The Germano to the Receas Canavass for United States Senator.

The Committee appointed to in the statement of the substantiated to 10 the 10 June 10 Jun

sentancy, in the sight of that stemmory to be sentancy from the property of th

for Simon U-meron, which is empanators, us-nied by Mr. Patterson. We are, therefore, bound to conclude either that the statements of Dr. Boyer, on the one hand, or those of Mr. Patterson and Mr. Brobst on the other, in regard to the pecuniary considerations, are in regard to the pecuniary considerations, are downright and deliberate falsehoods.

Men always act from motives. It is, there-Men always act from motives. It is, therefore, legitimate to inquire what motive could have inflaemed Dr. Hoyer in this single case? It could dot have been fear, for surely he had no more to fear from stelling the truth than from a deciaration of faisehood. It could not have been the hope of gain, for it is impossible for any one to see how he could have expected any beneat from the utterance of any such false statement. Nor could he have been setting to the statement of the existence of any such false statement. Nor could he have been setting for there is no evidence of the existence of any such feeling on the part of Dr. Boyer against Gen. Cameron or any of his friends. Moreover, to suppose any man could falsify and knowingly charge upon his fellow-man, without some strong motive, a erime which would forever blast the reputation of its perpetrator in the community, and then call upon God in the most solemn manner, in attestation of the truthfulness of his charge, would be to ascribe to him an unaccountable degree of immoral deprayity.

Here another question will naturally arise.

Anterwelled by a malerchiled or presengation for the system of many and the control of the system of the presentation of the control of the system of the control of

any before them in regard to the transis related by Dr. Boyer; and it becomes

ine his claims to truthfulness.

at there were, within a few days previous

Committee will undergo judicial investiga-tion, there would seem to be much propriety in submitting the testimony taken, without argument or comment. The majority of the Committee have thought otherwise, and in challenge

efforts to prevent such success should in some manner be thwarted.

Mr. Boyer states that it was generally reported that unlawful means would be resorted to to defeat the Democratio nomines. He slass informs us that he kept several of his party friends informed of what he was doing and the progress he was making. Now it is possible that Mr. Buckalew (the person of all others the most deeply interested in the success of Mr. Boyer's scheme.) might, while his party friends were fully informed, have been left in total ignorance of it, but to use the language of the majority report, "is it probable?"

ounseling and advising, are also guilty ringipals. If our conclusions are not well drawn from

thought otherwise, and in their repert, and accompanying an abstract of the principal testimony taken, they have submitted to the House arguments, inferences and ideductions, founded upon, and, as they think, resulting from the facts in proof. After reciting the testimeny of Doctor Boyer, the majority of the Committee, singularly enough, address themselves with xeal to an examination of the Committee, singularly enough, address themselves with xeal to an examination of his, Boyer's, claims to truthfulness.

After reciting various nonessential points, in which Doctor Beyer is corroborated by other witnesses, the majority report says "there is almost a perfect agreement between them, except in regard to the alleged money frussections.

It appears to us that what is thus called does not matter whether the primary purpes of such combination was to defeat Genera Cameron or to ensure the success of the De

NO RETTER UNEXION NO BETTER REGION.

SECESSION PLAYED OUT. Missouri is Lovat. It is now perfectly ask and profitable to emigrate, especially to Ejorthern Missouri. The fists will soon be free. For central position, controlling free labor interests and her great and increasing majority of pariotic and loyal citizant, demand and guarantee this seyoud the shadow of a doubt; ultra pro-slavery opposers consede this. FREE-STATE COLONIES.

Large and choice bodies of land offered, furnish for Colonies every desirable indility. Rividestly it is the best policy to emigrate in Colonies. It is easy, practical, and most beandadal. It only requires co-operation, with some one or more as a committee, to nor-respond with and combine individual action. This plan secures desirable neighbors, creating among them a strong bond of union; it increases social aniopyment, and the outlay of monay and labor by each, in improvements, benefits the others, and addriangely to the value of their seighboring farms. Personal disposes to form Colonies by making the proper efforts, costing little but their time and attention, will find it for their interest to confer with the undursigned.

NOW IS THE THEE, with predent forsthought and action, to secure, with little money, rich farms and happy homes, which must rapidly increase in value.

##Co:n planted by June 28th will secure a good rop even on new broken prairie. A LABGE SECTIONAL MAP, te shaded parts showing the axact locality of all o land offered for sale, can be had by remitting irty cents to either of the undersigned. CIRCULATE THE DOCUMENTS.
