The several Committees appointed are already taking the initiatory steps to earry out the objects contemplated. From the character of the gentlemen composing those committees, their experience and patriotizm, we have no doubt that this yeary practicable, simple and efficient plan for home defense will be at once put into successful operation. With two or more regiments of accept having seen service in the field; added by twice the number of militia or minute into, with attorn but the action of independent envalry to set as sociate, and two or more well organized batteries of artilizery, we may want with confidence and calmage, the news of firentened raids along ear frontier.

On Monday evening, a preliminary meeting was held at the Sixth Ward school house, to take steps for procuring a steam fire, engine for the Sixth and Seventh Wards. The meeting was called by helf a dosen leading citizens, but the object was not stated in the cell; and the attandance was rather slim. No organisation was effected, but those present had a free interchange of views, and all agreed upon the necessity of having a steam fire engine located in the Sixth or Seventh Ward. No definite action was taken, but it is understeed that another meeting will be held at a inture day, when the project will take some tangible shape. Death in the Jail. An old vagrant named Mary McCafferty, who has spent much of her time in the county yalo has spent much of her time in the county
jail, died on Monday evening, from the effects
of intemperance. She had been committed by
the Mayor, for a term of thirty days, for
drunkenness and disorderly conduct, and had
been in about three weeks. Being deprived
of her customary stimulant, she was seized
with that terrible malady which somer or
later follows excessive drinking, and died a
miserable death. The deceased was far advanced in life, was a widow, and had two sons
in the army, one of whom was killed in battile. Coroner McClung held an inquest, and
the jury found a verdiet in accordance with
the facts.

Accident.—While Mr. John P. LATE TELEGRAPHIC NEWS. FROM OUR EVENING EDITION.

Official Report of General Hooker's Recent Battles.

pecial Dimatch to the Pittsburgh G PHILADELPHIA; May 11,-The Washington Stor, of this evening, has the following:
Official information was yesterday received to the following effect: Hooker left two corps d'armes under Sadi

burg, and with the main body of his feroes rossed the river at the upper fords. Sedgwick's instructions were to cross the river and attack Lee's rear as soon as Hooke should engage him in front. Sedgwick, for some reason unknown, d

layed his crossing beyond the appointed time, and did not get over until Hooker was "engaged, but yet in time to prevent Lee fellowing up his victory. Hooker is now at United States Ford, four-

seen miles below the confinence of the Rappahannock and Rapidan. He holds a strong osition, is strongly intrenched, and receiving heavy reinforcements This is all of interest. [WHETHER we regard the report, made up from the Washington Star's 'official' informa-

don, as relating to the events of the week before last, and the first days of last week, or inarpret it as relating to a second crossing by Hooker and Sedgwick, in neither view do w find that coherence and agreement of statement with statement, which would stamp I with the marks of genuineness and honesty While, therefore, we feel constrained to give it in the shape it has come to us, nothing bu ic censorship at Washington suppresses from the country at times even the news published in the Washington journals, nothing less than this would induce us to give credence, for a single moment, to such a report of a second

novement so suspiciously like the first. Can it be that the report of Hooken in rela tion to the causes of the failure of his first rossing, has in its semi-official publication got such an equivocal shape to enable som sorupulous persons to operate in the gold and stock market?
