but as long as the army of the rebel General Les occupies its present threatening position, Pittsburgh is not only a point where an im-mense store of aspilles to our army could be out off or destroyed, but which would offer abundant means of subsitionce and most need-ed articles to the famished rebels, so long out of from the requisites to comfort and olvilisa-tion. To these facts our people seem to be alive, but in regard to the proper means for rendering efficient our abundant resources of men and material, there seems to be not only such a difference of opinion as to render all efforts mugatory, but such as will destroy, eventually, the very feeling which new atim-ulates to exertion, and render us stolid and indifferent. mittee, held last evening, the following number of men were reported as at work on the line of fortification : DAVIS' RILL Bable Iron Works.

May 12th, 1863. Order No.8. I take great pleasure in acknowl-edging the very galinat and solderlike man-ner in which the expedition signst the Apa-che Indians in the Gion do Auvaype was con-ducted, and the highly creditable result of the attack on those savages, who have been devastating, robbing and mardering in this Territory and Shours for conturiss. Capitain T. Tidball, Fifth Infantry, C. V., who commanded the expedition with so much good jadgment, may well be proud of it, and of the brave mon under his command, who marched for fire days without ever lighting a fre, for five days without ever lighting a fre, maintaining silence, hiding by day and tray-eling by night to accomplish their object. We all have to mourn over the barse and generous youth who fell doing his daty, Mr. Thomas O.
