MISCELLANEOUS.

GENERAL ORDERS No. 105.

ADJUTANT GENERAL'S OFFICE,
Washington, April 28, 1863.

The organization of an Invalid Corps is hereby authorized.

This Corps shall consist of Companies, and if it shall hereafter be thought best, of Battalions.

The Companies shall be made up from the following sources, viz:

First. By taking those officers and enlisted men of corps now in the field (whether actually present or temporarily absent,) who, from wounds received in action or disease contracted in the line of duty, are unfit for field service, but are still capable of effective garrison duty, or such other light duty as may be required of an Invalid Corps. Regimental Commanders shall at once make out, from information received from their Medical ass. Company Officers, and from their own knowledge, rolls (according to the form hereunto annexed) of the names of all the officers and enlisted men under their commands who fulfill the following conditions, viz:

1. That they are unfit for active field service on account of wounds or disease contracted in the line of duty; the fact being certified by a Medical Officer in the service, after personal examination.

2. That they are fit for garrison duty; this fact being likewise certified by the Medical Officer, as above, after personal examination.

3. That they are, in the opinion of their Commanding Officers, meritorious and deserving.

These rolls shall be certified by the Attending Surgeon and Regimental Commander, and transmitted, through the regular channels of military correspondence, to the Provost Marshal General of the United States.

The Regimental Commander shall enter in the column, opposite each officer's name on the roll, a statement as to the general character of the officer for intelligence, industry, sobriety and attention to duty; and all intermediate Commanders shall endorse thereon such facts as they may possess in the case, or if they have none, they shall endorse the fact. They are willing to endorse the opinion of the officer or officers making the recommendation. Similar rolls shall be forwarded in the case of Enlisted Men. The number of men fulfilling the conditions enumerated or the exigencies of the service may render it expedient.

Second. By taking those officers and enlisted men still in service but borne on the rolls, but who are absent from duty, in Hospitals or Convalescent Camps, or are under the control of Medical Officers, in these cases the Medical Officer in attendance shall prepare the rolls according to Form, entering the names of officers and men from the same regiment, on a roll by themselves, and send them, with the certificate of the Surgeon, to the Surgeon in charge of the Hospital or Convalescent Camp, who will forward them, as hereinbefore specified, subject to the same conditions and requirements. If in any case the course indicated below for those who have been honorably discharged the service.

Third. By accepting those officers and enlisted men who have been honorably discharged on account of wounds or disease contracted in the line of duty, and who desire to re-enter the service. In the case of an officer, application for appointment must be made to the Provost Marshal General of the United States through the Acting Assistant Provost Marshal General of the State. No application of this kind will be considered unless the following conditions are completely fulfilled:

1. That the applicant produce the certificate of the Surgeon of the Board of Enrollment for the district in which he resides, that he is fit for active field duty on account of wounds or disease, and is not liable to draft, but is fit for garrison duty.

2. That he furnish evidence of honorable discharge on account of wounds or disability contracted in the line of duty.

3. That he produce recommendations from the Regimental, Brigade and Division Commanders under whom he formerly served; that he is worthy of being thus provided for, and capable of rendering valuable service to the Government. In case it shall be impracticable to get this last evidence, he may, having established the first two points above, satisfy the Board of Enrollment that he is deserving, and present its certificate of the fact. This evidence must also be obtained by the applicant, and must be transmitted with his application for appointment.

If there be no Acting Assistant Provost Marshal General for the State, the application may be forwarded through the Adjutant General of the State, who is charged to endorse thereon such facts in the military history of the applicant as he may know, or as are afforded by his records, and forward the same to the Provost Marshal General of the United States.

Enlisted men, honorably discharged on account of disability, desiring to re-enlist in this Corps, will present their claims direct to the Board of Enrollment in the district in which they reside, for examination by the Surgeon thereof, who shall examine them and report the result to the Board of Enrollment.

The Board shall then consider each case, and if the applicant is found to fulfill the conditions specified below, the Board shall give him a certificate to that effect, viz:

1. That he is unfit for service in the field.
2. That he is fit for garrison duty.
3. That he is meritorious and deserving.
4. That he was honorably discharged from the service.

The Provost Marshal for the District shall then send the application, with the certificate of the Board, to the Acting Assistant Provost Marshal General of the State, who shall procure such evidence of service and character as the records of the Company to which he belonged, or file in the Headquarters of the State, may show; and if satisfied that it is a meritorious case, and that the man is deserving, he will enlist him (in accordance with such special rules as the Provost Marshal General may establish.

Medical Inspectors, Surgeons in charge of Hospitals, Military Commanders, and all others having authority to discharge, under existing laws and regulations, are forbidden to grant discharges to any man under their control who may be fit for service in the Invalid Corps.

The Provost Marshal General is charged with the execution of this order, and the troops organized under it will be under the control of his Bureau.

By order of the Secretary of War.

E. D. TOWNSEND,
my18:1imeam Assistant Adjutant General.

Reported Capture of Vicksburg.

Both our own special correspondent and the associated press dispatches give us reports, derived from refugees and other rebel sources, that General PEMBERTON had surrendered Vicksburg and his army of 12,000 men to General GRANT. The reports have the air of probability about them; but we prefer not to be too sanguine until they are better authenticated.

