties, the farmers got a good supply of ice during the last cold snap, but the article was of a very inferior quality.

CONTINUOUS LINE FROM PITTSBURGH TO JERSEY CITY.—The Philadelphia *Press* says: "Measures are fast maturing which will result in a large union passenger depot west of the Schuylkill river, and in a steam power connection of the Trenton Railroad with the iron way on the west bank of the Schuylkill, in a manner that will insure a continuous steam power track from Jersey City to Pittsburgh, as well as from Jersey City to Washington, through Philadelphia. The connection will make the Pennsylvania Railroad more of a passenger railroad than it has hitherto been, and will give importance to the Trenton Railroad by its direct connection with the great Western and Southern roads."

DEATH OF A PRINTER.—Mr. John Braddock, a well-known printer of this city, died at the residence of his brother this morning at half-past three o'clock. The deceased left here last fall as a Lieutenant in the 132th Pennsylvania Regiment (Col. Collier's), but he had not been in the service long, when he was taken sick with chronic diarrhœa, and was in consequence compelled to resign. Since his return he has suffered more or less from the disease then contracted and which finally resulted in his death.

CONCERT SALOONS.—There is a bill now before the Legislature which has for its effect of closing up all the objectionable places of amusement in the State. It imposes a penalty of $100 for giving any entertainment without license or renting a hall for an unlicensed exhibition—forbids the sale of liquor or the employment at any place of amusement under penalty of $100—and makes it the duty of every constable or magistrate to arrest any person violating the act.

"The Age," a new Democratic Daily Newspaper, began its existence in Philadelphia, yesterday, (Wednesday, 25th inst.) The late troubles of the *Evening Journal* probably suggested that "the Unterrified" would accept another teacher of such "Democracy" as the Roods and Ingersolls profess. Hence "The Age"—which our readers may examine any day, at J. W. Pittock's News Depot, Fifth street, opposite the Post-office.

ORDERS OUT.—Capt. W. H. Jeffries, of Co. H, 61d Pennsylvania regiment, detailed on recruiting service here ever since the battle of Fair Oaks, where he was wounded, has been ordered off with instructions to report at Harrisburg. He will probably rejoin his regiment. Capt. Jeffries has been quite successful in recruiting here, having enlisted over 200 men.

GONE BACK.—Maj. Joe Browne, of the 102d, Maj. William Needer, of the 57th, and Sergeant Will A. Walker, of the Ordnance Department, left last night for the Army of the Potomac.

KILLED AT U. S. FORD.—Jerome M'Bride, of the 4th Penn's cavalry, Co. B, well known in this community, was killed in the late cavalry action near United States Ford.

The Passing of Port Hudson by Admiral Farragut.

HAINES' BLUFF REPORTED FLANKED.

CINCINNATI, March 26.—Gen. Burnside's order assuming command of the Department of Ohio, is published this morning. Indiana is made a separate military district, under Gen. Carrington, who reports to Gen. Burnside.

Considerable skirmishing took place yesterday, and the day before, between our cavalry and the rebel advance South of the Kentucky river. About fifty prisoners were captured. The rebel force is estimated at thirty-five hundred to ten thousand. Our troops are concentrating rapidly. Confidence is felt in the ability of the military commanders and means at hand to repel invasion.

A Memphis dispatch says Admiral Farragut's vessel discovered the Indianola at Hard Times bend, and recaptured her without resistance. The rebels had been at work on her, and she was nearly ready for service.

The Queen of the West is up Black river, out of the reach of our vessels.

A mail from Farragut's fleet has reached Memphis.

The Jackson *Appeal*, of the 18th, says Gen. Banks failed to make a land attack, and Farragut went it alone, and passed the batteries at night, under a terrific fire. The Mississippi was burned to the water's edge, and 30 of the officers and crew captured.

It is rumored that Haines' Bluff has been flanked through a new route.

Interesting from Europe.

NEW YORK, March 26.—The steamship Etna arrived this morning from Liverpool, with advices of the 11th and dispatches via Queenstown to the 12th. The Bavaria arrived out on the 8th, the Asia on the 9th, and the City of Washington at Queenstown on the 11th.

The political news is not important.

The marriage of the Prince of Wales and the attendant rejoicings is absorbing the public attention.

