We have had the the First ward, for resisting the enrollment. Gilksy refused to give his name, age or place of realdance to the senrolier, Mr. James Gra-cay, wherespon that gentleman very properly reported him to the Prevort Marshal, who preferred charges against him and handed him over to the custody of the United States Mar-shal for trial. The penalty for resisting or obstructing the enrollment is a fine not ex-ceeding five hundred dollars, or imprisonment not exceeding two years. A few examples of this kind will have a very solutary effect here. pleasure of a brief interview with General BROOK, and feel prepossessed in his favor. He strikes us as being a gentleman and a soldier

-one whom we shall all appreciate and esteem as we become better acquainted. The Government is now fully aroused in reference to the importance of this city as a "vital Union point:" the enemy so look upon it,

and we are assured that they are determined this kind will have a very salutary effect here. BURGHART.--A most daring burglary was perpetrated at the house of Mr. Jonathan Hochtsteire, near Mechanicaville, in Summit township, Somerset county, on Tuesday night of last weak. Some time during the night the house was entered by three men. Mr. Hochtsteire slept down stairs, and his three sons coupled rooms above. On being awak-ened, he made some outory, which aroused his stairs, knocking down the first son that ap-peared, and alterwards holding all three of them at bay in the narrow stairway, with a revolver, while the third rancel searched the old man's chest and drawar, and abitracted therefrom about one thousand dollars in species. The burglary were disguised, wearing black graps or silk over their faces. to sack our city. We are no alarmists; but we have sufficient information in regard to current military events to fix the belief that our eity is now in imminent danger of a rebel attack, by a strong force of cavalry and artillery, under a bold and desperate leader.

Let our people arours themselves to the fact. We have now a military executive head, clothod with fall power to organize the patriotic material, and protect our city from the invader. In addition to the volunteer forces under the command of Gan. BROOK, let our local forces -- whether infantry, cavalry or ar-

tillery, report to headquarters at dnee, and hald themselves in readiness to not as becomes brave man. We feel warranted in stating that the local

troops which have already been organised for the defense of our frontisr, when called into service by Gen. Bnoor, will be clothed, equip-ped, subsisted and paid by the Government, the same as any other troops. The officers will be specially commissioned by the Govern-ment, and these special troops will be used only in this department, and while the coca-tion seems to require: NARROW ESCAPE FROM DEATH.-Mrs. Dr. Stewart, of Greenville, Clarion county, nar-rweiy scaped death one day bist week.
