MONDAY MORNING AUG. 8. LOCAL INTRLMERNCE From Saturday's Evening Edition. The Police Imbroglio.

The Select Council, at a special meeting place being on the Island in the Allegheny held on Friday evening, refused to reconsider river, near to Freeport, of which his father the ordinance passed by Common Council, in- was, at that time, the owner. creating the pay of the Night Police. Under the old ordinance, the police were paid one Clarion county, in July, 1851, and was chosen dollar per night, exclusive of the fees for 2d Lieutenant in Capt. Monks' company, making arrests. The new ordinance, as adopted by the Common Commil, ingressed the pay manded by the late Coi. Black, of Pittsburgh to one dollar and fifty outs per night, and A vacancy countring, he became let Lieutenout off all fees. When the matter came up for ant, then Adjutant, afterwards Aid to Gen.

one deliar and fifty estis per night, and out of all fees. When the matter came up for consideration in the Select branch, it was amended by faring the sightly pay at one deliar seat twenty. Are cents: It was with a view of reconsidering this settion, and concurring with the Common Generit, that it he special meeting was held.

The pay of the 'police,' under the present system, is shortly (they are paid for flemany). That is to say, 500 subtry (they are paid for flemany) and the same when faithfully discharged, are not leborious. They go lost days, as mind the set of the pay seep, it is true that less than a year ago there were more appliesant than could be head on the first of the flemany of the prisent is than 'colock, and get of a reform—making seven hours is all for their night's labor. What were may be said of the pay, seep, it is true that less than a year ago there were more appliesant than could be accommodated. Indeed, there has hiseys been an annual struggle among a certain delay for politions on the night watch. Even the simulous of 'substitute' has never yet gene a-bagging. But as we have said where the simulous of 'substitute' has never yet gene a-bagging. But as we have said where the simulous of 'substitute' has never yet gene a-bagging. Operations of Mosby's Guerrillas-Extensive Haut of Sutiers' Goods at Fatriax Court House. Naw York, Aug. 1 .- The Herald's Wash-

y ington dispatch says:

Mosby's gang made an extensive haul of Sulters' goods last night at Fairfax Court House. There is no Union force stationed immediately at the Court House. Some six or seven antiers, with their teams and dastall, hivouseked there last night, and were all made prisoners. As the Orange and Alexadria Raliread is the direct line of communication with the army, in its present position, less pains had been taken by the millitary authorities to guard-the-traplice road, between Alexandria and Conterville. The guerrilles, and were Mosby, were composed principally of residents of Fairfax county, who, aware of this fact, make their raids upon unarmed persons at points where no millitary force is stationed.
