Advices from Havana, Naw Yonz, Ang. 3.—Advices from Havana, to July 25, stating that everybody is taiking about the great fire. Sinteen large stores were entirelo destroyed. The fire began on the 224 inst, and is still burning, although now confined to the ruins. With considerable exertion, the railroad depot of the Gunava-oca railroad was asved/ on the fate of which depended fifteen more stores. The fire is explored to have commenced in some cotton bales/ of which were destroyed, belonging to sponsoinhus and Englishmen. Large quantities of goods, intended to be rain through the Mederal blocksde, were also cons-turned. There were also furned large lots of harness, horse shees, gin, salt-pere, nitre, percussion caps, sulphar, &c. There were also commend 630% borze sugar, valued at \$1,514,216. Total locs, estimated at \$1,118,-tisk here the is destinged at the still store. also soarmed 630 % boxes sugar, valued at 61,254,216. Tota ioss, estimated at 51,118-163, but this is decidedly under estimated. The General De Marina proposed to batter down the stores by broadcides from a frigatio, hoping thus to put out the fire by means of the inmiting rabbint thus showered upon it, and thus save a portion of the contests. But General Daice would not permit it. The French transport Milan was the first to fend assistance, and their example was followed by Spanish man-of-war; but, this was done two hours after the wardbourse were on fire.
