The Coal Diggers.

There seems to be s general disposition manifested, on behalf of the coal diggers, to

manifested, on behalf of the coal diggers, to go back to work at three cents per bunkel, with the understanding among themselves that as further reduction on the price of dig-ging shall be permitted... This is more than double the rates which they used to receive, and is certainly high enough, wen upon the most liberal calculation of the increased price of living. The grass majority of diggers, we understand, have gone to work as the upper pools of the Monongahela, and several hun-dred have size reaned operations in the pits seath of this sity. So long as they continue to receive three cents for digging, consumers need scarcely hope to purchase supplies at less than from eight to nine cents per bushel.

Union Meeting at Rochester.

Union Meeting at Hockester. We learn with great pleasure that Liouten-ant Pittinger and Captain Geer, whom we had ench a treat from in Lafayette Hall in this city, on Monday ereaing, will addree a Union or descing in Bachestery Par, to metrow (Wed-neday) screning. Our friands in Bachestar will certainly enjoy the meeting, cheered and impired by the presence and discourse of these bares and true men, as much as any they have ever attended, or we are greatly mistaken in the premises.

ATLANTIO & GREAT WESTERN BAILWAT Arthurio & Guilt Whithe Mailwar The New York Tribus understands that ar-fangements have been made to lay is third rail upon the track of the Flitchburgh, Fort Wayne & Chlengo Hallway, from the junction of the Atlantic & Great Western Ballway to Ohiongo, to make the gauge orrespond with this of the Atlantic & Great Western and Erie reade-them forming in unbroken line of the roads-thus forming an unbroken line of the six-foot gauge from New York to Chloago. This will give the Nort Wayas road a through fonts from Chloago to New York by the Erie gad as well as by the Penmylvanis Central, and add largely to its already heavy busines.

PATAL BAILBOAD ACCIDENT .--- A young man, Wreat Barinors Acorsers. - A young man, whese name we were mable to hearn, was in-itantly killed on Monday evening, between Industry and Vanport, on the Oleveland and Pittsburgh Railroad. He was walking along the track, in company with a friend, when a train caste up rather suddanty, and before he bould get out of the way, he was knecked down-the train passing over him seaung death instantly. The doceased was about 38 years of age, and resided in the violative de Vasport.

A DARGEROUS TRAF .-- The attention of the A DARGEROUS TRAP.—The attention of the Street Commissioner is directed to the dan-gerous condition of Socond street, (opposite Parry's foundry. There is a hole there, suff-ciently large to cause the samshing of a wagon or the killing of a hore, and if it is not re-paired the city may have to foot a. bill for damager. Second second
