This consists of legal tender and posiage currency notes, deposits at sub-treasuries, adjusted claims arrears to soldiers, &c., which, with the regularly funded debt, make an aggregate of eight to nine hundred millions. The funded debt is increasing rapidly by the gate of eight to nine hundred millions. The finded debt is increasing rapidly by the sale of "five-twenty" bonds. These bonds are either coupon or registered; at the option of the purchaser, and are for various sums from \$510.

The sight to nine hundred millions. The finded debt is increasing rapidly by the finded debt is increasing rapidly by the sale of "five-twenty" bonds. These bonds see so called from the fact that they may be redeemed at par by the Government at the end of five years, or they may run twenty years. They bear six per cent interest payable in gold. This is good financiarity and the rate of interest low, five years from this time, new loans, at lower rates of interest, can be made wherewith the pay off these six per cent. bonds, and thus save to the treasury and the tax-payers one, one and a half, or possibly two per cent.

These 5-20 bonds are either coupon or registered; at the option of the purchaser, and are for various sums from \$510.

The same thing precisely that won the hearts of the masses in Europeared the princess has passed into the nave, and a hum of expectation makes fixelf audible, and to the massive strains of Handel's march from "Joseph" comes the procession of the bride. Pale in her maiden modesty, under the light shade of the bridal wreath and the cloud of her white veil, her bridal nosegay of white axaleas and lillies of the valley, mighty conflict—an evidence that we fought with both hands, and not with one pausing, makes her respectful revertied up-that we contended for both Liberty and Union, for the soul as well as the body of the nation. His speech was one of the ablest and most elo-quent ever delivered in this place. Abound-ing in expressions of ferrent patriotism, inqualified loyalty and honest indignation against the vile, heartless partisans in the loyal States, who, under the filmsy pretext of supporting the Constitution, are working loyal States, was, wanter the nimsy protext of supporting the Constitution, are working stealthily to undermine and everthrow the Government, it was truly refreshing and encouraging to the hearts of all loyal men. Judge Shannon is beyond question one of the most eloquent and finished brators in this State, and his parifolders is of that genuine stamp which prefers, at all times, country shore party. Such men are needed at this time, to countrate the influence of traiters in our midst. We hope that Judge Shannon's voice may be heard everywhere throughout the State, to the confusion of traitors and the encouragement of layal

The financial condition of the country has been wonderfully improved within a few weeks. Considence, which was somewhat shaken, is fully restored. The capitalists of Europe, who six menths ago would laugh at the idea of loaning money to what they took to be a broken and ruined government, are now placing enormous sums at its disposal; but Mr. Chase can do better at home. Everything is cheering and happful.

It cannot be doubted that Admiral Farragut, appreciating the importance of cutting off these riveremunications of the enemy, will, as quickly as possible, give his attention to their facet; and we shall be prepared to hear at any moment startling news from that quarter.

Demagogueism.

If the reader wishes to see a sample of unmitigated party clap-trap, we refer him to the resolutions "on the state of the country," given by our Harrisburg correspondent, especially the third. What put it into the heads of four of our members to vote for a lie clumsly hid in a stale truism, is more than we can imagine. We allude to the third resolution. Judge Sharmon understood it. A distinction more practically mischievous than the one attempted to be made, can hardly be imagined.