The ceremony came off on the 10th inst., at Windsor, according to the programme, with great pomp and brilliancy. The Queen occupied a retired post of observation, but took no part.

The Royal pair went to Osborne for the honeymoon. The day was observed as a holiday throughout England, and the public rejoicings, illuminations, &c., were on the grandest scale.

In the House of Lords Earl Malmesbury postponed his motion relative to the arrest of British officers in Brazil.

In the House of Commons Sir George Gray explained the circumstances under which two British police officers were sent to Poland in August last. It was simply that they might instruct the Russian authorities at their desire in the English police system.

The army estimates were debated and the principal rates agreed to. There is a reduction of more than one million sterling mainly in the vote for guns and stores.

It is rumored that France contemplates the resumption of negotiations with Mexico after the capture of Puebla.

Mr. Peabody gave a banquet to two hundred residents of London, under peculiar circumstances, brought higher figures—these, however, are no criterion of the market. The highest quotation being 86c, prime white, 104@120 test, at 30@35c (including 500 bbls on private terms); 2,000 bbls yellow at 32½@33c; and 1000 gallons in tin, 50 cash. Crude has been in good demand at full previous rates, closing buoyantly. Sales are 2100 bbls straw color to prime 115@120 test, at 37½@39c, and 1000 gallons in tin, 55, cash. Naphtha has been irregular, but is rather higher, closing at about 33½@37½c for Refined, the higher figure for prime and double distilled —the sales are 800 bbls at 30@33½c for Crude and 1000 bbls at 50c for 63@65 gravity, and 300@35 for deodorized, and 200 double deodorized, at 52½@53 60@63 gravity. Chicago Market.

March 24.—The dispatches from New York giving the quotations for gold were not received in this city until near its adjournment, and the markets here were consequently dull and depressed. Too inquiry for wheat was light and mainly confined to No. 2 Spring, which sold at a decline of 3@4c per bushel, winter receipts, ranging from $1,00@1,01. There was little done in No. 3 Spring, and sales were trifling at $1,16 for fresh receipts. Winter wheat grades were neglected and nominal. Common grades of Corn were in moderate request at $4,60@4,75, but good and prime grades were neglected and entirely nominal.

Oats were quite actively, but prices receded 2@3c per bushel, with sales of winter receipts of No. 2 at 56½@56½c, and fresh receipts at 47½@48. Rejected Corn was in fair demand at 43½@45½c for fresh receipts.

Oats continue to be in active demand, but in sympathy with other grain the market declined 1@2c, with sales at 56½@57c for fresh and 54½@55½c for later receipts. Rye was neglected and nominal at 75c. Barley was in good demand, but winter seeds dull and depressed. High wines dull and lower with sales at 40½c. There is nothing doing in Provisions, and prices are almost entirely nominal. The Live stock market is very quiet, owing to limited receipts.—Journal.

RIVER INTELLIGENCE.

The river was still swelling slowly at this point last evening, with full thirteen feet by the pier marks. The weather is unsettled, though somewhat cooler, with indications of snow. There is nothing doing at the wharf, both the receipts and shipments being very light. The only arrival from below was the Melnotte, from Cincinnati. The Cottage, from Oil City, got in on Wednesday night, with a good trip, including 1154 barrels of crude and refined petroleum.

The exchange, from Nashville, is expected to arrive here to-night.

The fifth states their conviction that females are peculiarly adapted to the business of training the youthful mind, and that by every principle of fairness, female teachers should receive the same salaries as males for performing the same amount of labor.

COMMERCIAL RECORD.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH DAILY GAZETTE,
THURSDAY, March 26, 1863.

There has been no further change in Gold. Advices received from New York quote at 139@140, with a drooping tendency. Our bankers are paying 132 for Gold and Demand Notes, and 120 for Silver. Eastern Exchange is steady at par buying, and ¼ ₰ cent prem. selling.

The unsettled condition of money matters has a tendency to restrict business, and the produce market is exceedingly dull and depressed, and prices, generally, give evidence of a decline. There appears to be no demand scarcely for the leading articles, and the transactions are limited and almost entirely of a local character.

FLOUR—This commodity continues very dull, buyers refusing to buy to any extent being under the impression that prices must decline. We note a sale of 80 bbls, a country brand unInspected at $5,10.