Some anxiety is felt that JOHNSTON, finding himself unable to relieve Vicksburg, will move down upon BANKS, and, if possible, save Port Hudson. The latter has some 25,000 men, while the garrison of Port Hudson is variously stated at from 4,000 to 16,000 or 18,000. The distance from Jackson to Port Hudson is about two hundred miles, the greater part of which can be traveled by railroad.

There is a remarkable similarity in the situation of both the contending parties and of both the places. Both are too strong to be taken by assault; both have been tried; both are closely invested; both are exposed to shells thrown from the river; and both, unless quickly relieved, must succumb to starvation and to intolerable bombardment. At the same time, it is equally true that one or the other may be relieved by Gen. JOHNSTON from the rear. Nevertheless, we have strong hope that both places are even now in the possession of our forces.

Missouri---Governor Gamble.

Many of the eastern delegates to the Chicago Canal Convention visited St. Louis after the adjournment, and were received with addresses and other manifestations of respect. But our object is to introduce the following brief notice of the speech of Gov. Gamble:

Gov. Gamble, on behalf of the State of Missouri, recognized the importance of the movement, and said: Missouri desires to sacrifice everything to the Union. [Cheers.] An institution which belongs to Missouri and connects her with the South she herself is about to remove. [Cheers.] She feels the importance of the injunction. "If the right hand offends cut it off." [Cheers.] That it is a fixed fact that it is to be done, and done as as it is probable that it can be done, is not to be permanent. I do not doubt at all. [Cheers.] I hope that you will exercise your influence not merely to open that canal, but that you will give to the people a true impression of the deep, the abiding determination and loyalty of Missouri in adhering to the Union, and consecrating her all to it. [Cheers.]

That will do. We have been in the habit of regarding Governor Gamble as being not quite as hearty in the work of emancipation as could be wished; but the above is as explicit as can be desired.

The Department of the Monongahela.

We have a paragraph in this paper giving the gratifying information that measures have been taken to put West Virginia and Western Pennsylvania in a better posture of defense. It is a little singular, however, that the press of Pittsburgh is obliged to receive intelligence of a movement of such local importance, and one brought about mainly by Pittsburghers, from New York and Washington. In a Washington letter to the *Dispatch* of this morning, we find the following additional information—more explicit than that which we copied from the New York *Evening Post*:

WASHINGTON, June 3.—General Moorhead has succeeded this morning in having a new department made. It comprises Western Pennsylvania and West Virginia, and it is to be called the Department of Monongahela. Headquarters at Pittsburg. The General in charge of Department will be announced to-morrow. General Barnard, an eminent Government engineer, left to-day for Pittsburgh, to aid in constructing works of defense. The Committee has also proceeded beyond their expectations in raising a volunteer force for the defense of the department—in pay, arms, &c.

A Colored Brigade to be Raised in Philadelphia.

—The Philadelphia *Press* of Monday says: The bravery and endurance displayed by the Second Louisiana colored regiment, at Port Hudson, has settled all doubts as to their fighting qualities. Gen. Lafayette Bingham, of Washington, is now in this city, and will at once commence the work of organizing a Philadelphia colored brigade, having been authorised to do so. On Saturday morning about two hundred colored recruits, raised in the interior of the State, passed through the city on their way to Massachusetts. Their appearance created quite a sensation among the colored people in the southern section of the city, and hundreds followed them through the streets cheering loudly as they took their departure.

A Hilton Head correspondent of the New York *Tribune* gives some interesting facts of the raid recently made from Beaufort by Col. Montgomery. The writer says the Colonel has brought off with him $400,000 worth of rebel property, has destroyed fifty dwelling-houses, has demonstrated beyond all question that negro soldiers will follow wherever a brave man dare lead, and that the slaves on the rice plantations of South Carolina are eager to reach our lines, and the male portion of them to enter the service of the Government in the capacity of soldiers.

The New York *Times* says:

We were mistaken, it appears, in supposing that the reconnoitering force from General Hooker's army secured the Rappahannock on Saturday. It was still on the other side on Sunday evening, and had been undisturbed by the enemy, who continued to occupy Fredericksburg in force, and still did so yesterday. Our correspondent thinks a general engagement may be imminent; though there are indications that there may be note-worthy events before the close of the week.

Reliable information as to the strength of the rebel force in East Tennessee leads to the belief that the invasion of Kentucky will be in greater force than at first reported. At Knoxville, it is said, there are but 15,000 troops, at Loudon Bridge 800, and at Strawberry Plains one thousand. One is held with but 2,000 men, and the force with Pegram, now said to be at Monticello, is variously reported at from 5,000 to 10,000. All remains perfectly quiet on the Cumberland river.

Is Pittsburgh in Danger?

In the following glance at the entire field of operations, and the probable movements of the rebel armies, in the event that they cannot save Richmond, the New York *Tribune* comes to the conclusion that Gen. LEE will attempt an invasion of Western Virginia, and a descent upon this city. We subjoin the article for the consideration of our readers. It is very true that we have no forces of any consequence between Gordonsville and this city; but can General LEE get away from his present position without a fight with HOOKER? or could he divide his army without exposing Richmond to certain capture? The capture of Pittsburgh, however desirable to the rebels, would be a poor compensation for the loss of their capital:

Though we have not hitherto been sanguine, we now feel more than hopeful that Vicksburg is a lost stronghold to the rebels. Gen. BLAIR's extensive reconnoissance pro