GROCERIES—We quote Sugar at 12@13c; Coffee 23 to 35c; and Molasses 55@60c. Sales of 10 hhds Porto Rico Sugar at 12c, 5 hhds N. O. do at 12½c, 20 bbls N. O. Molasses at 55c and 15 hgs Coffee at 32@34c.

CHEESE—Sales of 240 boxes W. R. at 14c; 10 bxs Hamburg at 14½c, and 40 bxs Goshen at 15c.

FISH—The market is firm and we note sales of 12 bbls No. 3 Large Mackeral at $10; 15 half bbls White Fish at $6 to $6,50, and 20 half bbls Lake Herring at $5,00.

DRIED FRUIT—Sale of 50 bush Apples at $1,50. Peaches are quiet with sales at from $3,25@3,50.

BUTTER & EGGS—Sale of 2 bbls common Roll Butter at 22c; and 6 bbls choice at 28c. Eggs are selling at 13@14c.

SEEDS—Cloverseed is very dull though unchanged; sale from store of 50 bush at $5,50. Timothy may be quoted at from $3,25 to 2,50; sale of 20 bush Flaxseed at $4,00.

SALT—Sale of 100 bbls No. 1 Extra from store at $1,75 per bbl.

The Oil Market.

March 26.—In consequence of a good stage of water, and large arrivals, in anticipation, our market for Crude Oil is extremely dull. Buyers are holding off. Crude lots to arrive are offered at 8¾@8¾c, and one sale was reported of 1000 bbls to arrive at the latter figure, in bulk.

Refined is more active. Sale of 100 bbls at 35c, 45 bbls at 36c, and 36 bbls at 35c—all up-river brands and free.

We have no change to note in bond, and in the absence of actual sales we quote at 27 to 28c for the best city brands.

Benzine is dull and may be quoted at 25 to 28c for deodorized.

Allegheny Live Stock Market.

Mar. 26.—It has been a long time since our drovers, have been in as good spirits as this week, which was owing to the fact that they have been able to realize large profits on their stock, which is always very acceptable to this class of business men. The market opened on Tuesday morning with only about four hundred cattle on sale. This caused great excitement among dealers, and most of the cattle changed hands at extreme prices.

Good cattle sold at 4¾ to 5¾c, live weight, making it equal to 9c for the meat after sinking the hide and, fat, and we have no doubt but that many were sold at prices equal to 9¾. This seems like a "step" price, when our best butchers are selling their best cuts of beef at 12c. Such a state of things will not last. Either cattle must be bought at a less price, or those who eat good beef will be obliged to pay more for it.

There were some few fat cattle sold to government contractors at 4¾@5½c but such we were sold at these prices could scarcely be called beef cattle. Many of them were not in good stock order, and why it is that such cattle are continually received by the government from these contractors is more than we are able to decide. Contractors at New York and other places, are not permitted to buy anything but the best which is must the cheapest beef when taken to the army.

There was a good demand for stock cattle, but there were none on sale. Three to three and a half cents could have been obtained for fair to good qualities weighing from 800 to 1,000 lbs.

The ruling prices this week for cattle, suitable for our best butchers, were 4½@5c, and we think there can be but very little decline again this spring.

Hogs and Sheep are still in good demand and sell readily at former quotations.

Petroleum in New York.

March 25.—Crude has been very firm since Friday, and closes rather higher for lots on the spot. The chantable and shipping order, and 2½ c per bbl for more inquiry, with full thirteen feet by the pier marks. future delivery, and 2000 do for June, at 20, all cash. Refined is bond, is without improvement, though some 300 bbls, under peculiar circumstances, brought higher figures—these, however, are no criterion of the market. The highest quotation being 38c, prime white, 104@120 test, at 30@35c (including 500 bbls on private terms); 2,000 bbls yellow at 32½@33c; and 1000 gallons in tin, 50 cash. Crude has been in good demand at full previous rates, closing buoyantly. The sales are 2100 bbls straw color to white 115@120 test, at 37½@39c, and 1000 gallons in tin, 55, cash. Naphtha has been irregular, but is rather higher, closing at about 33½@37½c for Refined, the higher figure for prime and double distilled —the sales are 800 bbls at 30@33½c for Crude and 1000 bbls at 50c for 63@65 gravity, and 300@35 for deodorized, and 200 double deodorized, at 52½@53 60@63 gravity. Received since 1st January (all descriptions) 168,627 bbls.
